LAW DEPARTMENT Contract Administrator

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and to award a contract to Elizabeth A. Weber, an individual located at 1035 Main Street, Melrose, Mass., for professional services to be performed on behalf of the Corporation Counsel.

Under the terms of the contract, Ms. Weber will perform services as Contract Administrator for the Law Department. She will also perform services as Administrative Assistant to the Corporation Counsel.

Ms. Weber is uniquely qualified to do this work because she has administered contracts for the

City of Boston Law Department since 1986. In addition, Ms. Weber possesses 15 years of experience performing general administrative and legal secretarial work for the undersigned in a position which has required a very high level of trust and professional competence. The duties and responsibilities within the Law Department involve matters of a highly sensitive and confidential nature. Ms. Weber's demonstrated ability to exercise discretion, good judgment and self-direction are necessary to carry out the responsibilities within the office of the Corporation Counsel.

Compensation under this contract shall not exceed \$45,000. Payment shall be made at the rate of \$25 per hour. I have determined this rate to be reasonable for the work to be performed.

The term of this contract shall be from July 1, 1989 through June 30, 1990.

Because of the personal and professional nature of the services to be performed and Ms. Weber's special qualifications, I believe public advertising would serve no useful purpose.

Very truly yours,

Joseph I. Mulligan,

Special Outside Counsel

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and to award a contract to Harrison & Maguire, P.C., a law firm and professional corporation located at 24 School Street, Boston.

Pursuant to an Order passed by the City Council on August 17, 1988 and approved by your Honor on September 6, 1988, I have designated Mr. Perlmutter "Special Outside Counsel." The order classifies that position as a special municipal employee in accordance with G.L. c. 268A, the so-called "ethics law."

Under the terms of the contract, Attorney Steven P. Perlmutter of Harrison & Maguire will represent Police Officer Walter Robinson, Jr., in the case of *Heloise N. Pate versus John Crowley, et al.*, C.A. No. 67186 (Suffolk Superior Court); and Raymond L. Flynn, in his capacity as Mayor of the City of Boston, and the Public Facilities Commission of the City of Boston, in the case of *Morgan, et al. versus Nucci, et al.*, C.A. No. 72-911-G (United States District Court). Mr. Perlmutter has provided legal services in the Pate and Morgan cases in the past, and it is in the best interest of the City and the City employees who are defendants in these cases that he continue as their legal counsel.

Mr. Perlmutter shall also continue to provide consulting services and supervisory assistance to the Law Department in litigation matters generally on an "on-call," "as needed," basis.

In the above matters, payment will be made at the rate of \$135 per hour for Mr. Perlmutter's time. If Mr. Perlmutter determines that it is necessary for additional attorneys at Harrison & Maguire to assist on these cases, those attorneys shall be compensated at the following hourly rates within the total amount of compensation set forth above: Alex H. MacDonald, \$100 per hour; Lawrence P. Hefernan, \$90 per hour; Clive Martin and David Wilson, \$75 per hour. Paralegal time shall be compensated at the rate of \$25 per hour. I have determined these rates to be reasonable.

Mr. Perlmutter shall also represent the City in the case of *City of Boston, et al. versus Keene Corporation, et al.*, Suffolk Superior Court, C.A. No. 82254, (hereinafter referred to as the asbestos case) be securing the recovery costs incurred in

identifying, removing and/or encapsulating asbestos or other similar material in any and all buildings owned by the City. In consideration of the services rendered and to be rendered by Mr. Perlmutter in relation to these asbestos matters, the City will compensate him in accordance with the "Amended Contingent Fee Contract" dated March 31, 1987, annexed hereto. I have determined this fee agreement to be reasonable.

Harrison & Maguire also shall represent the City in prosecuting its claim against the Johns Manville Property Damage Settlement Trust. Payment will be made at the following rates: partners—\$135 per hour, associates—\$85 per hour and paralegals—\$55 per hour which is set forth in the Fee Agreement dated May 10, 1989, annexed hereto.

Mr. Perlmutter shall be required to submit periodic status reports to the Corporation Counsel and to confer with him as may be required or appropriate during the conduct of all of the above litigation.

Total compensation under this contract for all services enumerated above shall not exceed \$308,000. It is understood that \$35,000 shall be allocated to the Pate case; \$20,000 shall be allocated to the Morgan case; and \$3,000 shall be allocated for general consulting services and supervisory assistance as required. It is also understood that the portion of this contract relating to the asbestos case shall provide for the payment of Mr. Perlmutter's expenses in an amount not to exceed \$200,000 in accordance with the Amended Contingent Fee Agreement referred to above. It is further understood that \$50,000 shall be allocated to the Johns Manville asbestos claims in accordance with the Fee Agreement referred to above.

The period of this contract shall be July 1, 1989 through June 30, 1990.

Unadvertised contracts have been awarded to Harrison & Maguire, P.C. for the past three years in the following amounts: Fiscal Year 1989—\$383,000; Fiscal Year 1988—\$234,000; Fiscal Year 1987—\$110,500.

Because of the professional nature of the services to be performed, and in view of Mr. Perlmutter's extensive experience and expertise in litigating these kinds of matters, and because it is essential that continuity in representation be maintained, it is my opinion that public advertising would serve no useful purpose.

Very truly yours,

Joseph I. Mulligan,

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and to award a contract to Stanley J. Levy, an attorney with the law firm of Levy, Phillips & Konigsberg, with its offices located at 90 Park Avenue, New York, New York 10166.

Pursuant to an Order passed by the City Council on August 17, 1988 and approved by your Honor on September 6, 1988, I have designated Stanley J. Levy, Esquire, "Special Outside Counsel." The Order classifies that position as a special municipal employee in accordance with G.L. c. 268A, section 1(n), the so-called "ethics law."

Under the terms of the contract, Mr. Levy will represent the City in the case of *City of Boston, et al. versus Keene Corporation, et al.*, Suffolk Superior Court Civil Action No. 82254 in securing the recovery costs incurred in identifying, removing and/or encapsulating asbestos or other similar material in any and all buildings owned by the City of Boston.

In consideration of the services rendered and to

be rendered by Mr. Levy, the City hereby agrees to pay him in accordance with the "Amended Contingent Fee Contract" annexed hereto. I have determined this fee agreement to be reasonable. This contract shall also provide for expenses, including services rendered by law students and paralegals in an amount not to exceed \$100,000 which I have determined to be reasonable.

Unadvertised contracts have been awarded to Stanley J. Levy for the past three years in the following amounts:

Fiscal Year 1989 — \$250,000.

Fiscal Year 1988 — \$170,000.

Fiscal Year 1987 — \$60,000.

The term of this contract shall be July 10, 1989 through June 30, 1990.

Because of the professional nature of the services to be performed, I feel that public advertising would serve no useful purpose.

Very truly yours,

Joseph I. Mulligan, Jr.

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and to award a contract to George R. Sprague, an attorney with offices located at 30 Rowe's Wharf, Suite 730, Boston.

Pursuant to an Order passed by the City Council on August 17, 1988 and approved by your Honor on September 6, 1988, I have designated George R. Sprague, "Special Outside Council." The Order classifies that position as a special municipal employee in accordance with G.L. c. 268A, section 1(n), the so-called "ethics law."

The contract will require Mr. Sprague to review various matters pending before the Massachusetts Department of Public Utilities (DPU) regarding telephone rates and recommend action by the City, where appropriate. The City currently spends about \$4,000,000 annually on telephone services, and the rates approved for future telephone charges may have a substantial financial impact on the City. At a time when deregulation of the telecommunications industry has radically changed the cost structure of telephone service, it is required that the City participate in telephone rate proceedings. Mr. Sprague will represent the City of Boston in DPU 86-33 in which the New England Telephone Company seeks to have certain tariffs and rates approved by the Department of Public Utilities and in matters concerning any contracts between the City and the Telephone Company relating to the provisions of telephone service.

Mr. Sprague has represented the City successfully in various matters before the DPU in past fiscal years and the contract for fiscal year 1990 will allow an orderly continuation of that representation.

The term of this contract shall be from July 1, 1989 through June 30, 1990 at a cost not to exceed \$10,000 an amount I have determined to be reasonable. Payment will be made at the rate of \$100 per hour.

Unadvertised contracts have been awarded to George R. Sprague for the past three years in the following amounts:

Fiscal Year 1989 — \$15,000.

Fiscal Year 1988 — \$15,000.

Fiscal Year 1987 — \$7,495.

Due to the professional and unique nature of the services to be performed, I believe that public advertising would serve no useful purpose.

Very truly yours,

Joseph I. Mulligan, Jr.
Corporation Counsel.

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and to award a contract to Palmer & Dodge, One Beacon Street, Boston, for services as outside counsel.

Pursuant to an Order passed by the City Council on August 17, 1988 and approved by your Honor on September 6, 1988, I have designated Ralph Child, Esquire, "Special Outside Council." The Order classifies that position as a special municipal employee in accordance with G.L. c. 268A, section 1(n), the so-called "ethics law."

Under the terms of the contract, Palmer & Dodge will represent the City in the case of Conservation Law Foundation of New England, Inc. et al. verses City of Boston et al., C. A. No. 85-3961-MA. Since this case involves complicated environmental issues in federal and state law, it is in the City's best interest to have outside counsel represent the City. Mr. Ralph Child of Palmer & Dodge has extensive experience in litigating the issues involved in the above case.

Compensation under this contract shall not exceed \$15,000. Payment will be made at the rate of \$130 per hour. I have determined this rate to be reasonable.

Unadvertised contracts have been awarded to Palmer and Dodge for the past three years in the following amounts:

Fiscal Year 1989 — \$15,000.

Fiscal Year 1988 — \$15,000.

Fiscal Year 1987 — \$15,000.

The term of this contract will be July 1, 1989 through June 30, 1990.

Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purpose.

Very truly yours,

Joseph I. Mulligan, Jr.
Corporation Counsel

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and to award a contract to Robert Glass, an attorney located at 71 Summer Street, Boston.

Pursuant to an Order passed by the City Council on August 17, 1988 and approved by your Honor on September 6, 1988, I have designated Robert Glass, Esquire, "Special Outside Council." The Order classifies that position as a special municipal employee in accordance with G.L. c. 268A, section 1(n), the so-called "ethics law."

Under the terms of the contract, Attorney Glass will provide legal services and representation to the City of Boston legal services and representation to the City of Boston and Joseph M. Jordan in the case of Eloise N. Pate verses John Crowley, et al., which is presently being tried in Suffolk Superior Court, C.A. No. 67186. The City of Boston Law Department cannot provide such services because of potential conflict of interest. Attorney Glass is uniquely qualified to provide these services because of his expertise and experience in the trial of police misconduct cases in past fiscal years and this new contract will allow him to continue.

Compensation under this contract shall not exceed \$10,000. Payment will be made at the rate of \$100 per hour for partners and \$75 per hour for associates. I have determined these rates to be reasonable.

The period of this contract shall be July 1, 1989 through June 30, 1990.

Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purpose.

Very truly yours,

Joseph I. Mulligan, Jr.

The Order classifies that position as a special municipal employee in accordance with G.L. c. 268A, section 1(n), the so-called "ethics law."

Under the terms of the contract, Attorney Nugent will provide legal services and representation to the City of Boston legal services and representation to police officers Kenneth Accerra, Robert Cunningham, Daniel Donovan, Robert Kenney, William Lydon and William Kelley in the case of Eloise N. Pate verses John Crowley, et al., which is presently being tried in Suffolk Superior Court, C.A. No. 67186. The City of Boston Law Department cannot provide such services because of potential conflict of interest.

Attorney Nugent is uniquely qualified to provide these services because of his expertise and experience in the trial of police misconduct cases. In addition, Attorney Nugent represented these officers in past fiscal years and this new contract will allow him to continue.

ORDINANCE CLARIFYING EXEMPTION OF MHFA FROM CERTAIN SECTIONS OF RENT EQUITY ORDINANCE

The following was received:

City of Boston
Office of the Mayor

December 13, 1988.

To the City Council,
Dear Councillors:

I transmit herewith for your approval an amendment to the "Rental Housing Equity Ordinance" (chapter 34 of the Ordinances of 1984).

I am informed that, through a lack of clarity in the terms of the ordinance, certain sections were technically applicable to the Massachusetts Housing Finance Agency (MHFA), an agency which already has substantial rent and eviction regulations in place. Therefore, this amendment is intended to clarify that certain sections of the Rent Equity Ordinance do not apply to MHFA housing developments which are financed and regulated by MHFA's own regulations. Further, because the interrelationship between MHFA and Rent Equity eviction procedures requires further examination, this amendment provides that the Rent Equity Board shall engage in such a study and make its recommendations to the Mayor and Council within the next three months.

I urge your Honorable Body to pass this order as expeditiously as possible.

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

ORDINANCE ESTABLISHING A SOLID WASTE MANAGEMENT PROGRAM

Couns. SCONDRAS and SALERNO offered the following:

City of Boston

In the Year Nineteen Hundred and Eighty-eight.

An Ordinance Establishing a Solid Waste Management Program for the City of Boston.

Be it ordained by the City Council of Boston, as follows:

Whereas, Conventional methods of solid waste disposal such as landfilling and mass burn incineration create hazards to public health, cause pollution of air and water resources, constitute a waste of natural resources, have an adverse effect on land values, and create public nuisances; and

Whereas, Removing certain materials from the solid waste stream will decrease the flow of wastes to such disposal facilities, aid in the conservation and recovery of valuable resources, conserve energy in the manufacturing process, and increase the supply of reusable raw materials for industry; and

Whereas, Technology and methods now exist to dispose of solid wastes and recover resources with commensurate environmental and economic benefits; and

Whereas, A comprehensive plan is necessary to achieve the maximum feasible recovery of reusable materials from solid waste; and

Whereas, The Commonwealth of Massachusetts can make available certain programs, grants and funds to cities with approved recycling programs; and

Whereas, Rational solid waste management requires the generators of such waste to pay disposal costs that reflect the real costs to society of waste management and disposal; and

Whereas, Citizen and business participation in the City of Boston's recycling program will be enhanced by the implementation of a comprehensive public information campaign regarding the purpose, procedures and requirements of the city's recycling effort; and

Whereas, The City of Boston may most appropriately demonstrate its long-term commitment to proper solid waste management and help assure the growth of markets for products containing recycled materials by increasing the purchase of such products; and

Whereas, The Council wishes to increase, to the maximum extent feasible, the percentage of the total solid waste stream that is reused, composted, recycled or otherwise processed through methods other than landfilling and mass burn incineration; now, therefore, be it ordained by the City Council of Boston as follows:

Section 1. City of Boston Code, Ordinance, Title 3 is hereby amended by inserting the following new chapter:

Chapter . Solid Waste Management

Policy

It is the policy of the City of Boston to aggressively promote the reduction, reuse, recycling, composting and processing of solid waste to the maximum extent feasible in order to reduce the volume of waste and the risks related to its handling and disposal. The city will therefore pursue a hierarchy of solid waste management options based on the following priorities:

(1) Reduction of the amount of waste generated;

(2) Reuse, recycling, composting and processing to the maximum extent feasible to produce economically valuable materials and reduce the volume necessary for disposal;

(3) Recovery of the energy value from processed solid waste in a manner which preserves the quality of air, water and land resources; and

(4) Land disposal of the residuals.

It is the intention of this ordinance to provide for the creation of a program for the management and reduction of solid waste that over the long term is sustainable, environmentally sound, and economically beneficial.

Establishment of the Solid Waste Management Commission

There shall be in the city a commission known as the Solid Waste Management Commission, hereinafter referred to as the Commission. The Commission shall consist of the following Commissioners, who shall be appointed by the Mayor: the public works commissioner, the environment commissioner, the health and hospitals commissioner, a representative of the mayor's office, and a member of the City Council, serving in ex officio capacities; and four other commissioners, who shall be a person engaged in the business of collecting and disposing of solid waste in the city, a person engaged in the business of recycling in the city, a person representing an environmental protection organization, and a person representing a neighborhood organization.

The commissioner representing the City Council shall be a member of the Special Committee on Solid Waste selected by the members of that committee with the approval of the City Council President. The commissioners other than the public works commissioner, the environment commissioner, the health and hospitals commissioner, the representative of the Mayor's office, and the representative of the City Council shall be chosen from lists provided by the City Council's Special Committee on Solid Waste containing nominations of up to three persons for each of the four commissioners. Except of the representative of a neighborhood organization, the commissioners need not be residents of the City of Boston and shall serve a term of two years. Any vacancy in office of a commissioner shall be filled in like manner for the unexpired term.

The public works commissioner shall serve as Chairperson of the Commission. Ex officio commissioners, or their designees and mayor-appointed commissioners shall have the power to vote on any commission matter. Five commissioners shall constitute a quorum for the purposes of conducting the business of the Commission. Five votes shall be required to pass any Commission decision. The Commission shall meet at least monthly and

whenever five commissioners call for a meeting.

The commissioners shall be classified special municipal employees for the purposes of chapter 268A of the General Laws. The commissioners shall serve without compensation, but each mayor-appointed commissioner shall be entitled to his or her reasonable expenses actually and necessarily incurred in the performance of her or his duties as commissioner. These expenditures shall be paid from the budget of the Commission. Executive Director and Staff

The Commission shall hire an Executive Director, who shall not be a member of the Commission; said Executive Director shall be qualified by his or her knowledge of solid waste management and planning with a particular emphasis on integrated waste management and recycling. The Executive Director shall be paid a salary, established by the Mayor, comparable to the salary of other such city directors. The Executive Director shall have the powers of a department head and shall be responsible for carrying out the policies of this ordinance and the decisions of the Commission.

The director shall develop and recommend to the Commission an organizational structure for implementing the duties required of the Commission under this ordinance. The director shall appoint, with Commission approval, other such personnel as the Commission may from time to time deem expedient subject to appropriation. The staff shall be large enough to carry out the requirements of this ordinance. The Executive Director shall fix the compensation of the Commission staff within the budgetary limits of the Commission after appropriation by the City Council.

Preparation and Implementation of a Solid Waste Plan

The Commission shall, after notice and public hearing and within nine months after passage of this ordinance, adopt a citywide solid waste management plan and submit such plan to the City Council for approval. This initial version of the plan shall be based, to the extent appropriate, on the studies funded by the commonwealth in connection with its regional recycling program. After City Council approval, such plan shall be submitted to the commonwealth to assist in the creation of the statewide master plan for solid waste disposal.

The initial version of the plan, and revisions to be prepared every five years, shall be prepared by the Executive Director and staff and submitted to the Commission for approval. The plan shall:

(1) Identify the sources, types and quantities of solid waste generated within the city, including wastes generated by commercial and industrial sources, and projections of future waste generation;

(2) Set out a program for reducing the volume and toxicity of solid waste generated within the city, including a program to provide for the safe disposal of household hazardous waste;

(3) Set out a program for recycling, composting and otherwise processing solid waste to the maximum extent feasible in accordance with the policies set forth in this ordinance;

(4) Specify percentage targets for reduction and recycling and timetables for reaching such targets;

(5) Specify any pilot projects needed to evaluate methods and costs of recommended actions prior to full-scale implementation;

(6) Contain a facilities element specifying the types and sizes of needed recycling, composting and processing facilities; timetables for their completion; cost estimates; and conclusions as to whether such facilities should be owned and operated by the city, owned and operated by private contractors, or privately owned and operated;

(7) For each action identified in the plan, provide a timetable and work plan for accomplishing that action.

Upon approval of the plan by the City Council, the Executive Director shall immediately take all steps necessary for the development, siting and establishment of the facilities identified in the plan as being needed to recycle, compost or otherwise process solid waste and recyclables collected in the city. One or more requests for proposals, as appropriate, shall be prepared by the director, approved by the Commission and issued within 60 days of plan approval by the City Council.

The Commission shall monitor and track progress in implementing the plan and shall submit annual progress evaluations to the Mayor and City Council on January 1, 1990, and annually thereafter on January 1. In addition to reviewing progress in implementing the plan, these annual reports shall include an analysis of solid waste generation and disposal, an evaluation of the markets for recycled materials and the success of efforts to enhance such markets, and recommendations concerning existing and potential programs for solid waste reduction and recycling.

Establishment of a Mandatory Separation Program

There is hereby established a program for the mandatory separation of certain recyclable material from refuse by residents of the City of Boston and the collection of these recyclables at the curbside or other location. The collection of refuse and separated recyclables shall be made under the supervision of, and according to a schedule established by, the commissioner of public works.

The Commission shall, within one year after passage of this ordinance, adopt rules and regulations establishing the timetable for commencement of mandatory separation of recyclables, manner of collection, placement of set-out containers, and such other matters pertaining to the collection, removal and disposal of recyclables as shall assure their recycling. These regulations shall designate which materials are considered recyclables; the designation of recyclables shall be reviewed and revised periodically. These regulations may delay the commencement of the separation requirement for residents of residential premises containing more than six dwelling units for up to twelve months following the initiation of the separation requirement for all others.

Violations of the requirements of this section or the regulations promulgated hereunder shall be dealt with as follows:

(1) Persons authorized by the department of public works to collect refuse and recyclables shall note instances in which residents fail to separate recyclables from refuse or place non-recyclable materials in recycling set-out containers. These incidents shall be reported to the code enforcement department, which may issue warnings and/or tickets in the amount of \$50 for the first infraction, \$100 for the second infraction, \$150 for the third infraction, and \$200 for each succeeding infraction.

(2) Any person other than a person authorized by the department of public works who removes recyclables from set-out containers shall be fined two hundred dollars (\$200) by the code enforcement department.

(3) The code enforcement department shall enforce this section in accordance with G.L. c. 40, s. 21D.

(4) The Commission may develop alternative methods of enforcement where appropriate.

Educational Programs

The director and staff, with Commission approval, shall develop and implement an educational program to inform the public of the need for and the benefits of recycling of solid waste and reducing the amounts of solid waste generated. This educational program shall be developed and implemented in cooperation with public and private school systems, city departments and agencies, labor organizations, businesses, neighborhood organizations, and other interested parties. The program shall use workshops, brochures and flyers, print and electronic

advertising, public events, promotional activities, public service announcements, and other useful techniques.

In addition to developing and implementing such a program for the general public, the director shall develop and implement a program to educate businesses and industries about the availability and benefits of recycling and reduction.

Additional Duties of the Commission

The Commission shall assist in the development of industries and commercial enterprises within the city which use recyclable materials as raw materials or process recycled materials into economically beneficial form. The Commission shall work with the departments of environment, purchasing and real property and EDIC to attract such recycling industries to the city.

The Commission shall work with the Boston Redevelopment Authority to ensure that all major multifamily residential, commercial and industrial developments approved after January 1, 1990, incorporate provisions for separation of recyclables.

The Commission shall take all other steps needed to implement the policies set forth in this ordinance. Powers of the Commission

The Commission shall have the authority to:

(1) Employ a staff to carry out its functions;
(2) Budget and receive appropriated funds and accept, receive, and administer grants or other funds or gifts from public and private agencies, including the commonwealth and the federal government, for the purpose of carrying out the provisions of this chapter;

(3) Plan, design, construct, own, operate and maintain such recycling, composting and processing facilities as are found to be necessary or appropriate in carrying out the plan or contract for the planning, design, construction, ownership, operation and/or maintenance of such facilities;

(4) Issue debt obligations, pursuant to a two-thirds vote of the City Council, to construct recycling, composting or other solid waste processing facilities pursuant to section 28C of chapter 44 of the general laws and contract for the operation by others, or lease to others for operation by them, of such facilities;

(5) Adopt, after notice and public hearing, rules and regulations required by this ordinance and such other rules and regulations consistent with the provisions of this ordinance and the laws of the commonwealth and shall further the provisions of this ordinance;

(6) Retain by contract legal counsel, auditors, engineers, private consultants, advisors or other necessary or desirable contractual services;

(7) Fund, contract for or otherwise provide for the establishment of pilot projects needed to evaluate methods and costs or recommended actions prior to full scale implementation;

(8) Conduct such hearings, examinations and investigations as may be necessary and appropriate to the fulfillment of Commission responsibilities.

The Commission shall, when necessary or appropriate, delegate to the Executive Director the power and authority to carry out any of the provisions of this ordinance, provided that the Commission shall vote to approve or disapprove the final product or decision of the Executive Director.

The Executive Director is hereby empowered, on behalf of the Commission, to seek and make application for any and all state and/or federal funds that are or become available for a municipality to fund any solid waste management or planning activities.

The Commission shall not have the responsibility for contracting for or otherwise providing for collection of refuse and recyclables; this shall remain the responsibility of the department of public works.

The Commission may recommend to the Mayor and/or the City Council additional legislation to aid in the carrying out of the policies of this ordinance.

Establishment of Use Fees

The Commission shall develop a program for fixing and collecting fees for the collection and disposal of refuse. No such fees shall be charged for collection of recyclable. The Commission shall consider imposing fees for collection of more than a designated number of containers of refuse and/or requiring the use of special bags for which a fee is charged. The Commission shall evaluate how fees should be implemented for multi-unit and rental housing.

The Commission shall submit the user fee program to the City Council within 90 days after passage of this ordinance. Once a fee program has been approved by the Council, a fee schedule shall be adopted by the Commission after notice and public hearing; the fee schedule shall be revised annually. Such fees shall be fixed, revised and collected in accordance with the requirements of paragraph (f) of section 28C of chapter 44 of the general laws.

The Commission shall work with the assessing department to effect any transition to a system of fees and ensure that residents are not double-charged for refuse disposal through both tax bills and user fees. In order to begin the process of making citizens aware of the costs of solid waste collection and disposal, the commissioner of assessing shall disclose the portion of each taxpayers' tax bill attributable to solid waste collection and disposal costs on the first semi-annual tax mailing following enactment of this ordinance.

Purchase and Utilization of Products Containing Recycled Materials

The purchasing department shall review and modify all bid and product specifications relating to the purchase of recycled paper or recycled paper products so that the specifications do not discriminate against, but encourage, the maximum purchase of products made from recycled paper or recycled paper products. Preference shall be given to recycled paper or recycled paper products with the highest percentage of post-consumer waste material. Purchasing policies and specifications shall, to the extent possible, be consistent with the commonwealth's procurement policies for recycled paper and paper products.

In purchasing any paper or paper products for use by city departments, agencies or commissions, the purchasing department shall, whenever the price is competitive for the purpose intended, make contracts available for those items which are manufactured or produced from recycled paper or recycled paper products. For the purposes of this section, "competitive" means a price within 10 percent of the price of items which are manufactured or produced from virgin paper products.

All departments and agencies responsible for the maintenance of public lands are required to procure compost products when they can be substituted for, and cost no more than 10 percent more than, regular soil amendment products, provided the compost products meet all applicable standards, specifications and regulations. This preference shall apply to, but not be limited to, landscaping, park, roadway and roadway planting projects.

Transition

The department of public works shall not sign contracts for the collection or disposal of solid waste which are inconsistent with the policies of this ordinance or which would limit the ability of the Commission to implement the ordinance as expeditiously as possible.

Other City Agencies

The services of all city departments, agencies and other commissions shall be made available to the Commission for the purposes of effectuating the provisions of this ordinance. The head of any department, agency or

other commission shall furnish information in the possession of such department, agency, or other commission when the Commission or Executive Director so requests and where such information relates to the duties of the Commission.

Section 2. The provisions of this ordinance shall be liberally construed for the accomplishment of the policies and purposes hereof.

Section 3. If any provision or section of this chapter shall be held to be invalid by a court of competent jurisdiction, then such provision or section shall be considered separately and apart from the remaining provisions or sections of this ordinance, which shall remain in full force and effect.

Section 4. This ordinance shall take effect upon passage.

Referred to the Special Committee on Waste Management.

ORDINANCE RE WORKPLACE SMOKING POLLUTION CONTROL ORDINANCE

Coun. YANCEY offered the following:
Ordinance Relating to Health and Safety
Workplace Smoking Pollution Control Ordinance

Legislative Intent — The use of tobacco for smoking purposes is found to be increasingly dangerous and life-threatening, not only to the person smoking, but also to the non-smoking person who is required to breathe air contaminated by environmental tobacco smoke. The most pervasive intrusion of the non-smokers' right to a healthy, unpolluted air space is the uncontrolled smoking in the workplace. The Boston City Council intent, by the passage of this ordinance, is to protect the health and welfare of the non-smoker by regulating smoking and the discomforting effect it creates in the confined environment of the work place.

Title — This ordinance shall be known as the Boston Workplace Smoking Pollution Control Ordinance.

Purpose — Because the smoking of tobacco or any other weed or plant is extremely dangerous to health and is a cause of material annoyance and discomfort to those employees who are exposed to it and have, of economic necessity, to work in the confines of a workplace, the City Council hereby declares that the purposes of this act are (1) to protect the public health and welfare by regulating smoking in the workplace; and (2) to minimize the toxic effects of smoking in the workplace by requiring an employer to adopt a policy that will accommodate, insofar as possible, the preferences of non-smokers and smokers, and if a satisfactory accommodation cannot be reached for all employees, to prohibit smoking in the workplace.

This ordinance does not prevent an employer from totally prohibiting smoking in the workplace. If an employer allows employees to smoke in the workplace, the ordinance requires (1) that the employer make reasonable accommodation for the preferences of both non-smoking and smoking employees; and (2) that the employer must give particular preference to employees who, as a result of either a cardiovascular illness, pulmonary illness, or any other physical condition affecting the eyes, nose and throat, are sensitive to the discomforts of tobacco smoke; and (3) that if an accommodation satisfactory to all affected non-smoking employees cannot be reached, the employer must prohibit all smoking in the workplace; and (4) that all non-smoking areas be designated and conspicuously marked with signs; and (5) that employers be prohibited from terminating, without due cause, or discriminating against any employee solely because the employee exercised his or her right under this act.

The workplace includes, but is not limited to, office spaces or work spaces in office buildings, office spaces or work spaces in all municipal office buildings, offices spaces or work spaces in all public buildings, office spaces or work spaces in all federal office buildings where other than federal employees are employed and the federal regulations restricting smoking in federal buildings are not applied, medical office waiting rooms or areas and other medical treatment facilities, all manufacturing plant offices or work spaces not under the control of the federal government regulations restricting smoking in federal buildings or the General Service Administration (GSA) regulations restricting smoking in federal buildings;

Regulation of Smoking in the Workplace

- (1) Each employer who operates a workplace in Boston must implement, maintain, and conspicuously post for all employees to see, a written smoking policy which will contain, at a minimum, the following provisions and requirements:
 - (a) Any employee may object to his or her employer about the smoke hazard or discomforts in his or her workplace. Using existing means of ventilation or separation or partition of the work space, the employer must attempt expeditiously, within thirty (30) days of the initial date of objection, to reach a reasonable accommodation, insofar as possible, between the preferences of all the non-smoking and smoking employees. However, an employer is not required by this ordinance to make any expenditures or structural changes to accommodate the preferences of non-smoking or smoking employees.
 - (b) If an accommodation which is satisfactory to all affected non-smoking employees cannot be reached in any given workplace, the preference and right of the non-smoking employees to work in a healthy atmosphere free from the hazards or discomforts of tobacco smoke shall prevail and the employer must prohibit all smoking in the workplace. Where the employer prohibits smoking in either the entire workplace or in any portion thereof, the area(s) in which smoking is prohibited must be clearly and conspicuously marked with signs.
- (2) The employer's smoking policy must be announced to all employees and posted conspicuously in all workplaces under the employer's ju-

risdiction in Boston.

- (3) Anyone who becomes an employer in Boston after the passage of this ordinance must, within three (3) months of becoming an employer, adopt, implement, maintain, and conspicuously post for all employees to see, a written smoking policy with all the provisions mentioned herein.

Where Smoking Not Regulated — This ordinance is not intended to regulate smoking in the following places and under the following conditions within Boston:

- (1) A private home which may serve as a workplace;
- (2) Any office space leased or rented by a sole independent contractor for his or her own use; or,
- (3) A business used exclusively for the sale of tobacco products.

- (1) The Boston Board of Health, having received a written and signed letter of complaint from an employee citing a violation of this ordinance, must enforce, within thirty (30) days, the entire ordinance against violations by either of the following actions:
 - (a) Serving written notice to comply to an employer, with a copy of the notice to the complainant, requiring the employer to correct, within ten (10) days, any violation of any section of this ordinance. The employer must also be sent a copy of this ordinance at the time notice is served. Upon receiving a second signed complaint at the Boston Board of Health for the same or continued violation by the same employer, and failing all other attempts by the Boston Board of Health to expeditiously, and within thirty (30) days, mediate the complaint, the complaint must be resolved by;
 - (b) Calling upon the attorney for Boston to maintain promptly an action for injunction to enforce the provisions of this act, to cause the correction of such violation or section, and for assessment and recovery of a civil penalty for such violation;
- (2) An employer who violates this act shall be liable for a civil penalty, not to be less than fifty dollars (\$50) or exceed five hundred dollars (\$500), which penalty shall be assessed and recovered in a civil action brought by the attorney for Boston in any court of competent jurisdiction. Each day such violation is committed by an employer or permitted to continue by an employer shall constitute a separate offense and must be punishable as such. Any penalty assessed and recovered in an action brought pursuant to this paragraph shall be paid over to the treasury of Boston and become part of the general fund.
- (3) In undertaking the enforcement of this ordinance, the community of Boston is assuming an undertaking only to promote the health and general welfare of the working public. It is not assuming, nor is it imposing on its officers and employees, an obligation for breach of which it is liable in money damages to any person who claims that such breach proximately caused injury.
- (4) If any provision of this ordinance is declared invalid or unenforceable by a court of competent jurisdiction, the other provisions of the act shall not be affected thereby, but shall continue in full force and effect.

This ordinance shall take effect ninety days after passage.

STATEMENT OF COUNCILLOR IANNELLA

Having received unanimous consent to make a statement, Councillor IANNELLA said that he had been informed by the Clerk that this would be the Council's final meeting for the year 1988. He said that he had served as President before but that he had never enjoyed such an excellent year as 1988 because of the good sportsmanship, decorum, concise debate, and that he had been proud to serve as President. He offered the following summary of Council actions this year:

The Council met on the first Monday in January and elected Councillor Christopher A. Iannella as President.

Fourteen committees and four special committees were drawn up and set to work immediately.

By the last meeting held on December 14, 1988, the council had met forty times and held 167 meetings. Some of the matters that were initiated and acted upon include:

Removal of abandoned cars; creation of and funding for a Groundwater Trust; control of the sale of realistic looking toy guns; location of space for a Farmer's Market on City Hall Plaza; location of space for a day care center in City Hall; recommendations on the Immigration Reform and Control Act; expansion of the Comparable Worth Commission; requirement for yearly departmental reports; imposition of fines for faulty fire alarms; protection for roomers in lodging housings; mediation in the midwife resignations at Boston City Hospital; protection for tenants in governmentally involved housing; strengthening of environmental ordinances; support for the right of elderly tenants to keep pets; boycott of Shell products; provision for Radon testing; disposal of hazardous medical waste; support for a needle exchange program and issuance of report with recommendations for controlling the spread of AIDS among IV drug users; creation of a recycling plan; overview of Boston Redevelopment Authority budget; raising City of Boston contract limits.

The Council insisted upon quarterly allotments reporting procedures as required by C. 701 of the Acts of 1986, analyzed revenue projections and established periodic budget reviews.

The Council voted to accept legislation which increased the residential exemption to 20 percent. This contributed to an average decrease of \$300 or 5 percent in tax bills for homeowners.

The Council voted to accept provisions of the Pension Reform Act which provides for the establishment of a funding schedule for the reduction of the retirement system's unfunded actuarial liability to zero. Another provision accepted by the council provides that city employees who are seventy years of age and continue working will now receive greater benefits when they retire. Also accepted were provisions of a special law regarding payment of burial expenses for certain retirees.

Coun. IANNELLA moved that the foregoing summary report be docketed and made part of the record for the Council Year 1988.

The motion was carried.

Coun. BYRNE, for all the Councillors, thanked Councillor IANNELLA and congratulated him on a job well done

PRESIDENT, CITY COUNCIL

VOL. 81

NO. 37

HARBORPARK DAY 1989

Mayor Raymond L. Flynn announced recently that the city's fifth annual Harborpark Day will be held on September 16, from noon to 6 p.m., at the Charlestown Navy Yard. It will be held in conjunction with the annual 'Chowdafest' staged by Horizons for Youth.

Mayor Flynn said, "Harborpark Day is the city's way of celebrating public access to the waterfront for families from every neighborhood. It is our way of focusing attention on the harbor as a resource everyone in the city can enjoy.

"We are pleased that once again we are coordinating our activities with the 'Chowdafest' event which raises funds needed for Horizons for Youth and the programs that organization offers to young people in our neighborhoods. We are also fortunate to be hosting a visit on Harborpark Day by one of the U.S. Navy's most modern ships, the USS TRIPPE."

Mayor Flynn said there will be a free water shuttle operating from Long Wharf on the downtown waterfront to provide convenient transportation from downtown to the Navy Yard.

"Chowdafest," which has been held since 1982, enables visitors to sample chowder from 20 restaurants in Boston and then to cast a ballot for Boston's best chowder. Entry fee for participants in the "Chowdafest" is \$6 for adults and \$3 for children and senior citizens. As part of "Chowdafest" there will be continuous live musical entertainment. All "Chowdafest" proceeds help fund outdoor and camping programs for needy, disadvantaged and other youngsters through Horizons for Youth.

In Shipyard Park, children's events will take place continuously from 12:30 p.m. to 4:30 p.m., sponsored by The Raymond Group, the largest developer of the Charlestown Navy Yard, currently developing Flagship Wharf. A 201-unit condominium project, Flagship Wharf is scheduled for completion in August 1990.

Highlights include clowns, face painters, and the Strawberry Jam Band. Magic shows and puppet shows will also be presented along with the Massachusetts Audubon Society's Animal Ark from Drumlin Farm. Also on display will be an engine from the Edaville Railroad. The 14 by 25-foot, 18-ton steam engine may be viewed throughout the day. Free balloons will be available for each child attending Harborpark Day.

The USS TRIPPE, a frigate measuring 438 feet, will be docked at the Navy Yard. The ship will be in Boston for the entire weekend and the public will be able to tour the ship on both Saturday and Sunday, from noon to six p.m.

At the Boston National Historic Park, where the USS CONSTITUTION is berthed, the National Park Service will sponsor the following events: an historic eighteenth-century encampment; the 47th Regiment of Foot. The Bridgewater Antiphonal Brass Society will perform in concert from 2:00 to 4:00 p.m.; adjacent to the USS CONSTITUTION, the Northshore Old Car Club will host an antique car show to be held throughout the day, and the Marine Detachment will perform historic gun drills. All of these events will take place on Pier 1.

BRA Director Stephen Coyle said, "Harborpark Day gives everyone a chance to see the changes taking place on our waterfront and the success we have experienced in blending economic growth with the amenities that make the harbor so enjoyable to so many people."

AUGUST RECAP OF COMMUNITY
SCHOOLS AND RECREATION
CENTERS EVENTS

Boston Community Schools and Recreation Centers continued a busy summer schedule with a few blockbuster events last month. As part of Mayor Flynn's Boston Youth Campaign, Community Schools and Recreation Centers sponsored ongoing as

well as special events aimed at providing Boston's youth with a safe and productive summer.

Programs which have been ongoing this summer include: the Boston Youth Clean-up Corps which employed over 500 youths to clean vacant lots, alleys, parks and other public spaces, the Boston Neighborhood Basketball League involving over 3,500 local youths throughout the city, the Youth Outreach Program which teaches teens how to become positive role models within their communities, and the Drug Awareness Clinics.

On Thursday, August 17th from 9:30 a.m. through 3:00 p.m. a "Festival of Hope" was held on Boston Common. Co-sponsored by Associated Grantmakers, this event celebrates "children and teens using peace as a means." The dual purpose of this event is to send a hopeful message to Greater Boston that its young people care about building a peaceful community and to celebrate a peaceful summer. The Festival of Hope will feature a kick-off parade, games, entertainment and music.

On Saturday, August 19th L Street Day was held at the L Street Recreation Center on Day Boulevard in South Boston. This annual event features a barbeque, road race, entertainment, games, competitions and much more.

On Friday, August 25th Community School's Boston Youth Clean-up Corps participated in a "Refuse Rap-off" at City Hall Plaza. The Youths involved in the program performed their own rap compositions involving themes about their summer work experience.

THE BOSTON MANAGEMENT CONSORTIUM

The Boston Management Consortium (BMC) is a public-private partnership, proposed by Mayor Raymond Flynn to the business community in August 1988, which promotes management training and development training and development for City managers. The Consortium advises on the quality of services offered, provides in-kind donations, and assists in obtaining short-term financial aid to implement programs.

The BMC began to take shape in the Fall of 1988 when many leading Boston corporations contributed the expertise of their top human resource professionals to help develop a plan for the Consortium. This joint effort allowed the City to progress beyond the Management Performance Program (MPP) to provide City of Boston managers with a unique Management Performance and Development Program.

The BMC meets several times per year to monitor progress and exchange ideas and information — keeping the Program on the cutting edge of management training. Five Consortium committees offer the advice and experience of private sector companies to the City's analysis of municipal problems. For example, the partnership links the management training component of firms like Polaroid directly with managers in the Mayor's Office of Elderly Affairs and connects transportation management consultants with the Transportation Department. Participation of BMC companies has clearly broadened and enriched Management opportunities for City managers.

BMC members come from over 50 Boston-area businesses and several Boston-area graduate schools of management and public policy. The Consortium is chaired by Richard Van Pelt, Chairman and CEO of Jordan Marsh Company; the Executive Committee is chaired by James Darr, Vice President of State Street Bank. Other Committee chairs are Chris Newell, of Lotus Development (Management Training), Bill Ni-

green, of Fidelity Investments (Follow Through), Karen Hurst, of Bank of New England (Development), and Bill Crittenden, of Northeastern University (Needs Assessment and Evaluation). Member businesses have made contributions including:

- **Financial Assistance:** gifts ranging from \$1,000 to \$13,000, received through the Boston Private Industry Council, a tax-exempt non-profit agency;

- **Training and Consultation:** loaning of trainers for workshops exclusively for City managers, donating slots in corporate training materials, and loaning of consultant time to departments;

- **Furniture and Equipment** for the newly refurbished Development Center at 152 North Street.

The City of Boston was cited in an April, 1989 study by the U. S. Conference of Mayors as the leader in management development among the nation's largest 25 cities. Boston's commitment to management development meshes perfectly with this unique public/private partnership.

MAKING STRIDES: THE TERRY FOX RUN

Dear Friend of the
American Cancer Society.

Progress against cancer in recent years has been exciting and far-reaching. Fully one half of all cancer patients can now be cured of their disease.

No single event more dramatically illustrates this progress than *Making Strides: The Terry Fox Run*, the annual five-mile move-along-athon around Boston's Charles River presented for the benefit of the American Cancer Society. The run is in honor of the young Canadian cancer amputee who attempted to run across Canada in 1981 to raise awareness that cancer can be beaten.

I hope you'll join us for the fourth annual *Making Strides* on Sunday, September 17. Registration begins at 9:30

a.m. at the Four Seasons Hotel, across from the Boston Public Garden, and the run starts at noon. More than 4,500 runners, walkers, skateboarders, cyclists, and wheelchair users are expected to raise more than \$200,000 to fund the American Cancer Society's programs of cancer research, education, and services for area cancer patients.

The central message of *Making Strides: The Terry Fox Run* is that crossing the finish line is not as important as crossing the starting line. Many of the participants, like Terry Fox, have been touched by cancer. Most of the participants know or have known someone with cancer, and are walking, running or rolling in their honor.

Begin now and encourage your family, friends, and co-workers to sponsor you. There are prizes and lots of surprises awaiting you on September 17 — see you there!

Sincerely yours,
JOHN FOLEY,
Chairman, Crusade Committee.

ACTOR FOR THE AGES

A Film Program: Sir Laurence Olivier, 1907-1989.

Rabb Lecture Hall, Boston Public Library, Copley Square, Mondays at 6:00 p.m., September 11, through November 13, 1989 (except October 9 and 23, 1989). The program is free and open to the public. Available seating is limited.

The Boston Public Library presents a tribute to Sir Laurence Olivier through a series of eight of his greatest screen performances.

Upon his death in July 1989, the world lost the most gifted and creative actor-director of our time. However, through the magic of cinema, many of his finest performances have been captured and preserved. They may be experienced again in the Rabb Lecture Hall on eight Monday evenings during September, October, and November. September 11.

Hamlet, 152 minutes. b/w. 1948.

Winner of five Academy Awards, including Best Picture and Best Actor, this exceptional film is one of the great landmarks in motion picture history. Sir Laurence Olivier starred in, produced, and directed another film translation of Shakespeare's masterworks. Although changes were made in order to adapt

the text to film, including the omission of soliloquies and the transposing of scenes, this film remains one of the best versions of Shakespeare's *Hamlet*.

September 18.

Wuthering Heights, 104 minutes. b/w. 1939.

The superb acting of Sir Laurence Olivier, the dark beauty of Merle Oberon, the award-winning black-and-white cinematography of Gregg Toland, and the faithful adaption by Hugh Williams of Emily Brontë's classic work create a masterpiece of dramatic film genre. Directed by William Wyler. Produced by Samuel Goldwyn. September 25.

Henry V, 137 minutes. color. 1944.

Sir Laurence Olivier produced, directed, and acted in this magnificent cinema epic during the height of World War II. The first Shakespeare film in color, it was also the first to gain critical acclaim. Rhythmically edited and precisely matched to the brilliant score of Sir William Walton, the camera tracks backward, not forward as in traditional cinema. Sir Laurence treats Henry's soliloquies as thought heard on the sound track, not visually spoken, a device which was often used in later Shakespearean films.

October 2.

Rebecca, 115 minutes. b/w. 1940.

A tale of suspense based on the successful novel by Daphne du Maurier in which a young bride is haunted by the memory of her husband's first wife. Winner of Academy Awards for Best Picture and Best Cinematography (black and white). Stars Sir Laurence Olivier, Joan Fontaine, and George Sanders. The first American film directed by Alfred Hitchcock. Produced by David O. Selznik.

October 16.

Othello, 166 minutes. color. 1965.

A brilliant transferal from stage to screen of Olivier's legendary stage portrayal of the Moor of Venice. Also starring Frank Finlay, Maggie Smith, Joyce Redman, and Derek Jacobi. Nominated for many awards. Shakespeare's text is adapted to the screen almost intact. Directed by Stuart Burge, as staged in the theatre by Sir Laurence. October 30.

The Entertainer, 97 minutes. b/w. 1960.

Sir Laurence Olivier stars in this adult drama about an egocentric, second-rate song and dance man who alien-

ates his son, daughter, wife, and father when he exploits them by lying and cheating. Supporting cast includes Albert Finney, Alan Bates, and Joan Plowright. Based on the play by John Osborne. This was Sir Laurence's favorite role. Directed by Tony Richardson. November 6.

Richard III, 155 minutes. color. 1955.

Produced, directed by, and starring Sir Laurence Olivier in the title role, *Richard III* translated perfectly to film. With the talents of Sir Cedric Hardwicke, Sir John Gielgud, Sir Ralph Richardson, and Claire Bloom, Olivier created a Technicolor masterpiece that proved his contention that great Shakespeare can be brought to the screen as great entertainment. Olivier was nominated for an Academy Award for Best Actor and the film won three British Film Academy Awards. November 13.

Pride and Prejudice, 118 minutes. b/w. 1940.

This classic comedy of manners is an adaptation of Jane Austen's novel about five husband-hunting sisters in early 19th-century England and stars Sir Laurence Olivier as Mr. Darcy and Greer Garson as Elizabeth. The cast also includes Edna May Oliver, Edmund Gwenn, Mary Boland, Maureen O'Sullivan, Karen Morley, Ann Rutherford, and Marsha Hunt. Directed by Robert Z. Leonard. Produced by MGM.

III. HIGH COMMENDATION

On August 13, 1989, at 2110 hours, Ladder Company 7 responded to a building fire at 46 Lyons Street, District 7. Upon arrival, fire was showing from the rear of a three story duplex on the second and third floors. Citizens informed Fire Fighters John J. Sullivan and John L. McKay, of Ladder Company 7, that a woman and her child were still in the second floor and a man, who had entered the building to search for them, had not returned.

Both firefighters entered the building by the front door and made their way to the second floor via the front stairs. Upon reaching the second floor, Fire Fighter John J. Sullivan entered the left side apartment and conducted a room to room search through heavy smoke and increasingly intense heat. He located a woman at the rear of the apartment who, in an extremely confused and nearly unconscious state, was holding an infant wrapped in a blanket. Fire Fighter Sullivan immediately removed them to safety, through the front of the building, to the street.

Simultaneously, Fire Fighter John L. McKay entered the right side apartment of the second floor and conducted a room to room search through heavy smoke and intense heat. He located a man at the rear of the apartment, who was at floor level attempting to open the door to the rear stairway which was fully involved in fire. Fire Fighter McKay forcibly restrained the man from opening this door and removed him to the street through the front of the building.

Both of these rescues were performed before ventilation had occurred or lines were in place. Adding to the difficulty and confusion was the fact that the occupants were unable to speak English, making communication extremely difficult.

Because these rescues were performed at great personal risk, reflecting great credit upon themselves and the Boston Fire Department, the Fire Commissioner is pleased to highly commend Fire Fighter John J. Sullivan and Fire Fighter John L. McKay of Ladder Company 7 and refers their cases to the Board of Merit for further consideration.

IV. COMMENDATION

CONTRACTS AMENDED

The Mayor has approved the amending of contracts, based on the following information:

**HEALTH AND HOSPITALS DEPARTMENT
Form Production**

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to amend the contract with Moore Business Forms, 1205 Milwaukee Avenue, Glenview, Illinois 60025, to furnish Form Production and Management, to the Department of Health and Hospitals, for the period September 1, 1987, through August 31, 1989, at a cost not to exceed \$415,000.

This amendment will increase the amount of the contract by \$84,000, thereby increasing the City's total liability under this contract to an amount not to exceed \$499,000.

This amendment is necessary because of the unforeseen increase in the usage of many forms, as well as the acquisition of many new forms to go along with new procedures and programs here at the Department of Health and Hospitals.

In view of the above and because the cost, in my opinion, is reasonable, I recommend approval of this amendment.

Very truly yours,
Judith Kurland,
Commissioner.

**POLICE DEPARTMENT
Special Hearings Officer**

Dear Mayor Flynn:

On April 6, 1989, your Honor approved the award of a contract, without public advertising for bids, to Keohane and DeTore of 21 Custom House Street, Boston, for presiding as Special Hearings Officer over the new hackney rate setting policy hearings. The contract covers the time period of February 23, 1989, through June 30, 1989, at a cost not to exceed \$60,000.

Your approval is requested to amend this contract to provide for previously omitted expenses not to exceed \$4,635 and an additional \$5,635 in hourly compensation. The rate of compensation is \$150 per hour. This amendment has become necessary due to the increased number of public hearings needed to analyze the complexities of this issue. The cost of this amendment which is effective on June 12, 1989, shall not exceed \$10,000, which I have determined to be reasonable. The total cost of this contract, as amended, shall not exceed \$70,000. This funding will be charged against appropriation 011 211 0211 PD03 0290 with an initial encumbrance of \$10,000.

Because of the professional nature of the service to be performed and your Honor's commitment to the new rate setting policy, I believe that public advertising would serve no useful purpose.

Respectfully,
Francis M. Roache,
Police Commissioner.

**SCHOOL DEPARTMENT
Printing Services**

Dear Mayor Flynn:

On May 25, 1988, your Honor approved an award of a contract No. 4459-89 based upon public advertising for bids to Goodway Graphics, 16 A Street, Burlington, for printing services during the

period July 1, 1988, through June 30, 1989, at a cost not to exceed \$60,000.

Your approval is requested to amend this contract for an additional \$35,000, increasing the not to exceed figure of the contract to \$95,000. Contract period will remain the same.

The reason for the need to amend this contract is due to the recent award to Goodway Graphics for the printing of the Elementary Textbook Catalog and the Secondary Textbook Catalog. Goodway submitted the lowest price quote for each of these printing jobs.

The letter of award dated April 12, 1988, stated that payments under contracts for all firms would not exceed \$1,000,000. McDonald Evans (CO4462-89 for \$60,000) has not been responding to our request for price quotes and Sir Speedy (CO4466-89 for \$40,000) is no longer in business. This will still allow us to remain below the \$1,000,000 figure stated in the award letter.

Very truly yours,
Leo J. Burke,
Business Manager.

Xerox Maintenance

Dear Mr. Mayor:

On June 1, 1989 your Honor approved the award of a contract (4408-89), without public advertising for bids to Xerox Corporation, 155 Federal Street, Boston, for furnishing maintenance of equipment for the period July 1, 1988, through June 30, 1989, at a cost not to exceed \$650,000.

Your approval is requested to amend this contract to provide for additional monies to cover copier costs. Since machine usage has exceeded the original estimate and since machine usage determined maintenance costs, it is necessary at this time to amend upward the existing contract with Xerox.

The cost of this amendment, which is effective on June 15, 1989, shall not exceed \$150,000. The contract as amended, shall not exceed \$800,000. This funding will be charged against appropriation 940/030. The period of this contract remains July 1, 1988, through June 30, 1989.

Because Xerox Corporation is performing existing services, and the price is reasonable, I believe that public advertising would serve no useful purpose.

Very truly yours,
Leo J. Burke,
Business Manager.

Each bidder shall submit with the bid completed Minority/Women Business Utilization Form (M/WBU-F). PRESIDENT, CITY COUNCIL

VOL. 81

MONDAY, SEPTEMBER 4, 1989

NO. 36

LABOR DAY SEPTEMBER 4, 1989

LABOR DAY

In honor of the wage earners of the Nation, the United States and Canada have set aside the first Monday in September as Labor Day, a legal holiday. The observance of this day emanated from an annual parade in New York City by the Knights of Labor on September 5, in the 1880's.

Oregon, in 1887, was the first state to recognize Labor Day as a legal holiday, and other states quickly followed. On June 28, 1894, Congress passed a bill making the day a national holiday. All the states in the Union now observe Labor Day as a national holiday.

FLYNN CALLS BENNETT DRUG PLAN "TOO LITTLE, TOO LATE"

Boston Mayor Raymond L. Flynn, Chairman of the United States Conference of Mayors Advisory Board, met with the leading mayors of the country at the Conference's Executive Committee and Advisory Board meeting in Newport, Rhode Island, Monday, August 6 and Tuesday, August 7. The purpose of this meeting was to finalize a legislative and policy agenda for the Conference over the next year.

Mayor Flynn urged his fellow mayors to "set three clear priorities which have the strong support of the American people:

1) "A real war on drugs, instead of the phony war proposed by Mr. Bennett and the Administration. We need \$3 billion in new funding to support law enforcement efforts, education of our kids beginning in the first grade, and treatment on demand for all who seek it.

2) "A comprehensive housing bill that produces the housing we need and preserves the housing we have. Now that the multi-billion dollar savings and loan bailout is out of Congress, we should finally see some attention focused on restoring the 'American Dream' of safe, decent and affordable housing for all Americans.

3) "A far-reaching effort to end poverty — from our inner cities to our impoverished rural areas. This effort includes support for education, child care, affordable health care and economic opportunity for all."

Flynn noted that, "Washington seems to have its hands tied behind its back every time it tries to take on real issues. We have a 'drug czar' that takes over half a year to give orders and when he does, it's uncertain anyone will respond. The House of Representatives has already voted its appropriations for Fiscal Year 1990, and they've level funded most anti-drug programs. What good does it do now to hear from Mr. Bennett that a few more nickels and dimes are needed? It's too little and too late. The train has left the station."

Flynn continued, "The drug issue isn't the only one that's bogged down by misplaced priorities. Young families seeking to buy their first home and poor families seeking shelter had some hope at the beginning of the year when the National Affordable Housing Act was introduced in the Senate and similar legislation was introduced in the House. Instead, these dreams have been deferred as the costly savings and loan

bailout has dominated Congress' agenda, followed by the revelations of mismanagement at HUD over the past eight years. Exposing greed is half the problem, now we need to refocus our attentions on helping those in need.

"We as mayors must make our voices heard in Washington, and we must join our voices with labor, with anti-poverty organizations, with rural advocates, and with many others to forge an 'American Agenda', an agenda that responds to the needs of poor and working Americans instead of the fast buck artists, savings and loan speculators and defense lobbyists who too often call the shots in our nation's capital."

Mayor Flynn was elected by his fellow mayors to chair the U.S. Conference of Mayors' Advisory Board at the June Annual Meeting. He is also Chairman of the Conference's Task Force on Hunger and Homelessness.

LICENSING COMMISSIONER HITS COMBAT ZONE THEATER WITH FIVE-DAY SUSPENSION

Diane J. Modica, Commissioner of the Mayor's Office of Consumer Affairs and Licensing has ordered a five-day suspension of the entertainment license of the TREMONT ART CINEMA I & II, located at 204 Tremont Street. The suspension order, resulting from an administrative hearing held on Wednesday, August 2, 1989, to address five licensed premises violations against the theater, was effective from 9:00 a.m. Monday, August 14, 1989, until Saturday, August 19, 1989.

Among the violations addressed at the hearing were four allegations of sexual activity in the theater. In her decision Modica said that evidence presented at the hearing indicates a pattern of sexual activity occurring on the premises of the theater. "Every effort must be made by licensees to prevent

their establishments from being used for illegal activity and to comply with regulations designed to protect public health and safety," Modica said.

In her decision, Modica noted that the management of TREMONT ART CINEMA I & II had taken steps to educate its patrons on sexually transmitted diseases by distributing pamphlets on AIDS and by showing films in which safe sex practices were employed. However, she added that this effort does not absolve the management from ensuring that sexual activity does not occur on its premises.

Two allegations of patrons smoking cigarettes in the theatre were also addressed at the hearing. In her decision Modica said the management of the theater was "negligent in permitting smoking in theater seats and in corridors in violation of the Boston Fire Code. It is clear that major public safety hazards are created when such activity occurs," she said.

Modica stated that the management failed to deter illegal activity on the premises because they did not aggressively monitor the theater. "These violations show that the licensee was negligent in its responsibility to maintain order, prevent disruption and protect all patrons from the imposition of activity around them."

In addition to the five-day suspension of the entertainment license, Commissioner Modica imposed other conditions on the license of TREMONT ART CINEMA I & II including: the presence of at least three employees at the theater at all times, a manager or manager designee on duty at all times and enforcement of a policy which bars admittance to patrons who have previously engaged in disruptive or illegal activity on the premises.

The roof and interior stairs are missing. There are holes in the floors and walls and debris is in and around the structure. This building is open to trespassers.

Extreme caution must be taken at all times during fire fighting operations at this location. This building has been posted.

VII. HIGH COMMENDATION

On May 23, 1989, at approximately noon, Fire Fighters Gerard A. Yanovitch of Engine Company 3 and John F. Kelly of the Special Unit, while off duty and exiting a supermarket parking lot at Adams and Minot Streets, District 8, observed a young man attempting to seize control of a vehicle from a female occupant.

Fire Fighters Yanovitch and Kelly left their vehicle to assist the woman. An elderly gentleman, while trying to assist the woman, was confronted by the younger man who proceeded to throw him several times against a dumpster and was in the process of throwing him to the ground when Fire Fighters Yanovitch and Kelly seized the younger man's arms, resulting in a bag being torn loose from his left hand, revealing a loaded pistol.

Fire Fighter Kelly struck the young man, the momentum took them to the ground. Fire Fighter Yanovitch pried the pistol from his hand. Fire Fighter Yanovitch, Kelly and the older man, a retired police officer, subdued the man until the arrival of the police.

It was later revealed this man had apparently robbed a local bank in Adams Square and was attempting to steal the woman's vehicle to escape.

Because of their quick, aggressive action and without regard for their own personal safety in a life threatening situation, reflecting great credit upon themselves and the Boston Fire Department, the Fire Commissioner is pleased to highly commend Fire Fighter Gerard A. Yanovitch of Engine Company 3 and Fire Fighter John F. Kelly of the Special Unit for their actions and refers their case to the Board of Merit for further consideration.

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, based on the following communications:

LIBRARY DEPARTMENT

Book Storage, etc.

Dear Mr. Mayor:

The Board of Trustees in charge of the Library Department of the City of Boston respectfully requests that you approve the signing of an agreement with the New England Deposit Library for the storage of books and other library materials for the period July 1, 1989, through June 30, 1990.

The New England Deposit Library building is located at 135 Western Avenue, Allston, under the terms of Chapter 240 of the Statutes of 1941. The act names the Boston Public Library as a "Participating Institution," together with the Massachusetts State College, the Boston Athenaeum, Boston College, Boston University, Simmons College, the Massachusetts Historical Society, and other libraries, for the purpose of providing storage space for books and other library materials for which there is only occasional use and for which storage space is not available in intensively used library buildings. The Participating Institutions share cooperatively in the low-cost schedule of rates standard for all Participating Institutions.

The Trustees have set a limit of \$44,655 on the amount to be expended for storage space for the period of the agreement and have taken the following action:

Voted, That there be entered into, without public advertising, with the New England Deposit Library, 135 Western Avenue, Allston, a rental agreement of storage space therein for books and other library materials belonging to the City of Boston Public Library, in accordance with the rates of storage space formally adopted by the governing board of said New England Deposit Library, during the period July 1, 1989, through June 30, 1990, at a total cost not to exceed \$44,655.

Rates for the prior three years are as follows:

7/1/86 — 6/30/87 = \$29,470; (Non-advertised) (New England Deposit Library).

7/1/87 — 6/30/88 = \$31,828; (Non-advertised) (New England Deposit Library).

7/1/88 — 6/30/89 = \$34,374; (Non-advertised) (New England Deposit Library).

In the opinion of the Official, the cost is reasonable for the services to be rendered. Inasmuch as the total cost of the storage space will exceed \$2,000, there is respectfully requested permission of your Honor to enter into this agreement without publicly advertising for bids.

Respectfully,

The Board of Trustees in Charge
of the Library Department
of the City of Boston.

By, Arthur Curley,
Director and Librarian.

PUBLIC FACILITIES DEPARTMENT

Consultant Services

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on April 27, 1989, I respectfully request your Honor's written permission to dispense with further public advertisement and award a contract to Joan M. Rooney, an individual, residing at 5 Doncaster Street, Roslindale. Under the terms of this contract, the contractor will provide consulting services in support of the Public Facilities Department's administrative systems analysis and development activities and special projects management.

Compensation under this contract shall not exceed \$44,100, payable at a rate of \$35 per hour. The contractor is under contract with Public Facilities for fiscal year 1989 for \$40,000, payable at a rate of \$35 per hour. Ms. Rooney also held a contract with this department for fiscal year 1988; also compensated at \$35 per hour totaling \$41,205. The term of this contract shall be from July 1, 1989, to June 30, 1990.

The contractor was selected based upon a thorough evaluation of her proposal submitted in response to a publicly advertised request for proposals in *The Boston Globe* on March 27, 1989, and *City Record* on April 3, 1989. Ms. Rooney's proposal was one of two received and evaluated. Ms. Rooney's proposal rated considerably higher based on the following criteria: experience providing similar services; qualification of individual or team; familiarity with Public Facilities' organizational structure; operating systems and staff; quality of proposal; and approach to and methodology for identified tasks. Furthermore, costs were determined to be at an acceptable rate for someone with considerable experience in management consulting.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the *City Record*, pursuant to authority granted under the *City of Boston Code*, St. 4, s. 5.

Sincerely,
Lisa G. Chapnick,
Director.

**PUBLIC FACILITIES DEPARTMENT
Consulting Services**

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on April 27, 1989, I respectfully request your Honor's written permission to dispense with further public advertisement and award a contract to Ernest J. Zupancic, an individual, residing at 101 Highland Avenue, Newtonville. Under the terms of this contract, the contractor will provide consulting services for planning and implementation of the year XV Community Development Block Grant Program; to ensure compliance with all federal regulations, and for review of a variety of CDBG-related programs.

Compensation under this contract shall not exceed \$25,000, payable at the rate of \$50 per hour, which I have determined to be reasonable for the services to be performed. Mr. Zupancic is under contract with Public Facilities for the current fiscal year for \$35,700 payable at a rate of \$40 per hour. He has also held contracts for previous two fiscal years; in 1988 for \$36,000 compensated at a rate of \$40 per hour, and 1987 for \$35,700 compensated at a rate of \$35 per hour. The term of this contract shall be from July 1, 1989, to June 30, 1990. Funds for this contract shall come from those received under the Community Development Block Grant Program.

The contractor was sole applicant to a publicly advertised request for proposals on March 13, 1989 in *The Boston Globe* and March 20, 1989 in the *City Record*. Mr. Zupancic was selected because of his knowledge of CDBG and other federal regulations and programs, based on twenty years of experience working with local and federal governments with fourteen years directly with CDBG programs.

As this is a negotiated contract at a reasonable

cost, based upon an extensive program and proposal review, I believe that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the *City Record*, pursuant to authority granted under the *City of Boston Code*, St. 4, s. 5.

Sincerely,
Lisa G. Chapnick,
Director.

Condominium Management Services

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on June 1, 1989, I respectfully request your Honor's written permission to dispense with further public advertisement and award a contract to OKM Associates, a corporation, with offices at 165 Canal Street, Boston. Under the terms of this contract, the contractor will provide condominium management training to the buyers of new condominiums built through Buildable Lots Program. Training will focus on administrative, financial, and maintenance aspects of condominium ownership.

Compensation under this contract shall not exceed \$24,610 which I have determined to be reasonable for the services to be performed. The term of this contract shall be from August 8, 1989, to October 8, 1990. Fund for this contract shall come from those received under the Community Development Block Grant program.

The contractor was selected based upon a thorough evaluation of the proposal submitted in response to a publicly advertised request for proposals in *The Boston Globe* on February 16, 1989, and *City Record* on February 27, 1989. Four firms responded to the request for proposals. They were rated by the following criteria: program outlined, quality of individual sessions and training materials, depth of training, training experience, management experience accessibility/logistical plan, cultural/language skills.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the *City Record*, pursuant to authority granted under the *City of Boston Code*, St. 4, s. 5.

Sincerely,
Lisa G. Chapnick,
Director.

Graphic/Visual Display Production

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on April 27, 1989, I respectfully request your Honor's written permission to dispense with further public advertisement and award a contract to Freda Shapiro & Associates, a sole proprietorship, with offices at 374 Congress Street. Under the terms of this contract, the contractor will provide graphic/visual display production services used to attract builders and contractors to bid on Public Facilities projects.

Compensation under this contract shall not exceed \$10,000 which I have determined to be reasonable for the services to be performed. The term of this contract shall be from July 1, 1989, to June 30, 1990.

The contractor was the sole applicant to a publicly advertised request for proposals in *The Boston Globe* on February 27, 1989, and in the *City Record* and March 6, 1989. Freda Shapiro & Associates' proposal was accepted because costs were determined to be reasonable. Furthermore, this firm

holds a contract with Public Facilities for fiscal year 1989 and is found to be well capable of providing the necessary services.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the *City Record*, pursuant to authority granted under the *City of Boston Code*, St. 4, s. 5.

Sincerely,
Lisa G. Chapnick,
Director.

Rental Projects Assistance

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on April 27, 1989, I respectfully request your Honor's written permission to dispense with further public advertisement and award a contract to Community Economic Development assistance Corporation, a non-profit corporation, with offices at 19 Temple Place. Under the terms of this contract, the contractor will provide technical assistance to neighborhood-based, non-profit organizations in conjunction with federal assisted rental projects at risk due to financial distress, mortgage prepayment, or change in use or displacement.

Compensation under this contract shall not exceed \$60,000 which I have determined to be reasonable for the services to be performed. The term of this contract shall be from July 1, 1989, to June 30, 1990. Fund for this contract shall come from those received under the Community Development Block Grant program.

The Community Economic Development Assistance Corporation is the sole source of comprehensive and coordinated technical assistance regarding federally assisted projects. CEDAC is widely recognized for their expertise regarding federally assisted properties eligible for mortgage prepayment (the so-called expiring use projects).

Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purpose.

Sincerely,
Lisa G. Chapnick,
Director.

**SCHOOL DEPARTMENT
Legal Services**

Dear Mr. Mayor:

As superintendent of the Boston Public Schools, I respectfully request your authorization to dispense with inviting proposals by advertisement and award a contract to Goodwin, Procter and Hoar, attorneys-at-law, a partnership located at One Exchange Place.

This contract shall be in effect during the period July 1, 1989, to June 30, 1990, and shall occur at a cost not to exceed \$50,000 which I have deemed to be reasonable. Services will be provided at the rate of \$135 per hour.

Under the terms of this agreement, the contractor will provide legal representation to the Boston School Committee in the *Morgan v. O'Reilly* matter, potential further modification of those orders and ongoing attention to appellate review of final orders.

The contractor is specially qualified to provide the above services because the cost is reasonable and because it is well qualified to represent the Committee in court. Furthermore, a bench order was issued by Judge Garrity bringing to light the

conflict of interest stemming from the naming of both the City and the School Department as Defendants.

Because of the professional nature of the services to be provided under this agreement and the expertise of the contractor in providing these services, it is my determination that the public interest would not be served by publicly advertising for bids.

Compensation to this vendor during the past three fiscal years in the form of unadvertised contracts is as follows: 1989—\$83,000, 1988—\$35,000, 1987—\$35,000.

Very truly yours,
Laval S. Wilson,
Superintendent of Schools.

TREASURY DEPARTMENT Chief Staff Assistant

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertisement and to award a contract to Kimberly Lewis, an individual located at 1324 East Cardeza Street, Philadelphia. Ms. Lewis currently resides in Philadelphia, and is in the process of moving to Boston. Mr. Lewis will serve as my chief staff assistant and has not previously worked for the City of Boston. She will fill the role played by two civil servants under the previous Collector-Treasurer. These positions have remained vacant during my tenure.

Under the terms of the contract, Mr. Lewis will supervise working group on bond financings and economic development issues, develop short and long-term borrowing strategies, assess internal Treasury and Collecting operations, implement Collector-Treasurer initiatives, and analyze new revenue sources for the City. She will also be responsible for a variety of legal issues related to City borrowing.

Ms. Lewis is uniquely qualified to perform these duties because of her work experience and educational background. For the past four years, she has worked as an attorney in the public finance department of a leading municipal bond law firm, Ballard, Spahr, Andrews & Ingersoll. In this capacity she has acquired a broad range of experience with virtually every type of municipal financing. She is a graduate of the University of Pennsylvania Law School and Brown University.

Compensation under this contract shall not exceed \$52,000 payable at a weekly rate of \$1,083.33 during the period July 1, 1989, through June 20, 1990. I have determined this amount of compensation to be reasonable given Ms. Lewis's responsibilities and background.

Because of the professional nature of the services to be performed, the experience and knowledge of Ms. Lewis, it is my determination that no public purpose would be served by public advertising.

Respectfully,
Lee F. Jackson,
Collector-Treasurer.

CONTRACTS AMENDED

The Mayor has approved the amending of contracts, based on the following information:

PUBLIC FACILITIES DEPARTMENT

Consulting Services

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on April 13, 1989, I respectfully request your Honor's written permission to dispense with public advertisement and amend a contract, approved by your Honor on September 31, 1988, to Brenda Armstrong, an individual, located at 327 Huntington Avenue. Under the terms of the contract, Brenda Armstrong is providing tenant relocation services to residents of city-owned buildings in the Residential Development Program, during the period September, 8, 1988, to June 30, 1989, at a cost not to exceed \$23,000.

Your approval is requested to amend this contract, to provide for property management workshops on landlord advocacy. Brenda Armstrong will be responsible for organizing and conducting the activities that will take place at these workshops. The cost of this amendment shall not exceed \$6,750 which I have determined to be reasonable. The contract as amended shall not exceed \$29,750. The period of performance shall remain the same. The submission of this request has been delayed due to complications in setting up the funding source.

Because of the professional nature of the services to be provided, and the qualifications of the contractor, I believe that public advertising would serve no useful purpose in this instance.

Sincerely,
Lisa G. Chapnick,
Director.

Proposal for Applying Pavement Markings on Various Road Surfaces in the City of Boston.

The City of Boston, acting by the Commissioner of Transportation, hereinafter referred to as the Commissioner, with offices at Room 721, City Hall, invites proposals for applying pavement markings on various road surfaces in the City of Boston.

A performance bond and also a payment bond, each of a surety company satisfactory to the Commissioner and each in the sum of 100 percent of the contract price will be required of the successful contractor. Forms of proposals may be obtained at Room 721, City Hall. Each proposal should be filled out, signed, enclosed in an envelope, sealed, marked "Proposal for Applying Pavement Markings on Various Road Surfaces in the City of Boston," one copy of which is to be left at Room 721, City Hall, before 12 noon, on Tuesday, September 12, 1989, with a certified check or a bid bond in the amount of 5 percent of bid price payable to and to become the property of the City if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the unit price of any item appears to the Commissioner to be abnormally high or low, it may lead to the rejection of the proposal. The rate per hour of wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the Office of the Commissioner. Before commencing performance of this contract, the contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law, so called) to all persons to be employed under this contract, and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to accept any proposal or item of a proposal should he deem it to be for the best interest of the City so to do.

The attention of all bidders is specifically directed to the City of Boston Supplemental Minority Participation and Resident Preference Section contract provision of the specifications and the obligations of the contractor and subcontractors to take affirmative action in connection with employment practices in the performance of this contract.

The workforce requirement (employee man-hour ratios per trade) for this contract are as follows: Minority — 25 percent; Boston resident — 50 percent; Female — 10 percent.

No bid for the award of this project will be considered acceptable unless the contractor complies fully with the following requirements for minority business enterprise utilization.

Pursuant to the supplemental minority participation section of the City of Boston contract, the contractor must give satisfactory assurance that at

least 20 percent of this bid price shall be expended for minority business enterprise. For the purpose of this paragraph, the term minority business enterprise means a business organization in which 51 percent of the beneficial ownership is held by one or more minority persons (Black, Hispanic, Oriental or American Indian).

Included with the contract documents are copies of the "Minority Business Utilization Form," "Minority Business Identification Statement," "Minority Business Utilization Progress Report" and the "Minority Business and the General Contractor's Letter of Intent."

Each contractor must complete, sign and file with his bid the Minority Business Utilization Form. Failure to do so will result in the rejection of the bid proposal. The three lowest responsive bidders are required to submit a Minority Business and General Contractor's Letter of Intent. The Letter of Intent shall be completed and signed by the minority business enterprise and the general contractor within five days after the time set for receiving bids. At the request of the City, one or more of three lowest bidders may also be required to submit a minority business identification statement.

Contractors shall also avail themselves of the list of minority businesses to be provided by the City through the Office of Minority Business Enterprise to facilitate compliance with these requirements.

A prebid conference will be held on Wednesday, September 6, 1989, at 10 a.m., in Transportation Department, City Hall, Room 721.

Minority/Women Business Requirements:

No bid for award of this project will be considered acceptable unless each bidder complies fully with the following requirements for Minority/Women Business Enterprise Utilization.

Pursuant to the Supplemental Minority/Women Participation section of this contract each bidder must give satisfactory assurance that at least 30 percent of his bid price shall be expended for minority business enterprise and at least 5 percent of his bid price shall be expended for women business enterprise.

Each bidder shall submit with the bid completed Minority/Women Business Utilization Form (M/WBU-F). The Minority and Women Business Utilization Form shall be completed and signed by the M/WBE and the bidder. Failure to submit a Minority and Women Business Utilization Form with the bid proposal will result in the rejection of the bid.

The City of Boston Minority/Women Business Directory lists all minority and women-owned busi-

nesses that have been certified as such by the City of Boston. A copy of this directory can be obtained from the Parks and Recreation Department Affirmative Action Office, 1010 Massachusetts Avenue, telephone 725-4505 ext. 6110 or from the Mayor's Office of Jobs and Community Services Minority Business Office, 43 Hawkins Street, Boston, MA 02114. Telephone number 723-1400.

Bidders may exercise their own judgment in selecting the Minority/Women Business Enterprise to perform any portion of the work or to be a supplier of goods or services. In the event that the bidder selects a minority or women business that is not included in the Minority/Women Business Directory provided by the Minority/Women Business Office, then a Certification Application completed by the non-certified business must be filed with the bid proposal. If the Minority/Women Business Enterprise is not eligible for certification, the dollar amounts obligated to a non-certified minority or women business will not count toward the contractor's minority/women business percentage requirement.

The workforce requirement (employee manhour ratios per trade) for this contract are as follows: Minority, 25 percent; Boston Resident, 50 percent; and Female, 10 percent.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Commissioner or a \$1,000 certified check, treasurer's check or cashier's check, made payable to the City of Boston, as well as certain public liability and property damage insurance, will be required of the successful contractor.

The Commissioner reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

Prospective bidders are requested to attend a prebid conference in the office of the Chief Engineer, 1010 Massachusetts Avenue, Roxbury, MA 02118, on Tuesday, September 12, 1989, at 10 a.m. Boston time.

U. S. CONFERENCE OF MAYORS CALL FOR NATIONAL DRUG AWARENESS DAY

The U. S. Conference of Mayors approved a proposal by Mayor Raymond L. Flynn to hold a national drug awareness day on August 17th. The day focused attention on the nation's drug crisis and mobilize local governments to pressure President Bush and drug czar William Bennett to fund the U.S.C.M.'s \$3 billion drug control strategy.

"Drugs are the single greatest threat to our cities and our future. It is essential that the front-line soldiers in our cities send a clear message that the war on drugs will not be won with words alone. On August 17th we asked every mayor in the country to contact President Bush, Mr. Bennett, and their congressional delegations to dramatize the pressing need for additional funds to combat drugs on the local level," Mayor Flynn said.

The U.S.C.M.'s comprehensive drug control strategy includes new funding to bolster law enforcement, education and drug treatment programs on the city level.

Mayor Flynn was recently elected Chairman of the U.S.C.M.'s Advisory Board.

The following is a draft of the U.S.C.M.'s letter to President George Bush.

President George Bush,
The White House,
Washington, D.C.

August, 1989.

Dear Mr. President:

The United States Conference of Mayors Executive Committee and Advisory Board recently concluded meetings at which the legislative agenda for cities across the nation for the coming year was discussed.

The most important issue facing mayors from the East to West coasts is the presence of illegal drugs. Cities and towns across this country face a plague of drug abuse that poisons our neighborhoods, steals our children from us, and tears away at the structure of our society. This nation faces no greater threat than the drug problem which has reached crisis proportions in municipalities throughout the United States. The drug problem isn't a city problem, nor a state problem alone, it's an American problem that transcends economics, ethnicity, age, and gender. As such, the drug problem should receive the highest priority on your agenda.

While we realize that there is no one simple solution to combat drugs, we also realize that it will take a combined partnership among the federal, state, and local governments to overcome the single greatest obstacle in the path of our nation's future security. Only a comprehensive effort incorporating education, treatment, rehabilitation, enforcement, and inter-

diction will successfully stem the growth of this cancer spreading through our country.

On July 24th of this year, representatives from the United States Conference of Mayors presented William Bennett, Director of National Drug Control Policy, with the attached fifteen point strategy to fight drugs in our cities. We urge you to encourage Mr. Bennett to incorporate these initiatives in his drug strategy to be completed this Fall.

Furthermore, it will require direct local funding at the level of \$3 billion dollars to make this a fair fight against drugs, and not just a battle of words. Without adequate funding and the full partnership of the federal government, the war on drugs will be a war in vain, leaving people in every corner of society — children, young adults, and elderly, parents, teachers, and neighborhood residents — to fend for themselves.

Because cities are on the front line in this war on drugs, we see first hand the destruction that illegal drugs leave in their wake, and we

have a vested interest in aggressively meeting the drug problem head on. The United States Conference of Mayors respectfully requests that you help us in the drug fight by including our sixteen point plan for inclusion in your administration's drug strategy.

July 24, 1989.

TO: William Bennett, Director,
Office of National Drug Control
Policy.

FROM: The Leadership of The U. S.
Conference of Mayors.

RE: The National Drug Control
Strategy.

Controlling illegal drugs continues as the top priority of The U. S. Conference of Mayors; it is the issue which mayors see as critical to the future of our cities and our nation. We fear, however, that the significant efforts under way in our cities to solve the drug problem will all be for naught if the federal government does not do its share. We are certain that your visits to Houston, San Diego, Detroit and other cities have confirmed this.

In the last two years the Conference has convened two national meetings which brought together mayors and police chiefs to examine the crime and drug crisis in our cities. We have examined what is being done to respond to the crisis, and what must be done in the future. Each of these meetings has included a working session in which the elected officials and the law enforcement experts developed comprehensive anti-drug policy statements. These statements are the basis for the Conference's comprehensive anti-drug strategy.

On September 5th you will announce the nation's first drug control strategy. We want very much to work with you to develop and implement that plan. At our meeting we want to establish a process for doing this,

(Continued on next page)

National Drug Awareness Day . . .

(Continued from front page)

so that the national strategy which you announce in September will reflect the concerns of the nation's mayors and will receive their support. The critical nature of the drug crisis requires that leaders at all levels of government set aside any differences and pull together.

Mayors and police chiefs will meet in Houston September 24-26 to discuss next steps in our war on drugs. This meeting offers you an excellent opportunity to discuss your newly released strategy with those who will be directly affected by it.

We are confident that your National Drug Control Strategy will be comprehensive, dealing with both the supply and demand sides of the problem, mobilizing the entire federal government and all sectors of our society. Ultimately it must address the problems which have contributed to the insatiable demand for drugs, such as poverty, unemployment, disintegrating neighborhoods and disintegrating families. Immediately, it should set realistic goals and timetables and include realistic budget projections. Opportunities for public comment on the strategy, how it will be implemented, and ways for the public to be involved in the development of future strategies should be specified.

The Conference of Mayors believes that an effective national strategy must address the drug crisis through U. S. foreign policy and use of the military, direct federal funding of local anti-drug efforts, and the availability of drug treatment for all who seek it. It must strengthen the criminal justice system, and it must convince all Americans, in all segments of our society, of the destructiveness of drug use.

The nation's anti-drug strategy, therefore, must include:

1. INTERDICTION.

Improvement in the interdiction of illegal drugs, before and as they enter the country, through strategies which include greater use of the military outside U. S. land area, the provision of needed equipment, and the development of new technologies which increase the success of these efforts;

2. INTERNATIONAL DRUG SUMMIT.

An international drug summit involving the leaders of all Western Hemisphere nations involved in drug production, called by the President of the United States, to take action on ways to eradicate the production and exportation of illegal drugs;

3. INTERNATIONAL DRUG ERADICATION ARMY.

Cooperation among Western Hemisphere nations in the provision of military assistance — through an International Drug Eradication Army — to eradicate illegal drug crops and stop the flow of illegal exports across national borders;

4. CROP CONVERSION.

Consideration of incentives to Western Hemisphere nations to redirect exports from illegal to legal crops, such incentives to include debt reduction among Western Hemisphere nations and the removal of export quotas for legal crops;

5. FULL AND DIRECT FUNDING FOR ANTI-DRUG PROGRAMS.

Full funding of existing anti-drug legislative authority; increased authorization and funding of the state and local assistance programs for enforcement, treatment and education, with a significant portion of the funds going *directly* to local governments; (Such direct federal funding would acknowledge the unique role which city governments play in waging the war on drugs.)

6. SHARING SEIZED ASSETS.

The sharing of assets seizure funds with local officials in a more timely manner, and a change in federal law to assure that these assets are shared in an equitable fashion with the law enforcement agency which participated in the seizure; (Your proposal that a portion of the Special Forfeiture Fund be used for "high intensity drug trafficking areas" is excellent.)

7. STRENGTHENED CRIMINAL JUSTICE SYSTEM.

Increased support for all segments of the criminal justice sys-

tem — police, prosecution, courts and corrections — so that penalties for drug possession, trafficking and other crimes can be strictly enforced;

8. USE OF SURPLUS AND MILITARY PROPERTY.

The availability of underutilized and surplus federal property, specifically including military facilities, for use as correctional and drug treatment facilities;

9. TOUGHER PENALTIES.

An increase in the severity of the consequences for all drug-related criminal activities, including illegal drug possession, through strengthened federal, state and local laws, increased application of them, stiffer penalties, and the seizure of assets;

10. BAN OF SEMIAUTOMATIC ASSAULT WEAPONS.

A ban on the manufacture, importation, sale and possession of semi-automatic military assault weapons; (Your leadership on this issue is commendable.)

11. PENALIZING BANKS AND FINANCIAL INSTITUTIONS.

More aggressive use of federal money-laundering statutes so that actions can be pursued more vigorously against financial institutions that knowingly conduct transactions involving proceeds from unlawful activity;

SAFETY COMES FIRST TUNNEL TOLL FACTS

The Massachusetts Turnpike Authority is committed to operating and maintaining a first-class tunnel system which is safe and efficient. A comprehensive engineering study and physical examination of the Sumner/Callahan Tunnels was recently conducted by consulting engineers, Howard Needles Tammen & Bergendoff. They concluded that the tunnels need a comprehensive structural overhaul at a minimum cost of approximately 58 million dollars.

We must begin these essential repairs now. Delay would lead to further deterioration of conditions and threaten public safety. If we begin these repairs now, we'll have a better opportunity to do the work during off-peak hours, and avoid rush hour disruptions.

In order to raise the money needed to perform these basic structural repairs, and keep the tunnels operating as safe, first-class facilities, a toll increase from sixty cents (\$0.60) to one dollar (\$1.00) per round trip is absolutely unavoidable.

The \$1.00 round trip took effect on Tuesday, August 15, 1989.

There will not be commuter discount fares. All fares will be \$1.00, payable in cash.

- If the 50 cent toll in 1971 had increased with inflation, the tunnel toll would be \$1.45 today. Our new \$1.00 rate is still well below inflation.
- At a rate of \$1.00 per round-trip, Sumner/Callahan Tunnel rates are among the lowest in the northeast.

T TO INCREASE COMMUTER BOAT FARES

The Massachusetts Bay Transportation Authority (MBTA) Board of Directors voted to increase commuter boat fares to \$4, and to develop plans to raise fees at subway and streetcar parking lots and, for the first time, T-owned commuter rail parking lots.

The increases are needed to avoid impending service cuts brought about by a \$30-million budget shortfall created by an arbitration award covering wages and benefits for a major portion of the T's workforce. The award granted wage increases of over six percent for each of three years, retroactive to April, 1988. In announcing the award, the arbitrator emphasized that this increase is the same level of increase granted by many cities and towns to their employees.

MBTA General Manager Thomas P. Glynn said, "The T is working very closely with the representatives of the cities and towns of the MBTA Advisory Board to develop ways to increase revenues, and to tighten our belts. Through a series of aggressive management steps, the T has already reduced the gap from \$30 million to \$18 million, which will be requested in a supplemental budget. We are working to avoid the need to cut services."

Glynn noted that as part of its effort, the T is requesting a supplemental budget of \$18.2 million. Of this amount, \$6.4 million would be covered by additional monies from the recent fare in-

crease, proposed higher parking fees, and new advertising revenue — lowering the deficit even further to \$11.8 million.

Glynn further noted that if the Legislature would pass two cost cutting measures, the deficit would be further reduced to \$6.3 million.

Glynn said, "At a point when the T has reached an all time high passenger favorability rating of over 80 percent — the highest of any major transit system in the country — it is particularly important that we do everything possible to avoid cutting service."

As a result of the budget crisis, the T Board has moved to look for any and all ways to reduce costs and increase revenues. These include a cap on the hiring of administrative staff, reduction of employee overtime, cutting down telephone and other office expenses, and implementation of additional changes in work rules permitted under Chapter 581 (Management Rights legislation).

The T is also seeking legislation which would provide greater penalties for fare evasion, cap tort liability claims, and allow the T to join the New England Power Pool to buy electricity at wholesale rates.

In an effort to save funds, the T also voted to eliminate bus route 252, Weymouth — Braintree Red Line station. This service duplicates the Town of Weymouth's "WeyBus" service, which is subsidized by the T, and has a low number of passengers.

CITY OF BOSTON

IN CITY COUNCIL

August 11, 1989.

Dear Sir or Madam:

You are invited to attend the Boston City Council's Committee on Government Operations hearing to be held in the Council Chamber, Boston City Hall, fifth floor, Boston, Mass., on Tuesday, August 29, 1989, at 10:00 a.m., relative to the following:

Docket No. 1061 — MacBride Principles.

For the Committee:

MAURA HENNIGAN CASEY,
Chairperson.

A MESSAGE FROM THE CHAIRMAN

On August 15, 1989, the one-way tolls at the Sumner/Callahan Tunnels went up to \$1.00 in order to pay for a much-needed comprehensive repair program.

No one likes the idea of a toll increase. However, if these repairs are not made, we'll run the risk of putting your safe commute in jeopardy. The mission of the Massachusetts Turnpike Authority is to operate and maintain a safe and efficient highway and tunnel system. We intend to fulfill that mission.

The last time comprehensive renovations were made at the Sumner Tunnel was in the early 1960s, when the Callahan Tunnel was opened to the public. Now, thirty years later, the public interest requires that this repair project begin promptly.

An early start for the repair program means we can work during off-peak traffic hours, making it more convenient for you.

We value you as patrons and customers. We hope to have your continued support and cooperation during the coming months.

ALLEN R. MCKINNON,
*Chairman, Massachusetts Turnpike
Authority.*

CONTRACTS AWARDED AFTER ADVERTISING ("Requests for Qualifications") ("Requests for Proposals") ("Technically Deficient Bids")

The Mayor has approved the awarding of the contracts based on the following communications:

HEALTH AND HOSPITALS DEPARTMENT Central Stores and Supply

Dear Sir:

An invitation for bids to provide inventory at Boston City Hospital in the areas of Pharmacy, Solution Room, Central Stores and Supply, and Office Supply, was advertised in the *City Record* on March 13, 1989. Bids were publicly opened and read on March 30, 1989. Three companies were solicited and the following bid was received:

National Inventory Service, Illinois, \$6,500.

National Inventory Service, Inc., the sole bidder, submitted a technically defective bid, in that they did not file a copy with the City Auditor. I respectfully request your Honor's permission to reject the above bid and award this contract, without further advertising, to National Inventory Service, for the period July 1, 1989, through June 30, 1990, at a cost not to exceed \$6,500.

Very truly yours,

Judith Kurland,
Commissioner.

JOBS AND COMMUNITY SERVICES

Day Care Services

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to the Jackson/Mann Community School & Council, Inc., a nonprofit corporation, located at 500 Cambridge Street, Allston. Under the terms of the contract, the contractor will provide after-school, day-care services to approximately forty-nine children.

The contractor was selected based upon an evaluation of its proposal submitted in response to a refunding Request for Proposals issued by the Mayor's Office of Jobs and Community Services on March 3, 1989. Costs were determined to be reasonable after extensive analysis by JCS staff. The extremely competitive proposal review process focused primarily on the contractor's performance during the prior contract period, but other selection criteria included administrative capability, the ability to serve the targeted client population, and the need for the proposed services. The issuance of this refunding document was the culmination of an exhaustive planning which began in September of 1988. Citizen participation was crucial, for during the period from January 18, 1989, until February 9, 1989, eleven neighborhood meetings were held across the entire city to solicit community involvement and input in determining funding priorities, culminating in a city-wide hearing held on February 28, 1989. The public notice for the city-wide hearing was advertised in the *City Record* on January 30, 1989.

Compensation under the terms of this contract shall not exceed \$22,197, payment being made from the Community Development Block Grant program. The period of performance shall be from July 1, 1989, until June 30, 1990. This contractor has had contracts with this agency for this program for the previous three fiscal years, at the following funding amounts: FY 87 — \$19,365; FY 88 — \$23,365; FY 89 — \$23,365. This request has been

delayed due to the length of time involved in the funding review process.

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised refunding process, I believe that further public advertising would serve no useful purpose.

Sincerely,
Theodore C. Landsmark,
Director.

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to the John F. Kennedy Family Service Center, Inc., a nonprofit corporation, located at 27 Winthrop Street, Charlestown. Under the terms of the contract, the contractor will provide counseling services to families affected by alcohol and substance abuse. Approximately seventy individuals will be served.

The contractor was selected based upon an evaluation of its proposal submitted in response to a refunding Request for Proposals issued by the Mayor's Office of Jobs and Community Services on March 3, 1989. Costs were determined to be reasonable after extensive analysis by JCS staff. The extremely competitive proposal review process focused primarily on the contractor's performance during the prior contract period, but other selection criteria included administrative capability, the ability to serve the targeted client population, and the need for the proposed services. The issuance of this refunding document was the culmination of an exhaustive planning process which began in September of 1988. Citizen participation was crucial, for during the period from January 18, 1989, until February 9, 1989, eleven neighborhood meetings were held across the entire city to solicit community involvement and input in determining funding priorities, culminating in a city-wide hearing held on February 28, 1989. The public notice for the city-wide hearing was advertised in the *City Record* on January 30, 1989.

Compensation under the terms of this contract shall not exceed \$21,850, payment being made from the Community Development Block Grant program. The period of performance shall be from July 1, 1989, until June 30, 1990. This contractor has had only one contract with this agency for this program for the previous fiscal year in the amount of \$23,000. This request has been delayed due to the length of time involved in the funding review process.

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised refunding process, I believe that further public advertising would serve no useful purpose.

Sincerely,
Theodore C. Landsmark,
Director.

Health Care Services

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to the Brighton-Allston Community Health Corporation, d/b/a the Joseph M. Smith Community Health Center, a nonprofit corporation, located at 51 Stadium Way, Allston. Under the terms of the contract, the contractor will continue to develop and implement its outreach to be at risk due to the lack of affordable primary health care services.

The contractor was selected based upon an evaluation of its proposal submitted in response to

a refunding Request for Proposals issued by the Mayor's Office of Jobs and Community Services on March 3, 1989. Costs were determined to be reasonable after extensive analysis by JCS staff. The extremely competitive proposal review process focused primarily on the contractor's performance during the prior contract period, but other selection criteria included administrative capability, the ability to serve the targeted client population, and the need for the proposed services. The issuance of this refunding document was the culmination of an exhaustive planning process which began in September of 1988. Citizen participation was crucial, for during the period from January 18, 1989, until February 9, 1989, eleven neighborhood meetings were held across the entire city to solicit community involvement and input in determining funding priorities, culminating in a city-wide hearing held on February 28, 1989. The public notice for the city-wide hearing was advertised in the *City Record* on January 30, 1989.

Compensation under the terms of this contract shall not exceed \$18,430, payment being made from the Community Development Block Grant program. The period of performance shall be from July 1, 1989, until June 30, 1990. This contractor has had contracts with this agency for this program for the previous three fiscal years (FY 89) in the amount of \$19,400. This request has been delayed due to the length of time involved in the funding review process.

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised refunding process, I believe that further public advertising would serve no useful purpose.

Sincerely,
Theodore C. Landsmark,
Director.

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, based on the following communications:

COMMUNITY SCHOOLS

Financial Management Services

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and to award a contract to the Boys and Girls Clubs of Boston, Inc., 15 Green Street, Charlestown, a contract for financial management and administrative support services for the Boston Community Schools and Recreation Centers Summer Youth Clean-up Campaign for the period beginning July 1, 1989, through June 30, 1990, at a cost not to exceed \$450,000 (7 percent or \$29,439.25 which is the management fee), an amount I determine to be reasonable.

The contractor will be paid an administrative fee which is a percentage of the total contract amount (\$450,000), which in turn represents the amount budgeted for administration of the Summer Youth Clean-up Campaign. This percentage (7 percent or \$29,439.25) will be subtracted from the total contract price and will represent the total amount paid directly to the contractor for services rendered under the contract.

The contractual arrangement between the contractor and the city would insure the fiscal administration of the Summer Youth Clean-up Campaign in an efficient and cost-effective manner, while permitting the city to not only monitor the performance of the contract, but also manage and supervise the Summer Youth Clean-up Campaign.

Under the terms of the contract, the Boys and Girls Clubs of Boston, Inc. will provide financial management and administrative support services, i.e., personnel, supplies, materials, and administration necessary to operate the Summer Youth Clean-up Campaign targeted to specific neighborhood and downtown areas.

The Boys and Girls Clubs of Boston, Inc., has performed financial management and administrative support services for Boston Community Schools and Recreation Centers programs in the past. In view of the efficiency and expertise of the Boys and Girls Clubs of Boston, Inc. in financial management and administrative support matters, public advertising would serve no useful purpose.

Sincerely,
William P. Doherty,
Executive Director.

HEALTH AND HOSPITALS DEPARTMENT

Tomographic System Maintenance

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to dispense with public advertising and award a contract to Siemens X-Ray, Inc., New Jersey, for the period July 1, 1989, through June 30, 1990, at a cost not to exceed \$347,000.

Under this contract, Siemens X-Ray, Inc. will provide maintenance, to include parts, labor, travel and glassware, as well as extended preventive maintenance to the Whole Body Computed Tomographic System at University Hospital at a cost not to exceed \$155,000. Extended preventive maintenance will be provided to the Computed Tomographic System at Boston City Hospital at a cost not to exceed \$132,000. An additional \$60,000 will be set aside to pay for repairs, as needed, for after-hours, weekends and holidays. These repairs are not covered by the above maintenance and preventive maintenance contract.

Unadvertised contracts have been awarded to Siemens X-Ray, Inc. for the past three years in the following amounts: 1989 — \$332,000; 1988 — \$42,500; 1987 — \$4,600. In fiscal year 1987 the contract was for service to the C-Arm Fluoro Unit only.

Therefore, because Siemens X-Ray, Inc. is the manufacturer with personnel specially trained to perform repairs to the above equipment, and as the cost, in my opinion, is reasonable, no benefit would inure to the city by publicly advertising for bids.

Very truly yours,
Judith Kurland,
Commissioner.

The workforce requirement (employee man-hour ratios per trade) for this contract are as follows: Minority — 25 percent; Boston resident — 50 percent; Female — 10 percent.

No bid for the award of this project will be considered acceptable unless the contractor complies fully with the following requirements for minority business enterprise utilization.

Pursuant to the supplemental minority participation section of the City of Boston contract, the contractor must give satisfactory assurance that at least 20 percent of this bid price shall be expended for minority business enterprise. For the purpose of this paragraph, the term minority business enterprise means a business organization in which 51 percent of the beneficial ownership is held by one or more minority persons (Black, Hispanic, Oriental or American Indian).

Included with the contract documents are copies of the "Minority Business Utilization Form," "Minority Business Identification Statement," "Minority Business Utilization Progress Report" and the "Minority Business and the General Contractor's Letter of Intent."

Each contractor must complete, sign and file with his bid the Minority Business Utilization Form. Failure to do so will result in the rejection of the bid proposal. The three lowest responsive bidders are required to submit a Minority Business and General Contractor's Letter of Intent. The Letter of Intent shall be completed and signed by the minority business enterprise and the general contractor within five days after the time set for receiving bids. At the request of the City, one or more of three lowest bidders may also be required to submit a minority business identification statement.

Contractors shall also avail themselves of the list of minority businesses to be provided by the City through the Office of Minority Business Enterprise to facilitate compliance with these requirements.

A prebid conference will be held on Wednesday, August 30, 1989, at 10 a.m., in Transportation Department, City Hall, Room 721.

A performance bond and also a payment bond, each of a surety company satisfactory to the Commissioner and each in the sum of 100 percent of the contract price will be required of the successful contractor. Forms of proposals may be obtained at Room 721, City Hall. Each proposal should be filled out, signed, enclosed in an envelope, sealed, marked "Proposal for Applying Pavement Markings on Various Road Surfaces in the City of Boston," one copy of which is to be left at Room 721, City Hall, before 12 noon, on Tuesday, September 12, 1989, with a certified check or a bid bond in the amount of 5 percent of bid price payable to and to become the property of the City if the proposal after acceptance is not carried out. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the unit price of any item appears to the Commissioner to be abnormally high or low, it may lead to the rejection of the proposal. The rate per hour of wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the Office of the Commissioner. Before commencing performance of this contract, the contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law, so called) to all persons to be employed under this contract, and shall continue such insurance in full force and effect during the term of this contract. The three lowest responsive bidders are required to submit a Minority Business and General Contractor's Letter of Intent. The Letter of Intent shall be completed and signed by the minority business enterprise and the general contractor within five days after the time set for receiving bids. At the request of the City, one or more of three lowest bidders may also be required to submit a minority business identification statement.

MAYOR FLYNN ANNOUNCES REFERENDUM DRIVE FOR SCHOOL REFORM

In response to the continuing inability of the Boston School Committee to take decisive action in a timely manner to address chronic problems affecting the city's public schools, Mayor Raymond L. Flynn joined with concerned community leaders, parents, business leaders, educators, students and City Councillors recently to call for a comprehensive reform of the School Committee.

"The inability of the School Committee to work as a productive body is intolerable," said Mayor Flynn. "The Committee's lack of direction and poor performance goes far beyond politics. The School Committee's poor performance is destroying any chance we have of providing a good education for our children. It's not a question of there being bad people on the Committee, it's just that the current structure is not working. We need reform now or we may lose the chance of ever salvaging our school system."

Standing before the Court Street School Committee headquarters on August 8, Mayor Flynn announced that he has filed with the City Council a non-binding referendum to appear on the November 7 municipal ballot which will ask voters whether they favor the elimination of the current thirteen-member School Committee and the creation of a seven-member board appointed by the Mayor from a list of 21 nominees provided by a nominating panel with strong parent and community representation.

The creation of a seven-member appointed board has been an option that the Mayor discussed with more than 190 parents and business, academic and neighborhood leaders at five Parkman House meetings. The consensus among participants was that the School Committee is in drastic need for reform, due to a string of decisions and actions by the Committee which have undermined the public's confidence in the Committee's ability to oversee the city's deficit-ridden school system.

A July report on School Governance produced by a special commission comprised of education experts, advocates and City Councillors Michael McCormack and Bruce Bolling detailed "a difficult history of failed policy making" in which the School Committee delayed or avoided important and necessary decisions in a

number of areas including: improving vocational and special education programs, implementing a student assignment process that would give parents more choice, dealing with school closings and consolidations, cutting Boston's more than 40 percent drop-out rate and reining in a budget which has grown by nearly \$120 million in the past five years.

Under the Mayor's proposal, the seven-member school board would include at least two public school parents and representatives from Boston's four racial groups. The seven would be selected from 21 nominees proposed by a nominating panel composed of representatives from each of three citywide parent organizations, representatives from each of the school zone councils, and representatives from the labor, business and academic communities.

"With the start of the student assignment plan, it is essential that we have a board that can carry out the necessary reforms to save our schools," said South End parent Carmen Torres who has three children in the Boston Public Schools. "I am tired of seeing the School Committee play politics with the future of our children."

"I am very happy to see that finally we are going to see some strong reforms in the public schools," said City Councillor Michael McCormack, who has played an important

CALLS FOR FAITH IN INSTITUTIONS OF REPRESENTATIVE GOVERNMENT AS SAFEGUARD FOR DEMOCRACY — ACTING MAYOR GEORGE A. MURRAY, SUBSTITUTING FOR MAYOR TOBIN, ADDRESSES DEPARTMENT OF MASSACHUSETTS AMERICAN LEGION CONVENTION, AT OPENING SESSION IN TAUNTON — DECRIES DEMAGOGUES OF EUROPE WHO MAKE SCORN OF DEMOCRACY, THEN BECOME DICTATORS AND THUS THE ARCH-RACKETEERS OF THE WORLD — WARNS THAT ALL LOYAL AMERICANS WILL KNOW HOW TO KEEP ALL SUCH OUT OF OUR COUNTRY.

The following is the address of Hon. George A. Murray, Acting Mayor, at the twenty-first annual convention, American Legion, Department of Massachusetts, at Taunton High School Auditorium, on Thursday, August 17, 1939:

Commander Maguire, Governor Saltonstall, Mayor Poole, Officers, Members and Guests of the Massachusetts Department of the American Legion.

You have called me here today on an occasion which I find pleasant and significant in more ways than one. Your great assembly stirs my deepest sense of respect, and at the same time it fills me with highest hope.

As the American Legion opens its twenty-first annual convention in Massachusetts, it may be truly said, may it not, that you are doubly entered upon years of manhood — as individuals long since, and now as an organization.

Since you have had to live and serve and wait twenty-one years before you could celebrate this important birthday

role in the move to reform the School Committee. "This proposal will represent real progress for parents and children in the Boston Public Schools as well as for taxpayers who pay for the system but send their children to private or parochial schools. This may be something that will prompt these parents to reconsider sending their children to the Boston Public Schools."

According to City Councillor Bruce C. Bolling, chair of the Council's Committee on Public Education, "The real issue facing Boston is quality education. Are we going to maximize opportunity for young people to grow and develop and be all they can possibly be? If we are committed, there must be structural changes in the Boston Public School system. The present system has failed totally. The challenge is to come up with a better structure and an ongoing commitment to educational excellence."

"It will take the leadership of Mayor Flynn and the courage of the City Council to move ahead with this reform," noted East Boston parent Anne Marie Raffaele, whose child attends the Dante Alighieri School in East Boston. "This is literally the last chance for our schools, our children and, in a real sense, our future as a city."

If the referendum is approved by voters in November, Mayor Flynn will work with the City Council to pass a Home Rule Petition to put the new School Board in place. The petition will also require approval by the State Legislature and the Governor.

anniversary of the Legion's corporate life, I find myself wishing, this morning, that you might have been patient, and waited just a few hours longer. Then you could have had with you, a guest whom I know you would have been most glad to welcome — the elected Mayor of Boston, Honorable Maurice J. Tobin.

Mayor Tobin, as perhaps you know, is at this very moment steaming back toward America from a very hurried, but indeed a hallowed, trip to Ireland. He

embarked on that round voyage for just one controlling purpose — and that was, to take his aged mother for a glimpse of the beautiful land where she was born, which she had not seen since her girlhood, and may not see again.

The ship carrying the Mayor and his party on their home-bound journey is expected to dock in New York at six o'clock tonight.

Good Wishes of Mayor.

So you see, it is only by the narrowest margin that the honor of briefly addressing you falls to me. In expressing to you now the heartiest of good wishes on behalf of Mayor Tobin, the City Council and indeed of all the officials and people of Boston, I wish to assure you also that Mayor Tobin is most deeply regretful and disappointed that he cannot be here to address you in person, as he had hoped and expected.

I like to believe that you know Mayor Tobin's feelings on this score quite as well as I know them myself. A chief executive of the City of Boston who traveled all the way to Los Angeles in September of 1938, in order to invite the American Legion to bring its great national convention to Boston in 1940 — and who has busied himself month in and month out ever since to press and support this invitation in every way possible, both by a visit to your Executive Committee at Indianapolis and by urgent efforts to prepare the finest possible reception and entertainment in

Boston for the coming convention — that kind of mayor is an evident and fully attested friend and champion of the American Legion and of all its good works. Mayor Tobin's record on this score needs no further words of mine.

I shall speak again before I close of the convention's prospects and high promise in 1940. But my mind is called back at this moment once more to the dual significance of the assembly convened here today, marking still another achievement of full twenty-one years — first by America's veterans as individuals, and now in the followship of this great organization.

I cannot resist at least a moment's glance backward to the days of 1917 and 1918, when the World War was raging. Many among you accepted a man's burden and an American patriot's whole duty, when you were still in youth's earliest prime. Even before attaining the legal obligations of manhood, thousands of American boys swiftly offered the greatest gift that men can ever make — the offer and gift of their lives for the nation, its welfare and happiness, its institutions and ideals.

When the World War had run its awful course, swiftly the men who had rallied to their country's call as individuals, were drawn together into the common bonds of this most impressive organization.

Legion Begun.

Indeed, even before the end of the war, there was eager talk of forming such a body as the American Legion among soldiers and sailors of the United States Army and Navy in action "over there," on transports bound for France, in camps waiting to march, at naval bases waiting to sail. The movement to form a permanent organization sprang up naturally and with spontaneous vigor among great masses of men united in a common cause amid common dangers. The idea was discussed in dugouts and in trenches, and as the Armistice approached, it had become real if still formless in the minds of thousands.

With the swiftness almost of radio transmission, that idea traveled back and forth over the Atlantic. And immediately it took root and bore fruit here in Massachusetts. That fact is well proved by the serial number of the convention met here today — the twenty-first in the twenty-one years from 1918 to 1939.

Down here in Bristol County I feel, indeed, as though I were almost on the site of the American Legion's Cradle in Massachusetts, the exact spot of its birth. Among the nearly three hundred posts of the Legion in this state, everyone knows that the Post at New Bedford bears the honorable distinction of being Post No. 1 in the Legion's roster for the Commonwealth.

And as to the good city of Taunton, I feel that I am in the presence of a direct descendant of the founding mother of the whole town. Everyone in Taunton knows all about her, but for the benefit of outsiders, I state the record. The history books say that she was one Mistress Elizabeth Poole, and they describe her as "a wise and anciently religious maid."

Surely, with such ancestry in mind, as we pay our respects to his Honor Mayor Poole of the City of Taunton today, we do so with great awe.

But I hope that Mayor Poole will be sure to come to Boston, with all his wisdom whether ancient or modern, to attend the great National Convention of the American Legion which we all hope and believe will be held in Boston in 1940. That is going to be a splendid occasion, and we can make it the marker and the launching-ways of a splendid year for the whole United States, if we will.

Early Turmoil.

I wonder how many of you recall that the ten years from 1830 to 1840, in the United States just a century ago, were a decade of great turmoil, including the most extreme financial troubles and all manner of social ills and conflicts among the people. The Treasury of the United States seemed just about bankrupt, even the national currency was in much disorder and hard to procure. Many men predicted that the end of all good times had come.

Yet suddenly in the year 1840 it began to be realized that these croakers were wrong. Even the most pessimistic citizens could not fail to recognize that conditions in that year were growing very much better. And the following years of the decade grew more and more prosperous, culminating in the gold rush to California in 1849.

I do not know that the year 1940 will lead on to the discovery of other mines of gold, but I am confident that the resources of wealth and worth already known to exist in the United States are

the greatest in any single civilized country on earth. The material means are sufficient to our need.

It is the stores of the spirit, the springs of a strong national morale, upon which we must draw or perish.

My friends of the American Legion, let me say to you one thing. We can never make a good democracy out of bad democrats. I am not speaking of any political party. I speak of the faith in the institutions of representative government, free speech and free assembly which are the treasures of democracy and which every man, if he is a good democrat, will praise, defend and support even with his life.

The countries of Europe are full today of demagogues who makes scorn of democracy. They say it is a system cumbersome and outworn. They cry out "deliver us from the politicians!" And then what do they do? The speakers themselves grab all power, they become super-politicians who have managed to place themselves beyond all control or check of the people whatsoever. The dictators are the arch-racketeers of the human universe.

The American Legion, I am sure, wants none of them in the United States, and, please God, all of us loyal Americans, joining our hands firmly together, will know how to keep them out.

MBTA EXPANDS LIFT BUS ROUTES

The Massachusetts Bay Transportation Authority has expanded the operation of 100 percent lift-equipped buses to 16 T bus routes, General Manager Thomas P. Glynn announced.

"The T has made great strides in the past few years in expanded services for the disabled," Glynn said. "In addition to improvements to subway and commuter rail lines we are striving to make our bus routes 100 percent accessible at all times."

The communities that will now be served by 100 percent lift-equipped buses include:

Arlington: (350) Burlington — Alewife.

Boston: (22) Ashmont — Ruggles. (39) Forest Hills — Copley. (43) Ruggles — Park and Tremont Streets. (47) Central Square, Cambridge — Andrew. (60) Chestnut Hill — Kenmore Square. (63) Cleveland Circle — Central

Square. (65) Brighton Center — Kenmore.

Braintree: (236) Quincy Center — South Shore Plaza.

Brookline: (60) Chestnut Hill — Kenmore Square. (65) Brighton Center — Kenmore.

Burlington: (350) Burlington — Alewife.

Cambridge: (47) Central Square — Andrew. (63) Central Square — Cleveland Circle.

Dedham: (34E) Walpole Center — Forest Hills.

Lynn: (400) Lynn — Haymarket (Express).

Newton: (59) Needham Junction — Watertown Square.

Malden: (108) Linden Square — Wellington. (136/137) Reading Depot — Malden Station.

Medford: (108) Linden Square — Wellington.

Needham: (59) Needham Junction — Watertown Square.

Norwood: (34E) Walpole Center — Forest Hills.

Quincy: (236) Quincy Center — South Shore Plaza.

Reading: (136/137) Reading Depot — Malden Station.

Salem: (455) Salem — Haymarket (Express).

Walpole: (34E) Walpole Center — Forest Hills.

Wakefield: (136/137) Reading Depot — Malden Station.

Watertown: (59) Needham Junction — Watertown Square.

Because of low ridership, these seven bus routes will no longer be dedicated to exclusive lift-equipped buses: 7 (City Point — Downtown), 27 (Mattapan — Ashmont), 32 (Wolcott Square — Forest Hills), 76 (Hanscom Air Base — Alewife Station), 111 (Woodlawn — Haymarket), 300 (Express Bus, Riverside — Downtown), and 326 (West Medford — Haymarket).

The MBTA began acquiring lift-equipped buses in 1982. In 1986 the T's Call-A-Lift Bus Program began allowing passengers wanting to use an accessible bus on a route not dedicated exclusively to lift-bus service to simply call ahead to request one. All operators of lift-equipped buses have been thoroughly trained in the use of the wheelchair lift, tie-downs, and in awareness of the requirements of passengers with special needs.

The T has pledged to purchase only

lift-equipped buses in the future and with the arrival of 200 new lift-equipped buses this summer, almost 50 percent of the fleet will be lift equipped.

For more information on lift-equipped buses, the CALL-A-LIFT program and other services provided for passengers with special needs, please call the MBTA's Office of Transportation Access at 617-722-5123. Passengers who want to make lift bus reservations, should call 1-800-LIFT-BUS (543-8287).

CONTRACTS AWARDED AFTER ADVERTISING ("Requests for Qualifications") ("Requests for Proposals") ("Technically Deficient Bids")

The Mayor has approved the awarding of the contracts based on the following communications:

JOBS AND COMMUNITY SERVICES

Services to the Homeless

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to the Little Sisters of the Assumption/Family Health Services, Inc., a non-profit corporation, located at 45 Magnolia Street, Dorchester. Under the terms of the contract, the contractor will provide a variety of child care and family support services to approximately 140 homeless individuals.

The contractor was selected based upon an evaluation of its proposal submitted in response to a refunding request for proposals issued by the Mayor's Office of Jobs and Community Services on March 3, 1989. Costs were determined to be reasonable after extensive analysis by JCS staff. The extremely competitive proposal review process focused primarily on the contractor's performance during the prior contract period, but other selection criteria included administrative capability, the ability to serve the targeted client population, and the need for the proposed services. The issuance of this refunding document was the culmination of an exhaustive planning process which began in September of 1988. Citizen participation was crucial, for during the period from January 18,

1989, until February 9, 1989, eleven neighborhood meetings were held across the entire city to solicit community involvement and input in determining funding priorities, culminating in a city-wide hearing held on February 28, 1989. The public notice for the city-wide hearing was advertised in the *City Record* on January 30, 1989.

Compensation under the terms of this contract shall not exceed \$20,710, payment being made from the Community Development Block Grant program. The period of performance shall be from July 1, 1989, until June 30, 1990. This contractor has had contracts with this agency for this program for the previous three fiscal years at the following funding amounts: FY 87—\$22,500; FY 88—\$26,500; FY 89—\$21,800. This request has been delayed due to the length of time involved in the funding review process.

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised refunding process, I believe that further public advertising would serve no useful purpose.

Sincerely,
Theodore C. Landsmark,
Director.

Families and Children Services

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to the Eliot Church of Roxbury, a non-profit corporation, located at 56 Dale Street, Roxbury. Under the terms of the contract, the contractor will operate a recreational program with cultural enrichment and academic tutoring to approximately 120 area youths.

The contractor was selected based upon an evaluation of its proposal submitted in response to a refunding request for proposals issued by the Mayor's Office of Jobs and Community Services on March 3, 1989. Costs were determined to be reasonable after extensive analysis by JCS staff. The extremely competitive proposal review process focused primarily on the contractor's performance during the prior contract period, but other selection criteria included administrative capability, the ability to serve the targeted client population, and the need for the proposed services. The issuance of this refunding document was the culmination of an exhaustive planning process which began in September of 1988. Citizen participation was crucial, for during the period from January 18, 1989, until February 9, 1989, eleven neighborhood meetings were held across the entire city to solicit community involvement and input in determining funding priorities, culminating in a city-wide hearing held on February 28, 1989. The public notice for the city-wide hearing was advertised in the *City Record* on January 30, 1989.

Compensation under the terms of this contract shall not exceed \$25,175, payment being made from the Community Development Block Grant program. The period of performance shall be from July 1, 1989, until June 30, 1990. This contractor has had contracts with this agency for this program for the previous three fiscal years at the following funding amounts: FY 87—\$27,000; FY 88—\$29,000; FY 89—\$26,500. This request has been delayed due to the length of time involved in the funding review process.

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised refunding process, I believe that further public advertising would serve no useful purpose.

Sincerely,
Theodore C. Landsmark,
Director.

PARKS AND RECREATION DEPARTMENT

Management of Parkland, etc.

Dear Mr. Mayor:

I respectfully request your Honor's permission to award a contract to the Jamaica Pond Project, of 36 Perkins Street, Jamaica Plain. Under the terms of the contract, the Jamaica Pond Project will assist in maintaining specific areas and programming services at the Parkland and its facilities at Jamaica Pond, for the Parks and Recreation Department.

The Parks and Recreation Department issued a request for proposal to assist in maintaining specific areas and programming services at Jamaica Pond. The Jamaica Pond Project was the only proposal submitted for this request. Evaluative criteria included necessary experience, organization, technical qualifications, equipment and the facilities to perform the services outlined in the RFP. The contractor must also be able to comply with the required time of delivery and schedule, and have a satisfactory record of performance.

The Jamaica Pond Project's proposal details their past experience, as well as a schedule for the contract. The Jamaica Pond Project will be responsible for the hiring of a park keeper who will oversee the daily management of the parkland, boathouse and public environmental facilities. The Project has operated park keeping at the Jamaica Pond for the past six years insuring that the facilities have been open and clean.

Compensation under the terms of this contract will not exceed \$20,000. Payment for these services will be made from appropriation code 011-300-0301-0290-PK06. The period of performance will be from July 1, 1989, through June 30, 1990.

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, based on the following communications:

HEALTH AND HOSPITALS DEPARTMENT

Health Center Services

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to dispense with public advertising and award a contract to South End Community Health Center, Inc., 400 Shawmut Avenue, for the period July 1, 1989, through June 30, 1990, at a cost not to exceed \$169,700.

Under this contract, medical services are provided for residents of the South End Community through the operation of a private, non-profit medical care clinic. The health center provides high quality health services in a neighborhood that has almost no private physicians or other acceptable primary care services. The health center provides three basic primary care services: adult medicine, pediatrics, and obstetrics/gynecology. Department of Health and Hospitals funded health centers play a major role in the delivery of ambulatory care throughout the city.

The South End Community Health Center has operated this clinic for almost twenty years with financial assistance from this department, and in our judgment it is a vital provider of health services in the community which must continue to operate. Unadvertised contracts have been awarded for the past three fiscal years in the following amounts: 1989 — \$169,700; 1988 — \$169,000; 1987 — \$156,700. This contract enables the health center to meet the responsibility placed upon it by the City of Boston Primary Care Districting Plan.

Inasmuch as the South End Community Health Center, Inc. is specially suited by experience and expertise to provide this service to the city, at a cost that is reasonable, and since the services provided are of a personal and professional nature, no benefit would inure to the city by publicly advertising for bids.

Very truly yours,

Judith Kurland,
Commissioner.

JOBS AND COMMUNITY SERVICES

Counseling Services

The contractor was selected based upon an evaluation of refunding proposals submitted to both DSS and the Mayor's Office of Jobs and Community Services. Other selection criteria include the results of site monitoring visits conducted by JCS staff, an overall review of the contractor's performance during the prior contract period, administrative capa-

Compensation under the terms of this contract shall not exceed \$4,390, payment being made from the Community Development Block Grant program. The period of performance shall be from July 1, 1989, until June 30, 1990. Sincerely,

Theodore C. Landsmark,
Director.

Under the terms of the contract, the contractor will provide a variety of recreational activities to approximately six hundred (600) low- and

Compensation under the terms of this contract shall not exceed \$27,500, payment being made from the Community Development Block Grant program. The period of performance shall be from July 1, 1989, until June 30, 1990. This contractor has had contracts with this agency for this program for the previous three fiscal years at the following funding amounts: FY 87—\$22,500; FY 88—\$32,000; FY 89—\$29,000. This request has been delayed due to the length of time involved in the funding review process.

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised refunding process, I believe that further public advertising would serve no useful purpose.

Sincerely,
Theodore C. Landsmark,
Director.

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to Boys' and Girls' Club of Boston, Inc./South Boston Branch, a nonprofit corporation, located at 230 West Sixth Street. Under the terms of the contract, the contractor will provide a variety of summer recreational activities through the South Boston Summer Collaborative Program. This program will serve approximately 870 pre-teen children.

The contractor was selected based upon an evaluation of its proposal submitted in response to a refunding request for proposals issued by the Mayor's Office of Jobs and Community Services on March 3, 1989. Costs were determined to be reasonable after extensive analysis by JCS staff. The extremely competitive proposal review process focused primarily on the contractor's performance during the prior contract period, but other selection criteria included administrative capability, the ability to serve the targeted client population, and the need for the proposed services. The issuance of this refunding document was the culmination of an exhaustion planning process which began in September of 1988. Citizen participation was crucial, for during the period from January 18, 1989, until February 9, 1989, eleven neighborhood meetings were held across the entire city to solicit community involvement and input in determining funding priorities, culminating in a city-wide hearing held on February 28, 1989. The public notice for the city-wide hearing was advertised in the *City Record*, on January 30, 1989.

Compensation under the terms of this contract shall not exceed \$32,300, payment being made from the Community Development Block Grant program. The period of performance shall be from July 1, 1989, until June 30, 1990. This contractor has had contracts with this agency for this program for the previous three fiscal years at the following funding amounts: FY 87—\$35,000; FY 88—\$37,000; FY 89—\$34,000. This request has been delayed due to the length of time involved in the funding review process.

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised refunding process, I believe that further public advertising would serve no useful purpose.

Sincerely,
Theodore C. Landsmark,
Director.

LAW DEPARTMENT

Legal Services

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and to award a contract to Merrick and Louison, a law firm located at 153 Milk Street.

Pursuant to an order passed by the City Council on August 17, 1988, and approved by your Honor on September 6, 1988, I have designated Nancy Merrick and Douglas Louison "Special Outside Counsel." The order classifies that position as a special municipal employee in accordance with G. L. c. 268A, section 1 (n), the so-called "ethics law."

Under the terms of the contract, Attorneys Nancy Merrick and Douglas Louison will provide legal services which will include as necessary all pre-trial discovery, motions and trials of the following cases: *Allen Curry v. Thomas Hammond, et al*, Suffolk Superior Court, No. 59905; *Edward Bullock v. City of Boston*, U.S. District Court, No. 88-1713-S; *Brian Partello v. Ralph Henry and City of Boston*, U.S. District Court, No. 86-1880-MC; *Patricia Massenburg-Bates v. City of Boston*, Suffolk Superior Court No. 88-7068; *Albert Vasallo v. City of Boston*, U.S. District Court, No. 87-2837-K4; *Kelbert Duckett v. City of Boston*, U.S. District Court No. 88-1866-MC.

Nancy Merrick and Douglas Louison are uniquely qualified to do this work because they are former assistant corporation counsels specializing in the defense of civil rights litigation and also because of their established expertise and experience in this area of law. Some of these cases were originally handled by them while employed by the city. It is necessary for Ms. Merrick and Mr. Louison to continue their representation of these cases because of the complex legal issues involved and because continuity of counsel is essential to the successful defense of these matters.

Compensation under this contract shall not exceed \$96,000, to be paid at the rate of \$90 per hour. This rate represents a substantial discount of the rates Ms. Merrick and Mr. Louison charge other clients. I have determined this rate to be reasonable for the work to be performed.

Unadvertised contracts have been awarded to Merrick and Louison for the past three years in the following amounts:

Fiscal Year 1989 — \$80,000; Fiscal Year 1988 — \$100,000; Fiscal Year 1987 — \$25,000.

The term of this contract shall be from July 1, 1989, through June 30, 1990.

Because of the professional nature of the services to be performed, and their demonstrated com-

petence, I believe that public advertising would serve no useful purpose.

Very truly yours,
Joseph I. Mulligan, Jr.,
Corporation Council.

REAL PROPERTY DEPARTMENT Centrifugal Compressor Repair

Your Honor:

I respectfully request your Honor's permission to award a contract to York International, Providence Highway, the task of removing and inspecting a York centrifugal compressor at Boston City Hall.

Currently the main air conditioning chiller at Boston City Hall is no longer operational. Boston City Hall is a sealed building and without this chiller the proper ventilation and air conditioning to keep the building open cannot be provided.

The problem exists in the units compressor. Under the supervision of the Building System Engineer York will erect an A frame and supporting bar to remove the 650 1B compressor from the unit. York will then disassemble the compressor and evaluate the damage.

The cost of the work described above is \$4,800, which will be paid pursuant to the city's existing contract with this firm's contract No. 3428-89 for miscellaneous and emergency repairs. This contract requires the Mayor's approval for any single repair of \$2,000 or more.

Because the price quoted is reasonable, York is the original manufacturer and the emergency nature of the work, I believe public advertising would serve no useful purpose.

Respectfully yours,
Marie A. Turley,
Assistant Commissioner.

Telecommunications Services

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense without public advertising and to award a contract to Timothy Downing, an individual located in Malden, to provide the services of a telecommunication technician.

Under the terms of this contract Mr. Downing will:

Lay out, implement, supervise and/or complete all moves and changes of telecommunications systems in all City Hall Departments; evaluate trouble calls and repair same or refer to proper vendor to prevent unnecessary and expensive billing; inventory and ordering of supplies for repairs and installation of telecommunication system.

For the past thirty-two months, Mr. Downing has provided prompt and efficient phone service at a substantial savings to the city. In addition, he has over thirty years experience and possesses an unmatched knowledge of the city systems unique wiring and equipment locations.

Compensation under this contract shall not exceed \$40,000, which I have determined to be reasonable for the work to be performed. The term of this contract shall be July 1, 1989, to June 30, 1990.

Because of Mr. Downing's unique knowledge of this system and cost estimates which more than double the rate to be paid to Mr. Downing, \$24 per hour, I believe public advertising would serve no useful purpose.

Mr. Downing has continued to provide service to Boston City Hall under contractual agreement since his retirement from AT&T. Mr. Downing has

had three previous contracts with this department.
1/11/86 — 6/30/87, \$19,000; 7/1/87 — 7/30/88,
\$35,000; 7/1/88/ — 6/30/89, \$35,000.

Respectfully yours,
Marie A. Turley
Assistant Commissioner.

SCHOOL DEPARTMENT

Dropout Prevention Services

Dear Mr. Mayor:

As superintendent of the Boston Public Schools, I respectfully request your authorization for the award of a contract to Boston Private Industry Council, a corporation located at 185 Devonshire Street.

This contract shall be in effect during the period July 1, 1989, to June 30, 1990, and shall occur at a cost not to exceed \$480,024, which I have deemed to be reasonable.

Under the terms of this contract, the Boston Private Industry Council will act as a fiscal agent of the Boston Public Schools and provide dropout prevention services through the Compact Ventures Program at thirteen program centers within the Boston Public Schools.

Each case manager at the center will work closely with school administration and faculty to enroll over 100 at-risk ninth-and tenth-grade students in the Compact Ventures Program; establish an in-school tutoring center; coordinate outreach and referral services; supervise staff; maintain records on student participants; and supervise a summer follow-up program. Each case manager will also assist the Business Partnership Manager in brokering agreements with community-based organizations and educational institutions, and will provide support to the Boston Private Industry Council on all activities concerning the achievement of Compact goals.

Because of the professional nature of the services to be provided under this agreement and the expertise of the contractor in providing these services, it is my determination that the public interest would not be served by publicly advertising for bids.

Compensation to this vendor during the past three fiscal years in the form of unadvertised contracts is as follows: 1989 — \$480,024; 1988 — \$480,024; 1987 — \$480,024.

Very truly yours,
Laval S. Wilson
Superintendent.

Chapter 636 Proposals

Dear Mr. Mayor:

As superintendent of the Boston Public Schools, I respectfully request your authorization for the award of a contract to Arts in Progress, Inc., a corporation located at 11 Green Street, Jamaica Plain.

On May 23, 1989, the School Committee approved all of the FY90 Chapter 636 proposals in the amount of \$5,677,938.

This contract shall be in effect during the period July 1, 1989, to June 30, 1990, and shall occur at a cost not to exceed \$20,940, which I have deemed to be reasonable.

Under the terms of this contract, the contractor will provide cultural education services to the North, East, and West Zones of the Boston Public Schools. The contractor will provide the following

services: storytelling classes with a multi-cultural focus in conjunction with the Boston Public Schools language Arts and Social Studies curricula. Storytellers will work with students, classroom teachers, parents and other school staff at elementary and middle schools to encourage a love of oral language and to teach specific technique to encourage reading aloud. Arts in Progress will provide coordination, follow-up and curriculum consultation with teachers and evaluation mechanisms for all programs.

Arts in Progress, Inc. is uniquely qualified to provide these services because: Arts in Progress, Inc. is organized sufficient resources under chapter 636 (1974 amendments to the 1965 Racial Imbalance Act); (2) the institution has specifically designed services in conjunction with School Department personnel to meet the intent of U.S. District Court Judge W. Arthur Garrity (*Morgan v. McDonough*, Civil Action No. 72-911-G); (3) further, their services have been reviewed and approved by appropriate personnel at the State Department of Education.

Because of the professional nature of the services to be provided under this agreement and the expertise of the contractor in providing these services, it is my determination that the public interest would not be served by publicly advertising for bids.

Compensation to this vendor during the past three fiscal years in the form of unadvertised contracts is as follows:

1989 — \$33,647; 1988 — \$12,063; 1987 — \$4,390.

Very truly yours,
Laval S. Wilson
Superintendent.

RAMSAY PARK REOPENS AFTER \$500,000 RESTORATION

Mayor Raymond L. Flynn and the Parks and Recreation Department celebrated the reopening of Ramsay Park in Roxbury on Saturday, August 5, 1989, after completing over \$500,000 in capital improvements.

Over 600 local residents spent the day playing softball, tennis and basketball on the refurbished facilities, and listening to music by local bands. The Police Athletic League provided hamburgers, hot dogs, and refreshments to the participants.

Parks Commissioner Larry Dwyer, who oversees the \$120-million restoration of Boston's parks under Mayor Flynn's five-year capital improvement plan, Rebuilding Boston, noted that the completion of Ramsay Park could not have taken place without the help of local community groups.

"Ramsay Park is lucky to have park partners such as the Lenox-Camden Task Force and the Veterans Benefits Clearing House, who have worked with the City every step of the way to bring this park back," Dwyer said. "Ramsay Park has been returned to the people of this community, and the Parks Department is confident that local pride will make this one of the best parks in the city."

Other guests who attended the park opening included City Councilors Bruce Bolling, Mike McCormack, Charles Yancey, Rosaria Salerno, and Dapper O'Neil, and local State Representatives Gloria Fox, Byron Rushing, and Fran Doris.

Parks Regional Administrator Jackie Cooper said that the Parks Department and the park partners will continue to work together on beautification, cleanups, and special activities.

BOSTON'S YOUTH CAMPAIGN

At Boston Youth Campaign festivities in Mattapan Square, on August 5, Mayor Raymond L. Flynn announced that opportunities for young people in the city this summer have increased by over 20 percent through the overwhelming support of the campaign.

"We are succeeding in our commitment to the kids of Boston this summer. The jobs, the tutoring, and the recreational opportunities made available to our young people through the Youth Campaign send a clear message of

hope for the future to every kid in every neighborhood of the city.

"We are here today re-affirming a commitment I made to all of you in January during my State of the City address — we will help you to stay in school and if you're out of school we'll help you to get a job. In the end, that choice of hard work and opportunity on one hand and drug abuse and despair on the other is yours alone. We will be there with you to help you make the right decisions about your future.

"I want to thank all the people who are helping make this a summer of hope and opportunity for our youth. Your investment of time and good example to the kids of Boston brings home the message that we care. You are making the difference for young people in Boston this summer."

Youth in Boston have the opportunity to participate in over 243,000 recreational and educational activities this summer through the Boston Youth Campaign — an increase of almost 21 percent over last year. All program activities of the Parks Department and Boston Community Schools and Recreation Centers have been expanded this year, and additional activities through other city departments, including Police, Jobs and Community Services, and Business and Cultural Development, have been provided to kids throughout Boston's neighborhoods. Through the Mayor's Capital Plan, Rebuilding Boston, the Parks Department has re-opened playgrounds, tot lots, and playing fields throughout the city,

including the Devine Golf Course at Franklin Park. Community Schools has provided day and child care for youngsters and expanded the Camp Joy program for special needs children and adults. In addition, their Youth Outreach Program has increased teenage youth involvement from 3,800 to over 4,800.

The Boston Summer Jobs Program has already exceeded its goal of 6,000 summer jobs for youth. To date, Over 6,750 teenage youth have summer jobs this year with over 800 businesses participating in the jobs program.

Over 150 Boston businesses have supported programs and activities of the Boston Youth Campaign this summer and through private and business community support, over \$200,000 has been pledged to summer activities.

"So far, this summer has been a great one," said Mayor Flynn. "Now, in the heat of the summer, we cannot sit back but instead must guard against complacency. Together, we are providing a brighter future for our children. I encourage all of you who live or work in Boston to join the Boston Youth Campaign and help us to show our young people how much we care!"

MBTA EMPLOYEES RECEIVE CUSTOMER SERVICE AWARDS

Six employees received the MBTA Board of Directors' Customer Service Award in Transportation Building ceremonies recently in recognition of their efforts to provide high-quality service to T passengers.

Customer Service Awards are presented four times a year to T employees who, as Governor Michael Dukakis has said, "represent the excellence that makes the T better and better every day."

Customer Service Award recipients are selected by the MBTA Board of Directors' Customer Service subcommittee, composed of Melissa Tillman, Judith Robbins and William Irvin. Committee chairwoman Melissa Tillman said, "Today, the Board of Directors has the privilege of recognizing six outstanding employees who exemplify our high standards of customer service. Everyday these employees do their best to see that T service is on time, safe, clean, and friendly."

General Manager Thomas P. Glynn said, "It is the hard work and dedication of employees such as these that has enabled the T to improve. The men and women honored today are the 'best of the best' . . . the unsung heroes in the T's efforts to provide high quality customer service."

The employees honored for outstanding services to passengers are:

- Patricia Foley, information clerk, Park Street Information Booth; 10 years at the MBTA.
- Joseph Gray, subway motoperson, Red Line, 19 years at the T.
- Clare Powers, streetcar operator, Green Line, 22 years.
- Phillip Racioppi, bus operator, Charlestown Garage, 17 years at the T.
- Ramon Rivera, bus operator, Arborway Garage, 17 years at the T.
- Thomas Sullivan, subway chief inspector, Red Line, 3 years at the T.

The T's Customer Service Award program began in March, 1989 when six employees were honored for exemplary customer service during ceremonies which also marked the swearing in of General Manager Glynn.

Over the past five years, over 100,000 additional passengers have begun to use MBTA bus, streetcar, subway, and commuter rail trains on a daily basis.

CONTRACTS AWARDED AFTER ADVERTISING

("Requests for Qualifications")
("Requests for Proposals")
("Technically Deficient Bids")

The Mayor has approved the awarding of the contracts based on the following communications:

JOBS AND COMMUNITY SERVICES

Elderly Residents Services

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to Family Service of Greater Boston, a nonprofit corporation, located at 34-1/2 Beacon Street. Under the terms of the contract, the contractor will operate the Peterborough Senior Center, providing a variety of services to approximately 200 elderly residents of the Fenway community.

The contractor was selected based upon an evaluation of its proposal submitted in response to a refunding request for proposals issued by the Mayor's Office of Jobs and Community Services on March 3, 1989. Costs were determined to be reasonable after extensive analysis by JCS staff. The extremely competitive proposal review process focused primarily on the contractor's performance during the prior contract period, but other selection criteria included administrative capability, the ability to serve the targeted client population, and the need for the proposed services. The issuance of this refunding document was the culmination of an exhaustive planning process which began in September of 1988. Citizen participation was crucial, for during the period from January 18, 1989, until February 9, 1989, eleven neighborhood meetings were held across the entire city to solicit community involvement and input in determining funding priorities, culminating in a city-wide hearing held on February 28, 1989. The public notice for the city-wide hearing was advertised in the *City Record* on January 30, 1989.

Compensation under the terms of this contract shall not exceed \$18,430, payment being made from the Community Development Block Grant program. The period of performance shall be from July 1, 1989, until June 30, 1990. This contractor has had contracts with this agency for this program for the previous three fiscal years at the following funding amounts: FY 87 — \$22,000; FY 88 — \$22,000; FY 89 — \$19,400. This request has been delayed due to the length of time involved in the funding review process.

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised refunding process, I believe that further public advertising would serve no useful purpose.

Sincerely,
Theodore C. Landsmark
Director.

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to La Alianza Hispana, Inc., a nonprofit corporation, located at 409 Dudley Street, Roxbury. Under the terms of the contract, the con-

tractor will operate a senior center for approximately 250 Hispanic elderly area residents.

The contractor was selected based upon an evaluation of its proposal submitted in response to a refunding request for proposals issued by the Mayor's Office of Jobs and Community Services on March 3, 1989. Costs were determined to be reasonable after extensive analysis by JCS staff. The extremely competitive proposal review process focused primarily on the contractor's performance during the prior contract period, but other selection criteria included administrative capability, the ability to serve the targeted client population, and the need for the proposed services. The issuance of this refunding document was the culmination of an exhaustive planning process which began in September of 1988. Citizen participation was crucial, for during the period from January 18, 1989, until February 9, 1989, eleven neighborhood meetings were held across the entire city to solicit community involvement and input in determining funding priorities, culminating in a city-wide hearing held on February 28, 1989. The public notice for the city-wide hearing was advertised in the *City Record* on January 30, 1989.

Compensation under the terms of this contract shall not exceed \$30,875, payment being made from the Community Development Block Grant program. The period of performance shall be from July 1, 1989, until June 30, 1990. This contractor has had contracts with this agency for this program for the previous three fiscal years at the following funding amounts: FY 87 — \$34,000; FY 88 — \$36,000; FY 89 — \$32,500. This request has been delayed due to the length of time involved in the funding review process.

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised refunding process, I believe that further public advertising would serve no useful purpose.

Sincerely,
Theodore C. Landsmark
Director.

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to the Council of Elders, Inc., a nonprofit corporation, located at 2055 Columbus Avenue, Roxbury. Under the terms of the contract, the contractor will provide a variety of recreational, counseling, educational, and support services to approximately 4,000 elderly city residents.

The contractor was selected based upon an evaluation of its proposal submitted in response to a refunding request for proposals issued by the Mayor's Office of Jobs and Community Services on March 3, 1989. Costs were determined to be reasonable after extensive analysis by JCS staff. The extremely competitive proposal review process focused primarily on the contractor's performance during the prior contract period, but other selection criteria included administrative capability, the ability to serve the targeted client population, and the need for the proposed services. The public notice for the city-wide hearing was advertised in the *City Record* on January 30, 1989.

Compensation under the terms of this contract shall not exceed \$61,750, payment being made from the Community Development Block Grant program. The period of performance shall be from July 1, 1989, until June 30, 1990. This contractor has had contracts with this agency for this program for the previous three fiscal years at the following funding amounts: FY 87 — \$68,000; FY 88 — \$70,000; FY 89 — \$65,500. This request has been delayed due to the length of time involved in the funding review process.

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised refunding process, I believe that further public advertising would serve no useful purpose.

Sincerely,
Theodore C. Landsmark
Director.

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to the Corey Washington Elderly Housing and Services Committee, Inc., a nonprofit corporation, located at 20 Washington Street, Brighton. Under the terms of the contract, the contractor will give comprehensive counseling and support services to approximately 180 elderly residents of the Allston/Brighton community.

The contractor was selected based upon an evaluation of its proposal submitted in response to a refunding request for proposals issued by the Mayor's Office of Jobs and Community Services on March 3, 1989. Costs were determined to be reasonable after extensive analysis by JCS staff. The extremely competitive proposal review process focused primarily on the contractor's performance during the prior contract period, but other selection criteria included administrative capability, the ability to serve the targeted client population, and the need for the proposed services. The issuance of this refunding document was the culmination of an exhaustive planning process which began in September of 1988. Citizen participation was crucial, for during the period from January 18, 1989, until February 9, 1989, eleven neighborhood meetings were held across the entire city to solicit community involvement and input in determining funding priorities, culminating in a city-wide hearing held on February 28, 1989. The public notice for the city-wide hearing was advertised in the *City Record* on January 30, 1989.

Compensation under the terms of this contract shall not exceed \$16,000, payment being made from the Community Development Block Grant program. The period of performance shall be from July 1, 1989, until June 30, 1990. This contractor has had contracts with this agency for this program for the previous three fiscal years at the following funding amounts: FY 87 — \$15,000; FY 88 — \$18,000; FY 89 — \$16,000. This request has been delayed due to the length of time involved in the funding review process.

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised refunding process, I believe that further public advertising would serve no useful purpose.

Sincerely,
Theodore C. Landsmark
Director.

Recreation Activities

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to Inquilinos Boricuas en Accion, a nonprofit corporation, located at 405 Shawmut Avenue. Under the terms of the contract, the contractor will provide a variety of cultural/recreational activities for approximately 78 low-to-moderate-income individuals through its Areyto program.

The contractor was selected based upon an evaluation of its proposal submitted in response to a refunding request for proposals issued by the Mayor's Office of Jobs and Community Services on March 3, 1989. Costs were determined to be reasonable after extensive analysis by JCS staff. The extremely competitive proposal review process focused primarily on the contractor's performance during the prior contract period, but other selection criteria included administrative capability, the ability to serve the targeted client population, and the need for the proposed services. The public notice for the city-wide hearing was advertised in the *City Record* on January 30, 1989.

Compensation under the terms of this contract shall not exceed \$36,860, payment being made from the Community Development Block Grant program. The period of performance shall be from July 1, 1989, until June 30, 1990. This contractor has had contracts with this agency for this program for the previous three fiscal years at the following funding amounts: FY 87 — \$40,000; FY 88 — \$42,000; FY 89 — \$38,800. This request has been delayed due to the length of time involved in the funding review process.

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised refunding process, I believe that further public advertising would serve no useful purpose.

Sincerely,

Theodore C. Landsmark
Director.

Dental Care Services

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to the Greater Roslindale Health Organization, Inc., a nonprofit corporation, located at 6 Cummins Highway, Roslindale. Under the terms of the contract, the contractor will provide primary and preventive dental care services at the health center and local schools, serving approximately 2,850 individuals.

The contractor was selected based upon an evaluation of its proposal submitted in response to a refunding request for proposals issued by the Mayor's Office of Jobs and Community Services on March 3, 1989. Costs were determined to be reasonable after extensive analysis by JCS staff. The extremely competitive proposal review process focused primarily on the contractor's performance during the prior contract period, but other selection criteria included administrative capability, the ability to serve the targeted client population,

The public notice for the city-wide hearing was advertised in the *City Record* on January 30, 1989.

Compensation under the terms of this contract shall not exceed \$39,060, payment being made from the Community Development Block Grant program. The period of performance shall be from July 1, 1989, until June 30, 1990. This contractor has had contracts with this agency for this program for the previous three fiscal years at the following funding amounts: FY 87 — \$43,350; FY 88 — \$45,350; FY 89 — \$42,000. This request has been delayed due to the length of time involved in the funding review process.

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised refunding process, I believe that further public advertising would serve no useful purpose.

Theodore C. Landsmark
Director.

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to Crossroads, a nonprofit corporation, located at 56 Havre Street, East Boston. Under the terms of the contract, the contractor will provide a variety of transitional support services to approximately ninety individuals in need of permanent housing.

The contractor was selected based upon an evaluation of its proposal submitted in response to a refunding request for proposals issued by the Mayor's Office of Jobs and Community Services on March 3, 1989. Costs were determined to be reasonable after extensive analysis by JCS staff. MAYOR FLYNN OFFICIALLY OPENS NEW FRANKLIN PARK GOLF COURSE

Mayor Raymond L. Flynn and Parks Commissioner Lawrence A. Dwyer hosted a pro-am tournament at the Franklin Park golf course on August 1 to celebrate the reopening of the historic 18-hole course, which has just received over \$1.3 million in renovations.

Mayor Flynn was joined by public officials, residents, and members of Boston's media and business communities, and by officials from The Boston Five and Browning-Ferris Industries, co-sponsors of the event with the Boston Parks and Recreation Department. Former Bruins star Derek Sanderson represented BFI at the event.

Flynn touted community participation as a key element in the restoration of the golf course and Franklin Park itself, which was created in the 1890s by Frederick Law Olmsted, the father of American landscape architecture.

"We are grateful to the local residents and neighborhood groups who have worked so hard to bring back the entire Franklin Park," Flynn said. "The spirit of community pride is a key factor in the success of this facility, which is one of the City's great treasures."

Flynn also accepted a check from The Boston Five in support of the Parks Department's Junior Golf Program, a summer-long instruction course that is free to local youth.

Robert J. Spiller, Chairman and CEO of The Boston Five, said, "We hope our sponsorship of the Junior Golf Program will afford children from Boston's inner city with an opportunity to learn to play a sport that will provide them with a lifetime of enjoyment."

Commissioner Dwyer, who oversees the City's 192 parks and playgrounds, spoke of the recreational and educational opportunities that were created by the capital improvements.

"Franklin Park has quietly emerged as one of the best parks in the city to golf, run, walk, picnic, play sports such as tennis, soccer, rugby and softball, or just to relax. Our parks are clean, safe, and active, and with the continued support of

neighborhood groups, local businesses, and assistance from the state, we can continue to implement Mayor Flynn's mandate to revitalize the entire park system."

Nearly 100 golfers participated in the all day event, and awards were presented at the 3 p.m. ceremony at the Franklin Park clubhouse. The golf course is administered by the Parks Department, and is being managed by the Franklin Park Golfers Association and Bill Flynn Golf Course Management and Development Company.

MWRA TO HOLD CONTRACTORS' FORUM ON BOSTON HARBOR PROJECT

The Massachusetts Water Resources Authority (MWRA) will host a forum for prospective bidders on the Boston Harbor Project on August 9th in Cambridge, Massachusetts. The forum, which is primarily for construction contractors, will be held from 9 a.m. to 5 p.m. at the Transportation Systems Center in Kendall Square. Design consultants and suppliers are also welcome.

"The Boston Harbor Project is New England's largest public works job," said the MWRA's Richard Fox, Director of the Program Management Division. "We need to attract the most qualified, capable contractors."

The 10-year, \$6.1-billion project involves the construction of the nation's largest wastewater treatment project, an 8.5-mile effluent outfall tunnel, the largest of its kind in the world, a second tunnel beneath Boston Harbor, and other related facilities.

"This project presents many exciting opportunities for the design and construction industries," Fox said. "This forum will give us a chance to explain the magnitude of the project, and to answer questions regarding the project's management and upcoming contracts."

Persons interested in the forum may contact the Boston Harbor Project Office at (617) 241-4000.

Said amendment is necessary due to the increased scope of service required of the designer. Under the terms of the amended contract, Camp, Dresser & McKee, Inc. shall provide additional supplementary services including a topographic survey of the island and subsurface soil borings which are necessary to complete the design of the project.

In view of the technical and professional nature of the services required, the expertise and familiarity of the designer with all existing conditions, and the reasonable cost of such services, it is my view that further public advertising would serve no useful purpose in this particular instance.

Sincerely,

Lisa G. Chapnick,
Director

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. CITY AWARDS GRANTS TO SEVEN HOMELESS SHELTERS

The City of Boston's Public Facilities Department (PFD) has given \$290,000 in grants for the homeless to seven social service agencies. The funds will help more than 100 homeless individuals by providing beds, meals, job training, and counseling. The grants will also enable shelters to repair serious structural defects, correct health and safety deficiencies, and make available new beds by renovating currently vacant properties.

The funds being used were awarded to the City of Boston by the U.S. Department of Housing and Urban Development's Emergency Shelter Grant Program, initiated by Congress, through the Stewart B. McKinney Homeless Assistance Act.

"The needs of the homeless don't disappear when the warm weather arrives," said Lisa G. Chapnick, director of Public Facilities. "I'm glad that in Boston we're able to support the many shelters year-round."

Since 1986, PFD has committed Emergency Shelter Grant funds totalling \$721,000 to 21 shelters with a combined capacity for 1,000 individuals daily. When all projects are complete, 360 additional beds will be available for the homeless.

Grant recipients include Boston Family Shelter, Inc., Bostonian Chambers, Lifehouse, Inc., and Project Hope of Dorchester; Casa Myrna Vasquez of the South End; Elizabeth Stone House of Jamaica Plain; and the Roxbury Multi-Service Center.

T RECORDS DRAMATIC IMPROVEMENTS IN ACCESSIBLE TRANSPORTATION

Massachusetts Bay Transportation Authority (MBTA) General Manager Thomas P. Glynn announced recently that the T has made major advances over the past two years in providing accessible service to disabled passengers and expand Ride service to eight communities north and south of Boston.

Highlights of these advances include:

- Expansion of The Ride, the T's door-to-door lift-equipped van service, from 24 to 36 communities, with further broadening of the program to passengers in 44 communities by the end of June, 1989;
- growth in the number of passengers registered to use The Ride, from 14,000 in 1986 to over 19,999 this month;
- growth in the number of lift-equipped vans in operation since 1986 from 70 to 103;

- start of the Call-A-Lift Bus program in 1986, with requests for over 5,300 trips projected for 1989;
- Expansion of lift-equipped bus fleet to include 473 buses by the end of this summer, making nearly 50 percent of the entire bus fleet handicapped accessible. The T has made a commitment that all buses purchased in the future will be lift equipped.
- growth in the number of accessible subway stations from 10 in 1986 to 25 in 1989, 48 percent of the total of all subway stations;
- planning under way to make the Blue Line fully accessible;
- increase in the number of accessible commuter rail stations from 13 in 1986 to 29 in 1989, almost one-third of the total number of stations;
- 107 fully accessible commuter rail coaches have been placed into service since 1986; 180 additional single and double-decker coaches have been ordered;
- a study is under way on the feasibility of making the Green Line accessible;

the study is scheduled to be completed in early 1990.

General Manager Glynn said, "The T's progress in providing accessible transportation has been possible only with the support and commitment of Governor Michael S. Dukakis and the Massachusetts Legislature. This support is particularly important in the face of relaxed federal regulations and decreased federal funding. I am very proud of our accomplishments."

In addition to a review today of its achievements since adopting the "MBTA Policy Statement on Accessibility, 1987," the MBTA voted to fund the expansion of Ride service on the North Shore to Beverly, Peabody, and Danvers. Service will be operated for the MBTA by North Shore Transit, Inc.

RIDE service will also be expanded to five South Shore communities: Cohasset, Hingham, Holbrook, Hull, and Randolph. This service will be operated by Transportation Management Services, Inc. (TMSI).

RIDE service in these new North and South Shore communities will be available 365 days a year — Monday through Friday, from 7:00 a.m., to 7:00 p.m., and from 9:00 a.m. to 6:00 p.m. on weekends and holidays.

In related actions, the MBTA voted to extend service agreements for one year with contractors in five areas already served by The RIDE. These include:

- Share-A-Ride, Inc., \$317,818, for service in Bedford, Burlington, Concord, Lexington, Lincoln, Wilmington, Winchester, Woburn and Waltham;
- North Shore Transit, Inc.; \$371,377 for service in Lynn, Marblehead, Nahant, Salem, Saugus, Swampscott and three new communities;
- TMSI; \$689,000 for service in Quincy, Braintree, Milton, Weymouth and the five new communities;

ACCESSIBLE TRANS. . . .

(Continued from page 1)

- DAVE Systems, Inc.; \$3,971,547, and Veteran's Transportation Services, Inc.; both for service in the core area of Boston and 14 surrounding communities.

In continuing its commitment to provide accessible transportation, the MBTA also voted to award a \$4 million construction contract to the W. T. Rich Company, Inc., for the installation of an elevator and an escalator on the inbound side of the Chinatown station on the Orange Line.

CONTRACTS AWARDED

The Mayor has approved the award of the following contracts to the lowest eligible bidders:

HEALTH BENEFIT AND INSURANCE DIVISION

Insurance Policies

To purchase life and accidental death and dismemberment policies for eligible retirees on terms deemed to be in the best interest of the city/county and its employees, awarded to the Boston Mutual Life Insurance Company, Canton, for the period July 1, 1988, through June 30, 1989, at a cost not to exceed \$1,010,000.

CONTRACTS AWARDED AFTER ADVERTISING ("Requests for Proposals") ("Requests for Qualifications")

The Mayor has approved the awarding of the contracts based on the following communications:

TRANSPORTATION DEPARTMENT

Disposal of Abandoned Cars

For the disposal of abandoned cars, awarded to American Towing, Inc., Revere, at \$16,133, for the period July 1, 1988, to June 30, 1989.

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, based on the following communications:

PUBLIC WORKS DEPARTMENT

Street Sweeping Services

Dear Mr. Mayor:

On July 22, 1988, his Honor, the Mayor, approved the award of a contract, without public advertising for bids, to Banfield Division of Waste Management of Massachusetts, Inc., South Boston, for furnishing street sweeping services to the City of Boston at night, including all cost of equipment, labor and disposal at a cost not to exceed \$888,886.30, for the period July 1, 1988, to June 30, 1989.

The reason that it was awarded without public advertising for bids, was that it had an option to renew provision on the contract for the previous year and the City of Boston opted to renew this contract for the period in question.

Your approval is requested to amend this contract to provide for funds which are necessary to defray costs for additional sweeping operations. This consisted of sweeping during these winter months due to the unusual and extremely mild weather we experienced. This resulted in almost 9,475 additional curb miles to be cleaned at \$30.92/c.m. for almost \$293,000.

Add the cost incurred by increasing the mileage in section C, as well as revising section B from six nights of sweeping to seven nights of sweeping and we anticipated approximately another \$32,000.

The cost of this amendment, which is effective on March 31, 1989, shall not exceed \$325,000, which I have determined to be reasonable.

The total cost of this contract, as amended, shall not exceed \$1,213,886.30. This funding will be charged against Appropriation Code 011-311-0311-PW05-0290 with an additional encumbrance of \$325,000.

This letter is being prepared at this late date due to a lengthy delay in obtaining the necessary signatures and bonding at the corporate headquarters by the contractor, as well as the need to revise the original letter of award at the request of the Office of Contract Management for additional information.

Inasmuch as this work is directly related to, and in conjunction with, an existing contract, I feel that public advertising would serve no useful purpose.

Very truly yours,

Joseph F. Casazza,
Commissioner.

CONTRACTS AMENDED

The Mayor has approved the amending of contracts, based on the following information:

JOBS AND COMMUNITY SERVICES

Counseling Services

Dear Mayor Flynn:

On or about October 13, 1988, your Honor approved the award of a contract to the Cape Verdean Community House, Inc., a nonprofit corporation, located at 339 Dudley Street, for the purpose

of providing counseling services and a summer youth program. Total compensation under the terms of this contract was for an amount not to exceed \$22,000, payment being made from the Community Development Block Grant program for the period of July 1, 1988, until June 30, 1989.

Your approval is requested to amend this contract in terms of compensation. Additional funds are requested to allow the contractor to continue providing counseling services for the remainder of the current fiscal year. The counseling services component of this contract was originally budgeted for \$12,000 for a six-month period, after which the contractor's program performance was to be reviewed and determination made whether or not to continue the current contractual relationship between the contractor and the Mayor's Office of Jobs and Community Services. During the period of conditional funding, the Cape Verdean House successfully addressed the concerns raised by JCS staff, and I believe the program deserves continued JCS support. I, therefore, respectfully request your Honor's permission to increase compensation in the amount of \$12,000. Total compensation under the terms of this contract, as amended, shall not exceed \$34,000. The scope of services and budget for the counseling services component of this contract will be modified accordingly. All other terms and conditions of the original contract shall remain the same.

As this is a negotiated contract amendment at a reasonable cost, based upon an extensive program review, I believe that public advertising would serve no useful purpose.

Sincerely,

Theodore C. Landsmark,
Director.

PUBLIC FACILITIES DEPARTMENT

School Window Renovations Design

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on April 27, 1989, I respectfully request your honor's written permission to dispense with further public advertisement and amend a contract approved by your Honor on September 29, 1987, awarded to Perry, Dean, Rogers and Partners, architects with offices at 177 Milk Street, for the design of window renovations at the Dearborn Middle, Mather, and Lewenberg Schools. The cost of this amendment shall not exceed \$19,550. The amended cost of this contract shall not exceed \$210,831 (including \$33,550 for Supplementary Services) which is a fixed fee of 12.39 percent based on an estimated cost of construction of \$710,840. The amended term of this contract shall be extended to December 29, 1989.

Said amendment is necessary due to the increased scope of service required of the designer. Under the terms of the amended contract, Perry, Dean, Rogers and Partners, Architects shall provide additional supplementary services. The original contract provided for construction supervision services one day per week. It has become necessary to increase these services to five days per week.

In view of the technical and professional nature of the services required, the expertise and familiarity of the designer with all existing conditions, and the reasonable cost of such services, it is my view that further public advertising would serve no useful purpose in this particular instance.

Sincerely,

Lisa G. Chapnick,
Director.

RAYMOND L. FLYNN
MAYOR OF BOSTON

OFFICIAL CHRONICLE, MUNICIPAL AFFAIRS

CHRISTOPHER A. IANNELLA
PRESIDENT, CITY COUNCIL

VOL. 81

MONDAY, JULY 24, 1989

NO. 30

MAYOR FLYNN PROPOSES TAX INCENTIVES

To "Defuse Ticking Time Bomb" of Expiring Federal Housing Subsidies.

Mayor Raymond L. Flynn proposed, at a July 10 Boston hearing of the United States Senate Subcommittee on Housing and Urban Affairs, that Congress provide new tax incentives for owners of federally subsidized housing to sell these buildings to tenants and community-based organizations, to "defuse the ticking time bomb of expiring federal housing assistance."

Mayor Flynn outlined this initiative as part of a five-point plan to strengthen pending legislation proposed by Senators Alan Cranston of California and Alphonse D'Amato of New York. Senators John Kerry and Edward Kennedy of Massachusetts are co-sponsors of this legislation.

Mayor Flynn's five-point plan includes:

- 1) Tax incentives for owners of federally subsidized housing to sell their buildings to tenants or community-based organizations representing tenants;
- 2) The Community Housing Partnership Act, legislation filed by Congressman Joseph Kennedy which is based on the successful Boston Housing Partnership program.
- 3) Changes in the proposed distribution formula for the \$3 billion "Housing Opportunity Program" in the Cranston-D'Amato bill, to get funds directly to the local level.
- 4) Linkage of new housing legislation with expanded economic opportunities, such as meaningful enterprise zone legislation, and;
- 5) Establishment of a "White House Conference on Homelessness," to raise public awareness of this growing national crisis.

Mayor Flynn will call on Congress to "focus on those basic economic issues which unite Americans — ending homelessness, expanding the American Dream of homeownership and broadening economic opportunities for all our citizens. These are the bread and butter issues that our people want to see addressed — issues that have been neglected in Washington during the past ten years."

MAYOR FLYNN'S SUMMER
JOB GUARANTEE

Mayor Flynn, as part of the Boston Youth Campaign, and working with the business community, has guaranteed a summer job to every teenager who wants to work. If you know a kid who wants a job, call the Boston Youth Campaign at 725-HOPE.

The following groups are joining Mayor Flynn in realizing this important commitment. The Private Industry Council, Action for Boston Community Development, City of Boston Departments and Agency Corporations joining the Boston Youth Campaign.

SUMMER YOUTH EMPLOYMENT
AND TRAINING PROGRAM (SYETP)

The mission of the Boston SYETP, a program of the Mayor's Office of Jobs and Community Services, is to encourage at-risk youth to stay in school by offering educational continuity through the summer, meaningful work experience, and developing life planning skills. The following goals have been developed toward this end.

The goals of SYETP are:

- 1: To provide youth with a solid summer work experience in a job that has beneficial and tangible impact on the community.
Objective: To place some 600 youth in summer jobs in commu-

nity organizations throughout Boston's seventeen neighborhoods.

- 2: To operate an "enrichment" program that addresses specific, special needs of involved youth in addition to providing employment.

Objective: To implement an application and selection process for specialized enrichment programs which respond to identified special needs of at risk youth. These may include but are not limited to ESL programs, peer counseling and life planning, programs for physically handicapped, or more intensive classroom experience.

- 3: To offer academically "at risk" youth identified by the Boston Public School Department a combined educational and work experience at a local institution of higher education (STEP).
- 4: To sponsor a youth conservation corps to involve youth in making open spaces in Boston more attractive and to increase the environmental awareness of youth.
Objective: Forty-nine youth will be enrolled in the BYCC to beautify parks, community spaces and BHA grounds in neighborhoods throughout the city.

- 5: To provide youth employed in the summer program with a comprehensive package of ancillary services that increases each individual's chances of reaching his/her full potential.

Objective: Each participating youth will receive career counseling, a medical examination, and participate in neighborhood forums that focus on a range of issues such as sexuality, AIDS, substance abuse, and staying in

EDIC SUMMER JOBS PROGRAM

With the school year over for thousands of Boston teenagers, thoughts turn to finding a summer job. Many of EDIC's tenant companies will again be offering that opportunity.

As the City's economic development agency, EDIC is deeply involved in helping Boston residents find good jobs in industry throughout the year. For summer jobs that high school students can fill, EDIC staff appeals personally to each of its 150 tenants to offer this opportunity. Whether it's a job on the factory floor, driving a delivery truck or helping out in the office, many companies find their summer help indispensable additions to their workforce.

When told of a job opening, EDIC notifies the Private Industry Council whose Career Counselors match student qualifications and interests with the requirements of the job. TWO NEW ABCD FOSTER GRANDPARENT/DAY CARE SITES OPEN

Action for Boston Community Development (ABCD) has recently opened two new Foster Grandparent day care sites. On May 8, 1989, ABCD's South Cove Teen Parent Program opened at the Massachusetts Pike Towers. The program provides day care, counseling, education to teen parents who are working, in school, on a job search, or in a training program. This center is supported by one Foster Grandparent, who is currently volunteering at the center. On May 1, 1989, the Roxbury District Court opened a new child care center, called the Roxbury District Court Child Care Center. The Center is operated by Associated Day Care Services, and is located in the Dudley Branch Library, next to the courthouse. Parents with court-related business who are without child care arrangements may now bring their children, free of charge to the child care center. In addition, the center also provides care to children waiting to appear in court proceedings as victims or witnesses. Three Foster Grandparents will be placed at the center in the fall.

Twenty-six students received Certificates of Achievement for their work in the Urban College Degree Programs administered in conjunction with Bunker Hill, Roxbury Community and Lesley Colleges. Three ABCD staff members were presented with certificates of Child Development Associate Credentials. Other ABCD program staff to receive recognition awards include Director of Personnel and Administrative Services, Harold Mezoff, who received a "Bearer of the Torch" award; Coordinator of Urban College Student Services, Roberta Nourse who received a "Greatest Aspiration" award; and ABCD Office Services Manager, Joanne MacCleod, who received a "Special Recognition" Service Award.

In 1985, for the first time, several students completed the ABCD/Lesley College graduate program to receive their Master's Degrees in Human Services with a Management specialization through ABCD's Bachelor's Degree Program with Lesley College. Each year, more students complete these programs and take their place in the management work force. The Urban College Program also offers a Bachelor Program with the University of Massachusetts, Boston.

ABCD is the largest human services agency in New England and Boston's antipoverty agency, with funding from a variety of sources totaling over \$30 million annually. The agency is a private, non-profit corporation established in 1962, with the majority of board members elected from Boston's neighborhoods through the decentralized ABCD neighborhood network. ABCD programs include Fuel Assistance, Foster Grandparents, Head Start, Day Care, Center for Jobs, Education and Career Training, the Summer Youth Employment Program, a tuition free, accredited Urban College Program administered in conjunction with area colleges and universities, Health Services, Community Services and others.

VETERANS' GRAVES REGISTRATION Flagging Services

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and to award a con-

tract to the Cecil W. Fogg Post 73, American Legion, c/o Michael Moles, Hyde Park, for the flagging of veterans graves and decorating hero squares on Memorial Day.

COUNTY OF SUFFOLK REGISTER OF DEEDS

Data Processing Equipment Service

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to I.B.M. Corp., Newtonville.

Under the terms of the contract, I.B.M. Corporation will service and make repairs if necessary on the Registry's I.B.M. data processing equipment, namely, a 3862 printer, 4214 printer, seven 5251 display stations, 5360 sys/36 and 8809 mag tape unit. I.B.M. is specially qualified to do this as they have parts available if repairs are necessary.

Compensation under this contract shall be payable monthly at the rate of \$500.76, which I have determined to be reasonable. The total amount of this contract shall not exceed \$6,000. The term of this contract shall be from July 1, 1988, to June 30, 1989.

On June 15, 1988, requisition 2 was forwarded to Budget. It then went to Purchasing, but as they no longer handle service contracts, it was forwarded to M.I.S. giving it a contract no. 2489-89. On Dec. 27, 1988, the requisition was returned to us, stating we would have to have our own separate contract. This is the reason for the lateness in submitting this request.

Because I.B.M. is specially qualified to do this work and for a reasonable price, I believe that public advertising would serve no useful purpose.

Very truly yours,
Paul R. Tierney,
Register of Deeds.

CONTRACTS AMENDED

On July 26, 1988, the City Auditor encumbered a total of \$12,000 under City of Boston contract No. 1305-89 for Lynch, Ryan and Associates, Inc.

Due to the complexity of the project, a Time Extension Amendment through June 30, 1989, was approved by your Honor on April 6, 1989.

I respectfully request your Honor's approval to amend contract No. 1305-89, for Lynch, Ryan and Associates, Inc. in an amount not to exceed \$4,000 in order that additional time be devoted to a wide range of complex issues facing the Penal Department with regard to Worker's Compensation. RAYMOND L. FLYNN
MAYOR OF BOSTON

OFFICIAL CHRONICLE, MUNICIPAL AFFAIRS

CHRISTOPHER A. IANNELLA
PRESIDENT, CITY COUNCIL

VOL. 81

MONDAY, JULY 17, 1989

NO. 29

CITY TAKES ACTION ON SURPLUS SCHOOLS

Lisa G. Chapnick, director of the Public Facilities Department, announced on June 30 that the City's Public Facilities Commission voted to accept three buildings, the Michelangelo, the Longfellow and the Faneuil, declared surplus by the School Committee. With this vote, the City can immediately begin the process of redeveloping these buildings.

Since Mayor Flynn took office in 1984, seventeen former schools have been converted to other uses, principally housing. More than 600 units have been created or are under construction. Of these, 70 percent have been low or moderate-income housing.

"We are proud of our track record of creating affordable housing when redeveloping these buildings," said Chapnick. "However, it is premature to speculate as to the eventual uses of these buildings as we are committed to a community review process that allows for neighbors and nearby residents to express their opinions."

"The sale of these schools gives us an opportunity to achieve two important goals," said Mary Nee, director of the Mayor's Office of Capital Planning. "One is to provide more money to improve the physical condition of the City's schools, and the other is to find a use for these surplus buildings that will benefit the neighborhoods. I am pleased that we can now begin this process."

The Mayor has pledged that the proceeds from the sale of these schools will be earmarked for further capital improvements to the school system. Mary Nee noted that closing some of the old and deteriorated school stock would enable the City to direct its resources toward improving the conditions of the remaining buildings.

Since 1985, the Flynn administration has committed nearly \$165 million toward renovating Boston's schools as part of the Mayor's five-year \$986 million Capital Plan. "We have spent \$25 million on the completion of twenty-seven school projects," said Nee. "Beginning this summer, the Public Facilities Department will have seventy-three projects in construction representing over \$69 million. This marks a tremendously ambitious period of construction unparalleled and unprecedented in the history of the Boston Public Schools."

Next steps for the City will include a detailed assessment of the three surplus schools and a series of community meetings held by PFD on the future use of these facilities.

CITY TARGETS FUNDS FOR BERKELEY STREET GARDENS

The City of Boston's Public Facilities Department (PFD) has allocated more than \$40,000 from its Grassroots program to pay for planned improvements to the Berkeley Street Community Garden in the South End. The money will go to Boston Urban Gardeners (BUG) which will oversee improvements to the fencing and landscaping of the 150 plots situated between Shawmut Avenue and Tremont Street.

"Many of the people who use this land for gardening have little income and have come to rely on the fresh produce they can grow there to put food on their table," said Lisa G. Chapnick, director of the Public Facilities Department. "It's hard to imagine a better use of our Grassroots money."

Other planned improvements include the installation of a new water system so that many of the elderly gardeners will no longer have to carry heavy buckets of water from a central spigot to their plots, the removal of several dead trees and the planting of new flowers at each end of the garden. The work, which will be coordinated by

Boston Urban Gardeners, will be carried out in cooperation with nearby residents, the 8th Street Neighborhood Association, the leaders of the Berkeley Street garden and community volunteers.

It is estimated that the gardeners from the Asian community, many of whom live across the street in Castle Square, speak six Chinese dialects as well as Vietnamese and Cambodian.

"Because of the many languages spoken in the gardens," said Charlotte Kahn of Boston Urban Gardeners, "maintaining the common space has been a problem. The garden has also been victimized by illegal dumping. Cleaning it up will not only make it an amenity for the gardeners, but for the entire neighborhood as well."

The Berkeley Street Community Garden was established in 1977 on land owned by the Boston Redevelopment Authority. The future use of the land will be determined through the BRA's master planning process. It's expected that a significant portion of the land will be designated as permanent open space.

PFD's Grassroots program has provided more than \$1 million over the last five years to 32 projects that have included the creation and expansion of gardens, playgrounds, and recreational space.

In addition to the \$43,620 grant for the Berkeley Street garden, BUG was also awarded a \$26,666 grassroots grant for the establishment of a memorial park and community garden at 32 Bullard Street in Dorchester.

Work on both projects will get under way in August.

23RD ANNUAL ABCD FOSTER GRANDPARENTS RECOGNITION LUNCHEON

At a recent luncheon, Action for Boston Community Development recognized 108 Foster Grandparent volun-

teers for their outstanding participation and commitment to the program. Awards were presented to several volunteers who were recognized for their years of service. The highlight of the luncheon was the presentation of the "Overcomers Award," which was presented to one outstanding Foster Grandparent, who exemplified the program's spirit. The award, a Paul Revere Bowl, is given each year to one individual, who despite personal odds, has committed themselves to the Foster Grandparent Program. This year's recipient, Helen Nelson, has been working at the Crispus Attucks Children's Center for four years, and has been a Foster Grandparent since 1980. Despite a debilitating illness, Helen has been active in the program, and gives of herself to Boston children. Gary Bailey, the assistant director of the Services for Older Persons of Greater Boston, delivered the keynote address and City Councilman Charles Yancey presented the "Overcomers Award."

The ABCD Foster Grandparent Program enables 108 income-eligible persons over age 60 to volunteer with children at day care centers, public schools, battered women's shelters and hospitals in the Boston area. Rosaria Salerno, city councillor; Robert M. Coard, executive director of ABCD; John Drew, deputy director of ABCD; Stanley Williams, president of the ABCD Board of Directors; Ruth Blackman, director of ABCD's Foster Grandparent Program; Diane Watson, the commissioner on Affairs of the Elderly; and Paul Lanzikos, the secretary of the Executive Office of Elder Affairs were also present at the luncheon.

NEW "USER FRIENDLY" MBTA PASSES

The MBTA's redesigned monthly pass system which began July 1, makes passes "simpler and easier to use," said General Manager Thomas P. Glynn.

New prices also went into effect for passes beginning with July, and the T launched a special "Sizzling Summer" promotion which will allow passholders to use any pass anywhere throughout the MBTA system on weekends in July and August.

"This special summer promotion means you can go anywhere the T goes as long as you have a pass — any pass — for no additional charge," Glynn said. "Bus passholders will be able to use their passes on commuter rail to travel to North Shore beaches or historic sights throughout the region. It will be a real benefit for people who want to take in the sights, sounds and pure enjoyment of summer — in addition to using the pass for their normal daily travel."

The new passes reflect the three basic types of service used by more than 90 percent of the MBTA's customers: a local bus pass, a subway pass, and a combination subway/bus pass.

The local *Bus pass* prices have not increased, and continue to cost \$18 per month. The pass is good for any 50-cent fare on local buses, trackless trolleys or the Mattapan High Speed Line, and can be used by passengers riding at street level on the Green Line.

The *Subway pass* costs \$27 each month, and is equivalent to a 75-cent fare. It can be used by Red (except Quincy, Quincy Adams, and Braintree), Blue, Orange and Green Line riders, as well as by commuter rail passengers in Zones 1A and 1B. Riders on the Green Line's Riverside branch in Newton must use the *Combination pass*.

The *Combination pass* is good on all local buses, the majority of the subway system (except at Quincy Adams and Braintree stations), some express buses and for \$1.25 commuter rail zones (1A and 1B).

A fourth pass, the *ComboPlus*, costing \$48 per month, will be good on all local buses, the entire subway system and for the first \$1.50 fare on express buses (with any difference to be paid in cash).

Two other passes, a *Zone 1* and *Zone 2* pass, are available. The *Zone 1* pass, \$52 monthly, may be used for all *ComboPlus* services, as well as on \$1.65 express buses and *Zone 1* commuter rail trains. The *Zone 2* pass extends passage to \$1.90 express bus and *Zone 2* commuter rail travel, \$61 a month.

On May 1st cash fares increased, and for two months, passholders have enjoyed the convenience of the pass along with substantial extra savings — as much as 38 percent during May and June.

The MBTA inaugurated the pass pro-

gram in 1975. Besides the convenience and financial savings that monthly passes provide to passengers, passholders may also receive additional benefits, such as a reduction in auto insurance, free passage for guests on Sundays, and discounts to many local museums and other attractions.

The T also has an *Annual Pass Program*, which allows riders to pay once for an entire year of passes, which are then mailed each month to the purchaser. Since price increases for Annual Passes do not go into effect until January 1, 1990, passengers may enjoy significant savings by purchasing an Annual Pass now.

Monthly passes may be purchased at MBTA Pass Sale Outlets at Downtown Crossing, Government Center and Harvard Square stations during the last four and first four working weekdays of each month, and at commuter rail stations — North Station, South Station, and Back Bay stations — during the last five and first 10 working days of each month.

Passes are also available at post offices, banks and 21 retail outlets, generally during the last five working days of each month. For additional information on where retail outlets are located, or about the monthly pass program, passengers should call the MBTA's Pass Program at 722-5219.

XI. HIGH COMMENDATION

At 1444 hours on January 6, 1989, Box 3121 was struck for a building fire at 231 Geneva Avenue. Upon arrival, with heavy fire and smoke conditions issuing from the third floor, Lieutenant Timothy F. McGillicuddy, Jr., of Ladder Company 7, was informed that children were trapped in that apartment. Lieutenant McGillicuddy ordered his company to place a 35 foot ladder to the third floor for ventilation and rescue. He then ascended the stairs and crawled down the hall to the burning apartment. Lieutenant McGillicuddy started a search, before proper ventilation had been accomplished. A member of Engine Company 21 located one child and passed her to Lieutenant McGillicuddy who immediately removed her from the burning apartment. At this time, the child was not breathing. Lieutenant McGillicuddy immediately started mouth-to-mouth resuscitation, successfully reviving the child and placed her under the care of Boston City Hospital personnel.

Because Fire Lieutenant Timothy F. McGillicuddy performed these acts under unusual personal risk to himself before proper ventilation had begun, and without proper protection against possible infectious disease, the Fire Commissioner is pleased to highly commend Fire Lieutenant Timothy F. McGillicuddy, Jr., of Ladder Company 7, for this actions in saving the child and refers his case to the Board of Merit for further consideration.

June 30.

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, based on the following communications:

HEALTH AND HOSPITALS DEPARTMENT

Radio Communications Equipment Maintenance

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I request your Honor's permission to dispense with public advertising and award a contract to Motorola, Inc., Waltham, for the period July 1, 1989, through June 30, 1990, at a cost not to exceed \$93,600.

Under this contract, Motorola, Inc., will provide programmed maintenance and repair of Motorola radio communications equipment owned by the Department of Health and Hospitals' EMS Ambulance Service. The total cost for programmed maintenance of fixed-base equipment and mobile/portable equipment will be \$60,000. Miscellaneous repairs will be performed on a time and material basis at the rate of \$60 per hour.

Unadvertised contracts were awarded to Motorola, Inc. for the past three fiscal years in the following amounts: 1989 — \$95,935; 1988 — \$91,900; 1987 — \$90,000.

Therefore, as Motorola, Inc. is the manufacturer, and is capable of providing the engineering support and inventory of parts necessary to meet the needs of the department, and as the cost, in my opinion, is reasonable, no benefit would inure to the city by publicly advertising for bids.

Very truly yours,

Judith Kurland,
Commissioner.

Radiometer Maintenance

Dear Sir:

Pursuant to the authority delegated to me by the

Board of Health and Hospitals, I request your Honor's permission to dispense with public advertising and award a contract to Rainin Instrument Company, Inc., Woburn, for the period July 1, 1989, through June 30, 1990, at a cost not to exceed \$2,350.

Under this contract, Rainin Instrument Company, Inc. will provide preventive maintenance and emergency service for the Radiometer ABL-30 Blood Gas Instrument, located in the Respiratory Therapy Department at Mattapan Hospital. This contract includes two preventive maintenance calls, any and all emergency service, travel and labor during normal working hours, and all replacement parts with the exception of glass parts, electrodes, or damage due to spillage.

Rainin Instrument Company, Inc. has provided excellent service in the past. Unadvertised contracts were awarded to Rainin Instrument Company, Inc. for the past three fiscal years in the following amounts: 1989 — \$2,200; 1988 — \$2,200; 1987 — \$2,300.

As Rainin Instrument Company, Inc., is the only authorized vendor in this region to maintain and supply parts for radiometer equipment, and as the cost, in my opinion, is reasonable, no benefit would inure to the city by publicly advertising for bids.

Very truly yours,

Judith Kurland,
Commissioner.

JOBS AND COMMUNITY SERVICES

Counseling Services, etc.

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to the Boston Private Industry Council, a nonprofit corporation, located at 185 Devonshire Street, for the operation of a Compact Ventures Program for approximately 100 high-risk ninth- and tenth-grade students selected from three Boston public high schools. Under the terms of the contract, the curriculum is designed to integrate individual student assessment and provide skill remediation and counseling services to the participants. In addition, case management, outreach and career exploration services will be provided.

The contractor was selected based upon an evaluation of its refunding proposal submitted to the Commonwealth of Massachusetts/Department of Employment and Training. In addition, the contractor was selected based upon an overall review of the contractor's performance during the prior contract period, administrative capability, reasonableness of cost, and the ability to serve the targeted population.

Compensation under the terms of this contract shall not exceed \$100,000, payment being provided to the City of Boston through a grant (8 percent) provided by the Commonwealth of Massachusetts/Department of Employment and Training. The period of performance shall be from July 1, 1988, until June 30, 1989. This contractor has had contracts with this agency for this program for the previous three fiscal years at the following funding amounts: FY 86 — \$384,350; FY 87 — \$270,000; FY 88 — \$255,000. The submission of this letter has been delayed due to the time involved in contract and budget negotiations, and the delay in receiving required documents from the contractor.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that public advertising would serve no useful purpose.

Sincerely,

Theodore C. Landsmark,
Director.

Educational, Employment Services

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to the League of Haitian Families, a nonprofit corporation, located at 169 Massachusetts Avenue. Under the terms of the contract, the contractor will provide educational and employment related services to approximately seventeen Haitian refugees to assist them in developing English language skills and in obtaining employment. The contractor will also implement and operate a case management program for these refugees.

The contractor was selected based upon an evaluation of its refunding proposal submitted to the Mayor's Office of Jobs and Community Services. Other selection criteria include the results of site monitoring visits conducted by JCS staff, an overall review of the contractor's performance during the prior contract period, administrative capability, reasonableness of cost, and the ability to serve the targeted population.

Compensation under the terms of this contract shall not exceed \$9,269, payment being made from funds received under the Refugee Education and Employment Training Program. The period of performance shall be from October 1, 1988, until June 30, 1989. This contractor has had contracts with this agency for this program for the previous three fiscal years at the following funding amounts: FY 86 — \$12,987; FY 87 — \$18,125; FY 88 — \$10,875. The submission of this letter has been delayed due to the late notification of funding availability from the Commonwealth of Massachusetts, Department of Employment and Training. The policy directive to grant funding was not received at the Mayor's Office of Jobs and Community Services until December 2, 1988. In addition, this contract has been further delayed due to the time involved in contract and budget negotiations with the contractor, and in attaining Boston REEP FY 89 Plan signatures required from the State Department of Public Welfare and DET.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that public advertising would serve no useful purpose.

Sincerely,

Theodore C. Landsmark,
Director.

PARKS AND RECREATION DEPARTMENT

Golf Clubs Maintenance, etc.

Dear Mr. Mayor:

A Memorandum of Agreement by and between "Franklin Park Golf Club, and the City of Boston Parks and Recreation Department for the Operation and Maintenance of the Clubhouse and adjacent areas of the William J. Devine Golf Course Franklin Park" was signed by the Commissioner of the Parks and Recreation Department on May 30, 1985. The duration of this agreement was from June 3, 1985, to November 30, 1985, with an option for an additional six years, exercised on an annual basis, until November 30, 1991.

Your approval is requested to substitute this Memorandum of Agreement, with a new license agreement which would provide the necessary services to hire personnel, to train personnel, to rent equipment, supplies, tools, and maintain the golf course in a professional manner in accordance to all United States Golf Association standards, for the period of April 1, 1989, to April 1, 1996. The golf course which is currently under construction will be ready to open on July 1, 1989, or later. To insure these services are provided prior to the official opening of the golf course, the City of Boston will reimburse the Franklin Park Golf Club, Inc. for

services rendered not to exceed \$100,000, up to June 30, 1989. After June 30, 1989, the Franklin Park Golf Club, Inc. will manage, operate, and maintain the William J. Devine Golf Course, Franklin Park in accordance to the attached license agreement to April 1, 1996. The agreement was extended in order to insure a continuity of service, a continuation of a community-base group as managers of the Golf Course and because of the uncertainty that the golf course may not realize a positive income for the first two years of the new agreement.

This agreement is necessary to insure the newly renovated golf course will be adequately manned, equipped, maintained and in operable condition for the life of the agreement. It will also insure the Franklin Park Golf Club, Inc. will be able to provide golf services to the surrounding community.

The Franklin Park Golf Club, Inc. is a nonprofit corporation having its principal place of business located at Circuit Drive, Franklin Park, Dorchester. This license will both upgrade and provide new jobs for Boston youths and local residents.

This contract was late due to the extensive negotiating and the number of legal drafts and revisions that were required to complete the license agreement.

Very truly yours,

Lawrence A. Dwyer,
Commissioner.

PUBLIC FACILITIES DEPARTMENT

Emergency Oil Burner/Boiler Replacement

Dear Mayor Flynn:

On April 12, 1989, the Public Facilities Department was notified by Dennis Flynn of the Boston Fire Department that an emergency exists at the 23 Washington Street, Roxbury location. The boiler is split and beyond repair. This is a full-staffed, working fire station in a congested area. For the health and safety of the public and users of this facility, this boiler should be immediately removed and replaced.

We requested and received approval from the Division of Capital Planning and Operations to dispense with public advertising and immediately rectify this dangerous situation. We invited three contractors, normally engaged in this type of work, to view and bid on this project. J. A. Marino Heating Co. is the lowest eligible and responsible bid.

Therefore, in accordance with Massachusetts General Laws, chapter 30, section 39M, we request your Honor's written approval to award a contract to J. A. Marino Heating Company of 205 South Street, for a sum not to exceed \$8,945.

Sincerely,

Lisa G. Chapnick,
Director.

Consulting Services

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on March 30, 1989, I respectfully request your Honor's written permission to dispense with further public advertisement and award a contract to Brenda Armstrong, an individual, residing at 327 Huntington Avenue, providing consulting services. Under the terms of this contract, Brenda Armstrong will provide tenant relocation services to the occupants of city-owned buildings operated under the Residential Development Program.

Compensation under this contract shall not exceed \$30,000, which I have determined to be a reasonable cost for the services to be performed. The term of this contract shall be from July 1, 1989, to June 30, 1990.

Brenda Armstrong was the only applicant that submitted a proposal in response to a publicly advertised request for proposals conducted by the Public Facilities Department on February 12, 1989, in the *Boston Globe*, and on February 20, 1989, in the *City Record*. Costs were determined to be reasonable after extensive analysis by Public Facilities Department staff. Brenda Armstrong was selected due to her professional experience in working with tenants, interest in affordable housing and excellent references. Other selection criteria includes Brenda Armstrong's experience with HUD and CDBG relocation programs, federal, state and city relocation regulations, rent subsidy programs, state and city housing laws and City of Boston disposition process.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4, s. 5.

Sincerely,

Lisa G. Chapnick,
Director.

Appraisal Services

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on April 13, 1989, I respectfully request your Honor's written permission to dispense with further public advertisement and award a contract to Bankers' Appraisal Company, a corporation, with offices at Woburn. Under the terms of this contract, the contractor will provide appraisals of various buildings and land parcels for disposition pricing and financial underwriting.

Compensation under this contract shall be payable at a rate of \$50 per hour, which I have determined to be reasonable. The total amount of this contract shall not exceed \$70,000. The term of this contract shall be from July 1, 1989, to June 30, 1990.

Bankers' Appraisal Company was selected based upon a through evaluation of their proposal submitted in response to a publicly advertised request for proposals in the *Boston Globe* on February 13, 1989 and *City Record* on February 22, 1989. Their proposal was evaluated with a rating system which considered criteria such as: past performance on public/private projects; quality/accuracy of documents; and professional level of staff.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4, s. 5.

Sincerely,

Lisa G. Chapnick,
Director.

Surveying Services

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on April 27, 1989, I respectfully request your Honor's written permission to dispense with further public advertisement and award a contract to Northeast Survey, Inc., a corporation, with offices at Natick. Under the terms of this contract, the contractor will provide survey services in support of the Buildable Lots Program. These services may include plot plans, ZBA document preparation, building stake-out, and preparation of condominium documents.

Compensation under this contract shall not exceed \$60,000, which I have determined to be reasonable for the services to be performed. The term of this contract shall be from July 1, 1989, to June 30, 1990.

The contractor was selected based upon a thorough evaluation of the proposal submitted in response to a publicly advertised request for proposals in the *Boston Globe* on March 13, 1989, and *City Record* on March 20, 1989. Northeast Survey, Inc.'s proposal ranked the highest of fourteen applicants. The firm's quality of surveys submitted were clearly superior. Other selection criteria include: past performance on projects, reasonableness of hourly rates, similar project experience, and professional level of staff.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4, s. 5.

Sincerely,

Lisa G. Chapnick,
Director.

SCHOOL DEPARTMENT Psychology Services

Dear Mr. Mayor:

As superintendent of the Boston Public Schools, I respectfully request your authorization for the award contracts to the following individuals:

Maria A. Sastre, Ph.D., Centerville; Michelle A. Klopner, Ph.D., Cambridge; Peter D. Houghteling, Ph.D., West Roxbury.

Under the terms of these agreements, the contractors will provide psychological evaluations for bilingual students who have been reported to the *Allen v. McDonough* parties as being in noncompliance for failure to have a required assessment within regulatory timeliness.

Each contractor will be compensated at the rates provided in 114.3 CMR 30.02: Vocational Interest, \$32.60/each; Educational Achievement Testing, \$43.40/each; Intellectual and Personality Evaluation, \$260.40/each; Services Generally Compensated, \$43.40 an hour.

Advertisements for these services were placed in the *South End News*, *Dorchester Argus*, *East*

Boston Community News, *Charlestown Patriot*, and *East Boston Sun Transcript*. The senior advisor of psychological services reviewed each reply and interviewed all applicants. These three individuals were selected based on their experience with school psychology, their extensive educational backgrounds, and their availability to perform these services during school hours.

Your permission is requested to award contracts for the period May 18, 1989, to June 30, 1989, at a cost not to exceed \$6,000, for each school psychologist, which I have determined to be reasonable.

Because of the professional nature of the services to be provided under these agreements and the expertise of these contractors in providing these services, it is my determination that the public interest would not be served by further advertising for bids.

This is the first contractual agreement between the Boston Public Schools and these individuals.

Very truly yours,

Laval S. Wilson,
Superintendent.

Auditory Equipment Maintenance

Dear Mr. Mayor:

Your authorization is requested for the award of a contract, without public advertising, to Phonic Ear, Inc., California, furnishing maintenance service for all auditory training equipment at the Horace Mann Evaluation Unit at the Jackson-Mann School and Rogers School for Speech and Hearing. Service for 134 units and auditory aids will commence July 1, 1989, through June 30, 1990.

Compensation under this contract including service for the period stated will not exceed \$7,492, a price I deem to be reasonable.

The auditory training equipment was purchased from Phonic Ear, Inc. and the company has successfully provided maintenance service for more than seven years. They are the only company who has supplied this service effectively and immediately with trained technicians and have an inventory of parts on hand for the machines and auditory equipment.

Because Phonic Ear, Inc. has successfully provided maintenance and the cost of services is reasonable, I believe that public advertising would serve no useful purpose.

Compensation to this vendor during the past three fiscal years in the form of unadvertised contracts is as follows: 1987 — \$5,880; 1988 — \$6,064; and 1989 — \$6,340.

Very truly yours,

Leo J. Burke,
Business Manager.

TREASURY DEPARTMENT

Tax Collection Services

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertisement and to award a contract to William F. Stoia, an individual, located at 292 Huntington Avenue, Hyde Park, MA 02136, for assistance in the collection of real estate, personal property and motor vehicle excise taxes.

Under the terms of the contract, Mr. Stoia will instruct employees in the Accounting Section of the Collecting Division, and familiarize other supervisors with the Tax Title update procedures. Mr. Stoia will also work closely with senior members of the Collecting Division regarding modifications to the computer-based systems for receipting payments and maintaining records regarding properties on which tax liens have been placed. Mr. Stoia is uniquely qualified to do this work because of his knowledge of the work through experience and his excellent performance.

Compensation under this contract shall not exceed \$23,816, which I have determined reasonable for the work to be performed. Mr. Stoia will be working two days per week at the rate of \$229 per day. The term of this contract will be July 1, 1989, through June 30, 1990.

Because of the professional nature of the services to be performed I believe that public advertising would serve no useful purpose.

Respectfully,

Lee F. Jackson,
Collector-Treasurer.

It is the policy of the City of Boston to award at least 15 percent of the City's contract dollars to minority-owned businesses and at least 5 percent to women-owned businesses.

GRANT OF CDAG FOR PUBLIC FACILITIES DEPARTMENT NOT TO EXCEED \$90,000 FOR MISSION HILL ARTIST HOUSING DEVELOPMENT

The following was received:

City of Boston
Office of the Mayor

December 6, 1988.

To the Council.

Dear Councillors:

I transmit herewith for your approval an order authorizing the Public Facilities Department of Boston to apply for, accept and expend a Community Development Action Grant (CDAG) not to exceed \$90,000 from the Executive Office of Community and Development.

On April 14, 1988, the Boston Public Facilities Commission tentatively designated the Mission Hill Artist Housing Corporation (MHAHC) as the developer of a number of city-owned vacant parcels in the Mission Hill artist housing. In order to preserve affordable live/work space for artists within Boston, nine of the twelve units will be incorporated into a limited-equity cooperative for artists.

The Mission Hill Artist Housing (MHAH) development has received enthusiastic support from community residents and representatives, as demonstrated at community meetings held on February 18th and May 12th of 1988.

The project's targeted site is unduly costly to develop because of the existence of unsuitable soil and steep slopes which will require extensive and expensive excavation, fill and the construction of retaining walls. Ac-

cess to on-site parking is also required by the city's zoning code.

The CDAG for this project will allow the city to achieve several important goals:

- 1) It will allow the highest and best use for a vacant, blighted site in the Mission Hill area;
- 2) It will provide much-needed affordable live/work space for low- and moderate-income artists.
- 3) It will retain longterm ownership and employment opportunities for Boston's artists who are in jeopardy of economic displacement.
- 4) It will provide approximately thirty construction jobs, of which 50 percent must be held by city residents, 25 percent by minorities and 10 percent by women.
- 5) It will bring in twelve new households, increase street surveillance and activity which will improve the safety of residents on Parker Street, and reinforce the economic revitalization of the Mission Hill neighborhood.

I urge your Honorable Body to pass this order which will make possible the development of twelve units of artist housing in the Mission Hill area.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

Whereas, The City of Boston is presently in the midst of a severe shortage of affordable artist housing which has a particularly onerous impact upon the ownership and employment opportunities for low- and moderate-income artists within Boston; and

Whereas, The Mission Hill area of Roxbury is one of the city's neighborhoods with a housing shortage; and

Whereas, To meet the demand for affordable artist housing, the city has established the construction of new artist housing as a major goal; and

Whereas, The city has targeted the Mission Hill neighborhood for the construction of new housing due to the presence of a large number of vacant parcels, with the expectation that this will stimulate the residential and commercial revitalization of the area; and

Whereas, The city has designated the Mission Hill Artist Housing Corporation as the developer of a number of city-owned vacant parcels, which parcels are as follows: 438, 435, 434, 433, 432, 431, 430, 429, 428, 427; and

Whereas, The Mission Hill Artist Housing development requires Community Development Action Grant (CDAG) funding to make the construction possible; and

Whereas, The Mission Hill Artist Housing Corporation, having been tentatively designated as developer by the Public Facilities Department on April 14, 1988, has the capacity and the neighborhood support to carry out this project; now, therefore, be it

Ordered, That the Mayor, acting on behalf of the City of Boston, be, and hereby is, authorized to apply for, accept and also in accordance with section 53A of chapter 44 of the General Laws to expend a Community Development Action Grant (CDAG) not to exceed \$90,000 from the Executive Office of Communities and Development to make feasible the construction of a twelve-unit artist housing development by the Mission Hill Artist Housing Corporation, and in connection therewith to execute and deliver such documents as may be required; and to act as the authorized representative of the City of Boston in connection with said application.

Referred to the Committee on Housing.

Later in the session Coun. BYRNE moved reconsideration of the foregoing referral; reconsideration prevailed.

Referred to the Committee on Planning and Development.

ORDER ACCEPTING PROVISIONS OF SECTION 100G-1/4 OF CHAPTER 41 OF GENERAL LAWS

The following was received:

City of Boston
Office of the Mayor

December 6, 1988.

To the City Council.

Dear Councillors:

I transmit herewith for your approval an order accepting the provisions of section 100G-1/4 of chapter 41 of the General Laws, to be effective as of October 26, 1987. In June, 1971, the City Council accepted section 100G or said chapter, which authorized the City of Boston to pay up to \$2,000 of the funeral and burial expenses of fire fighters and police officers killed in the performance of their official duties. Last year, the Legislature passed a law which, upon local acceptance, now allows cities and towns to pay up to \$5,000 of such expenses. The law went into effect on September 23, 1987.

Detectives Roy Sergei, Thomas Gill, and Sherman Griffiths died on October 26, 1987, February 10, 1988, and February 18, 1988, respectively. The city had not accepted section 100G-1/4 at the time of their deaths, and a literal reading of the 1987 statute appeared to require that the city, by way of home rule petition, receive permission from the Legislature to accept retroactively the provisions of the new law to pay for the expenses of all three officers. Your Honorable Body passes two home rule petitions this year to accomplish that end; both bills died when the Legislature prorogued.

The delays at the state level prompted the Law Department to take a closer look at the statute to see if the language, read more broadly, could allow the city to accept retroactively the provisions of G.L. c. 41, s. 100G-1/4 without additional Legislative authority. After further research and discussion with assistant house counsel as to the intent of the statutory language, the Law Department has concluded that the order I transmit herewith is appropriate and that home rule legislation is unnecessary in this case to accomplish retroactive applicability.

I urge your Honorable Body to pass this order as expeditiously as possible to enable the city to pay up to \$5,000 of the funeral and burial expenses of Officers Sergei, Gill, and Griffiths. If your Honorable Body passes this order, I will then be able immediately to submit to you three separate orders allowing for such payment.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

Ordered, That the provisions of section 100G-1/4 of chapter 41 of the General Laws are hereby accepted effective as of October 26, 1987.

On motion of Coun. KELLY, the rules were suspended; the order was passed.

Whereas, The results of this study show that several hundred units of housing are affected and many may require demolition; and

Whereas, This problem may continue to spread to other areas of the city; and

Whereas, The Boston Ground Water Trust is attempting to hire an engineering firm with expertise on this problem to develop an early warning system for the city through the identification of observation wells which work and should be monitored and areas in which new observation wells are needed; and

REPORT ON ORDINANCE RELATIVE TO DAMAGES IN CASE OF CERTAIN UNDERTAKINGS AND PUBLIC TAKINGS

Coun. HENNIGAN CASEY, on behalf of the Committee on Government Operations, submitted the following:

Report on Docket No. 1010, ordinance relative to damages in the case of certain undertakings and public takings (referred September 14) — recommending passage of the ordinance in the following new draft:

City of Boston

In the Year Nineteen Hundred and Eighty-eight An Ordinance Relative to Damages in the Case of Certain Undertakings and Public Takings.

Be it ordained by the City Council of Boston, as follows:

Whereas, In the process of excavation of Huntington Avenue for several months by a massive project which involves the state, the city, the MBTA, Boston Edison, and the Water and Sewer Commission, contractors have isolated a small, one-room store so seriously that distributors have been unable to bring in supplies and customers, many of whom are elderly, have been discouraged from using her store; and

Whereas, As a result of this, the store which has been the sole source of income for the owner and her children for the past eleven years has now closed, driven out of business as a result of the "improvements" which were undertaken without a plan for dealing with the damage caused to abutting businesses and property owners; and

Whereas, Several other businesses on Huntington Avenue have complained of the same suffering; and

Whereas, Similar situations on a grand scale will occur in connection with the depressing of the Central Artery unless we ensure otherwise; and

Whereas, The city cannot afford to have the loss of jobs, revenues and damages that result from this kind of poorly planned activity on its roads and sidewalks; and

Whereas, Meeting with the state DPW and contractors have failed to resolve the difficulties to our satisfaction; and

Whereas, We have a responsibility to ensure that activities undertaken to improve the public ways of the city are done with a plan that minimizes hardship to abutters and businesses in the area, and to indemnify those who are damaged; now, therefore

Be it ordained by the City Council of Boston, as follows:

Section 1.

Whenever an undertaking is proposed involving the use of public property, the board or officer having charge of such property shall, prior to giving any license, permit, or permission for the use of the property, determine whether or not the same will cause damage (which term shall include interruption of business, physical damage,

and all other forms of damage), to any owner or tenant of an abutting, adjacent, or nearby estate. When the board or officer determines that such damage will be a consequence of the undertaking, no license, permit, or permission for the use of the public property shall be granted until remuneration for such damage shall have been secured, by reason of payment, bond, or deposit satisfactory to the board or officer and to the corporation counsel, unless the owner or tenant shall elect to secure remuneration, or to waive remuneration, in his, her, or its own behalf. The corporation counsel shall, whenever necessary, bring an action to secure or recover any such damage, and unless the court shall otherwise direct, the collector-treasurer shall receive any proceeds of such an action as trustee for the owner or tenant and pay the same over to the party damaged.

Section 2.

Whenever any public body exercises eminent domain to take public property in fee or less than fee for an undertaking, the board or officer having charge of such property shall, prior to agreeing to any payment for such a taking, determine whether or not the same will cause damage (which term shall include interruption of business, physical damage, and all other forms of damage) to any owner or tenant of an abutting, or nearby estate. When the board or officer determines that such damage will be a consequence of the taking, no agreement for payment for such taking of the public property shall be made until remuneration for such damage shall have been secured, by reason of payment, bond, or deposit satisfactory to the board or officer and to the corporation counsel, unless the owner or tenant shall elect to secure remuneration, or to waive remuneration, in his, her, or its own behalf. The corporation counsel shall, whenever necessary, bring an action to secure remuneration or recover any such damage, and unless the court shall otherwise direct, the collector-treasurer shall receive any proceeds of such an action as trustee for the owner or tenant and pay the same over to the party damaged.

Section 3.

The board or officer having charge of the property proposed for use in any proposed undertaking as defined in section 1 of this ordinance or for taking by any proposed exercise of eminent domain as defined in section 2 of this ordinance shall send by first-class mail a notice of such proposed undertaking or exercise of eminent domain to all owners and occupants of property abutting or adjacent to the public land involved. Said board or officer shall also attempt to cause a meeting to be held between any person who responds to said notice and the appropriate representative of those proposing the undertaking or exercise of eminent domain so that means of mitigating damage may be investigated. Said notice shall be sent at least one month prior to the board or officer's determination of damage, and shall summarize the proposed undertaking or exercise of eminent domain, the proposed property involved, the name and address of the board or officer making the determination, a request for comments, a statement that an effort will be made to arrange a meeting for the purpose of mitigating damages between persons who provide written comments and those proposing the undertaking or exercise of eminent domain, and a deadline for receipt of comments. The deadline for receipt of comments shall be no less than three weeks following the date said notices are postmarked, and shall be prior to the determination.

Section 4.

Nothing in this ordinance shall be construed as limiting the liability for uncompensated damages of any party, public or private, in any action seeking damages under any federal, state, or local law, rule, regulation, or ordinance.

Section 5.

Each of the provisions and sections of this ordinance are

severable, and if any of its provisions or sections shall be held unconstitutional or otherwise invalid by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the remaining provisions or sections.

The report was accepted.

On motion of Coun. MENINO, the ordinance was tabled.

Whereas, Their activities are commercial in that they are compensated by commercial delivery services or directly by firms which engage them; and

Whereas, Due to the pressure of deadlines or the demands of increasing business volume, couriers may abandon caution while traveling in streets and at times on sidewalks; and

Whereas, Near accidents, endangerment to pedestrians, and traffic fatalities of bicycle couriers emphasize the need for city oversight and intervention; and

This provision shall apply to commercial messengers who reside outside Boston, as well as to Boston residents.

b) The application shall request the applicant's name and home address and such information as the commissioner deems reasonably necessary. The application may require a signed statement that the registrant is familiar with traffic regulations applying to the operation of bicycles on public ways. The statement may also pledge intention to obey traffic safety rules with respect to the rights of pedestrians.

c) The Commissioner will issue the rider a commercial bicycle messenger's license.

d) When operating a messenger service bicycle a commercial messenger must carry the commercial bicycle messenger's license that has been issued to him or her by the commissioner.

Ordered, That the City of Boston engage in efforts to

increase the number of new police officers to 2,300 as expeditiously as possible; and be it further

BANK OF BOSTON PLEDGES SUMMER JOBS

Volunteers to Boston Youth Campaign

Mayor Raymond L. Flynn thanked Bank of Boston employees and Chairman Ira Stepanian for the significant contributions they are making to the Boston Youth Campaign. Mayor Flynn praised the personal commitment of bank employees who will establish mentor relationships with neighborhood teens working at the Bank of Boston this summer.

"Kids in Boston need your help," said Mayor Flynn. "The opportunities of work and guidance you offer are shining examples of leadership, not only for the kids you will help, but also for the business community in Boston. The demand for summer jobs and recreational programs is particularly high this summer and we need your help. Many young people in our city just need a chance at a job or a friendship that holds promise for the future. You are giving kids in our city a clear message that you care."

The Boston Youth Campaign, established by Mayor Flynn this spring, is recruiting 5,000 adults to volunteer their time to young people in Boston through recreational, educational and sponsorship programs. The goal of the program is to establish personal bonds between adults who live and work in Boston and young people who will benefit from the guidance, friendship and example offered by volunteers.

In addition, Mayor Flynn has guaranteed a job to any youth who wants one as part of the Boston Youth Campaign. Bank of Boston has responded by increasing to 130 the number of summer jobs offered this year to high school students. The students, hired through the Summer Jobs Program of the Boston Private Industry Council, will be paired to bank employees serving as mentors for their work experience. Career and motivational programs for students in the Summer Jobs Program at the bank will be offered.

Chairman Ira Stepanian said Mayor Flynn's Boston Youth Campaign "challenges us as business men and women, and as citizens of this community to shake off our complacency, pay attention to our youth, get involved and provide them with positive opportunities. We have accepted that challenge and found a number of ways that we think we can make a difference in the lives of young people and the quality of life for all of us who live or work in Boston."

The Bank of Boston has increased support to the Associated Grantmakers of Massachusetts Summer Fund to \$50,000, and will provide additional grants of \$100,000 to youth programs of the Dorchester Youth Collaborative, Lena Park Summer Program, All-Dorchester Sports League, and summer jobs program of the Boston Area Health Education Center. Bank employees will participate in Boston Housing Authority "Unity Day" celebrations with financial support provided by the bank. Bank of Boston will also encourage customers to support the Boston Youth Campaign by programming the campaign's hotline number, 725-4500, on bank ATMs in July.

Mr. Stepanian added, "I hope other corporations will also look at the Summer Jobs Program, youth programs, AGM Summer Fund, BHA Unity Day, and volunteer efforts coordinated by the Mayor's Office and realize that there are still many ways for them to get involved as well."

HEALTH AND HOSPITALS DEPARTMENT Microbiology Kits

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to amend the contract with Wampole Laboratories, Division of Carter-Wallace, Inc., New Jersey, to furnish Cryptococcal Latex Kits, to the Department of Health and Hospitals, Medical Microbiology Laboratory, for the period July 1, 1988, through June 30, 1989, at a cost not to exceed \$5,000.

This amendment will increase the amount of the contract by \$5,000, thereby increasing the city's total liability under this contract to an amount not to exceed \$10,000.

The contract was awarded to Wampole Laboratories as the lowest acceptable bidder for this product which appeared in Bid Proposal No. 805 for Microbiology Products. Usage of this kit has increased dramatically due to AIDS, and the contract amount allocated for the Fiscal Year has already been expended.

In view of the above and because the cost, in my opinion, is reasonable, I recommend approval of this amendment.

Very truly yours,
Judith Kurland,
Commissioner.

These funds will be used specifically for curriculum development and video projects. The contract will be increased by \$60,000. All other terms and conditions of the original contract shall remain the same.

As this contract amendment is simply allowing for the provision of match funds from the Commonwealth of Massachusetts, which was required under the terms of the original grant from the federal government, I believe that public advertising would serve no useful purpose.

Respectfully,
Theodore C. Landsmark,
Director.

LAW DEPARTMENT

Special Outside Counsel

Dear Mayor Flynn:

On October 7, 1988, your Honor approved an award of a contract, without public advertising for bids, to George R. Sprague, an attorney with offices located at 30 Rowe's Wharf, for legal representation of the City of Boston before the Massachusetts Department of Public Utilities during the period July 1, 1988, through June 30, 1989, at a cost not to exceed \$15,000.

Your approval is requested to amend this contract by adding to the terms of the contract that pursuant to an order passed by the City Council on August 17, 1988, and approved by the Mayor on September 6, 1988, I have designated George R. Sprague as "Special Outside Counsel." The order classifies that position as a special municipal employee in accordance with G.L. c. 268A, the so-called "ethics law."

Due to the professional and unique nature of the services to be performed, I believe that public advertising would serve no useful purpose.

Very truly yours,
Joseph I. Mulligan,
Corporation Counsel.

PARKS AND RECREATION DEPARTMENT

Park Rangers Program

Dear Mr. Mayor:

On July 1, 1988, your Honor approved an award of a contract based on public advertising for bids, to Boys and Girls Club of Boston for "Fiscal Administration of the Park Rangers Program" during the period July 1, 1988, through June 30, 1989, at a cost not to exceed \$350,000.

The above contract is for an as needed basis and because the demand for the contracted services has been much higher than anticipated, the money allotted will have to be increased before completion of the scheduled and necessary programs are made. Therefore, your approval to amend this contract to provide funds for needed Park Ranger Programs. Payment for work performed will be at the original contract unit prices.

The cost of this amendment which is effective on May 15, 1989, shall not exceed \$55,000, a sum which I have determined to be reasonable. The contract as amended shall not exceed \$405,000.

Because time is a critical factor, and because the contractor has performed satisfactorily, it is my judgment that the amendment proposed is in the best interest of the city, and that public advertising would serve no useful purpose.

Very truly yours,

Lawrence A. Dwyer,
Commissioner.

Cars and Trucks Repairing

Dear Mr. Mayor:

On April 11, 1989, your Honor approved an award of a contract based on public advertising for bids, to Pier Garage, Inc. d/b/a Pier Transmission miscellaneous repairs and transmission repairs to passenger cars and trucks, Contract R-1, during the period April 18, 1989, through June 30, 1989, at a cost not to exceed \$5,590.

The above contract is for an as-needed basis. Because the demand for the contracted services has been made much higher than anticipated and there has been an increase in the number of vehicles requiring maintenance and repairs since 50 percent of the fleet is over seven years old, the money allotted will have to be increased before completion of the scheduled and necessary repairs are made. Payment for work performed will be at the original contract unit prices.

It was believed that the original contract would sufficiently cover the needs of the Parks Department. Unfortunately, due to the age of our vehicle fleet and heavy usage, the need for extra service on our heavy equipment was necessary. It is essential that this equipment be operational as we begin our spring and summer seasons. It is impossible to predict the deterioration of equipment, but the need to repair them on a timely basis is essential.

The cost of this amendment which is effective on May 22, 1989, shall not exceed \$5,000, a sum which I have determined to be reasonable. The contract as amended shall not exceed \$10,590.

Because time is a critical factor, and because the contractor has performed satisfactorily, it is my judgment that the amendment proposed is in the best interest of the city, and that public advertising would serve no useful purpose.

Very truly yours,

Lawrence A. Dwyer,
Commissioner.

Sound and Lighting Equipment

Dear Mr. Mayor:

On August 3, 1988, your Honor approved an award of a contract based on public advertising for bids, to Performance Systems, Hopedale, for sound and lighting equipment during the period July 1, 1988, through June 30, 1989, at a cost not to exceed \$34,880.

The money allocated for sound and lighting equipment needs to be increased due to the demand for additional summer concerts arranged by the Parks and Recreation Department. Because

the demand for the contractual services had been much higher than anticipated, additional funding is necessary to provide services. During the summer and winter of 1988, the Parks Department provided additional nightly entertainment and daily classical music for the winter skating program during January and February. The equipment for these extra dates was not anticipated in the approved contract. Additionally, four field days scheduled for June, will be required in this amendment. Your approval is therefore requested to amend this contract to provide funds for needed services. Payment for work performed will be at the original contract unit prices.

The cost of this second amendment which is effective on May 22, 1989, shall not exceed \$10,000, a sum which I have determined to be reasonable. The contract as amended shall not exceed \$59,880, to be charged to appropriation 011-300-0301-0290-PK-04.

Since the contractor has performed satisfactorily and the expansion of programs this summer necessitates our use of more sound and lighting equipment than anticipated, it is my judgment that the amendment proposed is in the best interest of the city, and that public advertising would serve no useful purpose.

Very truly yours,

Lawrence A. Dwyer,
Commissioner.

PUBLIC FACILITIES DEPARTMENT

Design of Renovations

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on February 23, 1989, I respectfully request your Honor's written permission to dispense with further public advertisement and amend a contract approved by your Honor on September 28, 1984, awarded to Peirce, Pierce & Kramer, Inc., with offices at Cambridge, for the design of renovations to the Charlestown Service Building. The cost of this amendment shall not exceed \$8,500. The amended cost of this contract shall not exceed \$67,983 (including \$8,500 for Supplementary Services) which is a negotiated fee based on an estimated cost of construction of \$750,000.

Said amendment is necessary due to the increased scope of service required of the designer. During the roof replacement, a structural engineer was required to observe hidden conditions and to advise of needed repairs. Under the terms of the amended contract, Peirce, Pierce & Kramer, Inc. shall provide additional services to modify the plans and specifications prior to rebidding.

In view of the technical and professional nature of the services required, the expertise and familiarity of the designer with all existing conditions, and the reasonable cost of such services, it is my view that further public advertising would serve no useful purpose in this particular instance.

Sincerely,

Lisa G. Chapnick,
Director.

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on March 30, 1989, I respectfully request your Honor's written permission to dispense with further public advertisement and amend a contract approved by your Honor on September 3, 1987, awarded to Graham/Meus Architects, Inc., with offices at 224 Clarendon Street, for the design of renovations to the Foley Building of the Mattapan

Chronic Disease Hospital. The cost of this amendment shall not exceed \$62,604. The amended cost of this contract shall not exceed \$611,020 (including \$83,500 for Supplementary Services) which is a fixed fee of 9.42 percent based on an estimated cost of construction of \$5,600,000. The original cost of construction was \$4,300,000.

Said amendment is necessary due to the increased scope of service required of the designer. Under the terms of the amended contract, Graham/Meus Architects, Inc. shall provide additional services to bring the building up to code compliance including additional work to elevators and fire alarm system.

In view of the technical and professional nature of the services required, the expertise and familiarity of the designer with all existing conditions, and the reasonable cost of such services, it is my view that further public advertising would serve no useful purpose in this particular instance.

Sincerely,

Lisa G. Chapnick,
Director.

Vacant Land and Structures Appraisals

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on April 27, 1989, I respectfully request your Honor's written permission to dispense with further public advertisement and amend a contract approved by your Honor on July 28, 1988, to Bankers' Appraisal, Inc. for narrative appraisals of city-owned structures and vacant land during the period October 1, 1988, to June 30, 1989, at a cost not to exceed \$28,000.

Your approval is requested to amend this contract to provide for additional services due to a significant increase in the need for land and building appraisals for development use. The cost of this amendment shall not exceed \$12,000, payable at a rate of \$50 per hour, which I have determined to be reasonable. The contract, as amended, shall not exceed \$40,000. The period of performance shall remain the same.

Because of the professional nature of the services to be provided, and the qualifications of the contractor, I believe that further public advertising would serve no useful purpose in this instance.

Sincerely,

Lisa G. Chapnick,
Director.

PUBLIC WORKS DEPARTMENT

Rehabilitation Design

Dear Mr. Mayor:

On June 26, 1987, your Honor approved the award of a contract to Vanesse Hangen Brustlin, Inc., 60 Birmingham Parkway, for the South Boston Roadway Rehabilitation Project in the City of Boston during the period May 1, 1987, to June 30, 1988, at a cost not to exceed \$99,700.

Your approval is requested to amend this contract from the previous term of May 1, 1987, through June 30, 1988, to a new term of May 1, 1987, through October 31, 1989. The cost of this amendment, which is effective May 19, 1989, shall not exceed \$25,000, which I have determined to be reasonable. The scope of the contract is being revised to provide surface rehabilitation design for five city streets, reconstruction design for three city streets, full depth pavement reconstruction, and cross-sectioning of the roadways at 50-foot intervals. The total cost of this contract as amended,

shall not exceed \$124,700. The funding will be charged against Appropriation 623 310 7340 0725
Very truly yours,

Joseph F. Casazza,
Commissioner

TRANSPORTATION DEPARTMENT

Dear Mr. Mayor:

On July 19, 1988, your Honor approved an award of a contract based on public advertising, to Leo J. Sullivan, Roxbury, for the collection of traffic data for the City of Boston's Transportation Department, at a cost not to exceed \$24,310

Your approval is requested to amend this contract in order for the contractor to complete additional assignments that have been initiated, as well as projected, that are being anticipated.

The Federal Highway Administration (DOT) has requested that we do an analysis of signal warrants prior to their approval of funding for this project. Recent counts are required to perform this analysis of the thirty-seven locations. There were twenty-eight locations for which no recent counts were available. The value of the federal aid is about \$55,000 per intersection.

The cost of this amendment shall not exceed \$7,000, which I have determined to be reasonable. The contract as amended, shall not exceed \$31,310. The term of this contract shall remain the same. Funding of this amendment will be charged to appropriation 011-251-0251-TRT2-0290 with an initial encumbrance increase of \$3,000.

Inasmuch as Leo J. Sullivan submitted the low bid based on public advertising, I believe that additional public advertising would serve no useful purpose.

Very truly yours,

Richard A. Dimino,
Commissioner

Uniforms Leasing and Cleaning

Dear Mr. Mayor:

On June 6, 1988, your Honor approved the award of a contract, based on public advertisement for bids, to Unifirst Corporation, Inc., Boston, for uniform leasing and cleaning services for the Boston Transportation Department, at a cost not to exceed \$23,266 per annum

Your approval is requested to amend this contract in order to provide uniforms for additional staff members added to Transportation Department after the contract was executed. The contract was awarded for a three-year period due to the reduced cost to the city for the services provided.

The cost of this amendment shall not exceed \$13,000, which I have deemed to be reasonable. The total contract as amended, shall not exceed \$36,266. The term of the contract shall remain the same. Funding for this amendment will be charged to appropriation 011-251-0251-TRT5-0290.

Very truly yours,

Richard A. Dimino,
Commissioner

COUNTY SHERIFF'S DEPARTMENT

Temporary Housing, etc.

Dear Mr. Mayor:

On July 28, 1989, your Honor approved the award of a contract, without public advertising for bids, to Massachusetts Halfway Houses Inc., a nonprofit organization, located at 186 Massachusetts Avenue, to provide temporary housing and residential services for the Pre-Trial Release Pro-

gram, as well as non-residential and support services during the period of July 1, 1988, to June 30, 1989, at a cost not to exceed \$35,059.14

Your approval is requested to amend this contract to provide for additional services which were not anticipated in the terms of the original contract. On August 29, 1988, the Supreme Judicial Court ordered the Sheriff of Suffolk County to increase the number of residential beds under the program to forty. At that time, there were no beds available. Subsequently, ten beds became available on October 1, 1988, and another ten beds became available on January 20, 1989. These twenty additional beds will be paid for at a rate of \$36.97 per bed, per day, and will be covered up until May 2, 1989, by a grant from the Commonwealth of Massachusetts' Executive Office of Human Services. The cost of this amendment, which is effective on May 3, 1989, shall not exceed \$43,624.60, which I have determined to be reasonable. The total cost of this contract, as amended, shall not exceed \$78,683.74. The period of this contract shall not change from July 1, 1988, to June 30, 1989.

Because of the professional nature of the service to be performed, I believe that public advertising would serve no useful purpose.

Please excuse the late submission of this letter because I was originally seeking funding for these additional beds through a grant from the Executive Office of Human Services but was later denied.

Very truly yours,

Robert C. Rufo,
Sheriff of Suffolk County

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, based on the following communications:

ADMINISTRATIVE SERVICES DEPARTMENT

Office of Budget and Program Evaluation

Behavior Training Film

Dear Mayor Flynn:

I respectfully request your Honor's permission to award an unadvertised contract to Middle Passage Educational and Cultural Resources, Inc., 791 Tremont Street, for the period of May 9, 1989, through June 30, 1989, at an amount not to exceed \$20,000.

Under the terms of the contract, Middle Passage Educational and Cultural Resources, Inc. will produce a training film on discriminatory behavior in the workplace utilizing the Department of Health and Hospitals as the primary setting. The completed audio-visual production will focus on discrimination issues relative to color/culture, gender and language in the workplace. The program will be produced on one-half inch videotape and the length of the program will be approximately twenty minutes. Middle Passage Educational and Cultural Resources, Inc. will be responsible for the pre-production through post-production process.

Two employees from the Department of Health and Hospitals, Deborah Tynes, Director of Affirmative Action and Patricia DeRosa, Education Coordinator, submitted a proposal to the Boston "Work Smarter Program" for the development of a video aimed at eradicating discriminatory behavior in the workplace. Ms. Tynes and Ms. DeRosa were recently notified that they had been awarded the funds to implement their proposal. Five companies

were solicited for proposals and two responded. Based on the criteria for selection, Middle Passage Educational and Cultural Resources, Inc. was chosen. Middle Passage is a media arts organization whose express purpose is to create educational and cultural resources that eradicate negative racial stereotyping and promote positive images of people of color. The contractor has had extensive experience in video production and multicultural training in the Boston area and is a SOMBA certified agency.

The cost, totaling \$20,000, was deemed reasonable for a production of this length and complexity and this amount will be charged against OBPE appropriation 011-140-0141-BP05-0610.

In view of the contractor's experience and expertise, and because the cost, in my opinion is reasonable, no benefit would inure to the city by publicly advertising for bids. Work must begin immediately in order for the project to be completed by June 30, 1989. Because the awards were just announced and the paperwork necessary to complete the contract could not be submitted prior to May 10, 1989, this contract is being processed late.

Sincerely,

Barbara S. Gottschalk,
Director

Policy Office

Research, etc.

Dear Mayor Flynn:

I respectfully request your permission to dispense with public advertising and to award a contract to Citywide Educational Coalition, a nonprofit corporation, for the production and distribution of certain materials related to the Boston Public Schools.

Under the terms of this agreement, the contractor shall produce ten issues of *Parents Notebook*, a monthly informational resource for the parents of elementary grade children in the Boston Public Schools. Additionally, the contractor shall conduct research and provide the Policy Office with quarterly oral and written reports on issues facing Boston Public School children and parents.

Compensation under this contract shall not exceed \$18,000, a figure that I deem reasonable for the services to be rendered. The term of this contract shall be from July 1, 1989, through June 30, 1990.

Because of the professional nature of the services to be provided and the contractor's unique ability to provide such services I believe that public advertising would serve no useful purpose.

Sincerely,

Daid Cortiella,
Director

Printing Section **Support Services**

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Profit Control Systems, a corporation located at New York.

Under the terms of the contract, Profit Control Systems, at the request of a designated representative of this department, will supply support services applicable to the operation of all purchased Profit Control Systems software and to diagnosing equipment and operating system software problems located in the Printing Section.

Profit Control Systems is specially qualified to do this work because the computer management system was purchased from them and only they can supply support services to their unique software. The support department at Profit Control Systems has the knowledge and expertise of how the programs and file structures behave. Since the software is copy incorporated, it is impossible to obtain the source codes to the software, making it non-feasible for any other person or group to even attempt to support the system.

Compensation under this contract shall not exceed \$3,000, which I have determined to be reasonable for the work to be performed. This funding will be charged against appropriation 011-140-0145-0270 with an initial encumbrance of \$3,000. The reason for the decrease from the previous fiscal year is because we updated our computer system and we now have a new IBM system.

Profit Control Systems has had a contract with this department for the previous three fiscal years, FY'89, FY'88 and FY'87. The encumbered amount for FY'89 was \$6,100; for FY'88 it was \$6,100; and for FY'87 it was \$6,100.

Because Profit Control Systems is specially qualified to do this work for a reasonable price, I believe that public advertising would serve no useful purpose.

Very truly yours,
William J. Hannon,
Superintendent.

CITY COUNCIL

Stenographic Services

Dear Mayor Flynn:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Mrs. Mary E. Ford, d/b/a Ford Reporting Associates, 85 Merrimac Street, for the purpose of providing stenographic services to the members of the Boston City Council.

Under the terms of the contract, Mrs. Ford will report and index the minutes of the regular Council sessions held by the Boston City Council, and will also take and transcribe the various public hearings held by the Council's committees. Mrs. Ford is uniquely qualified to do this work as she is one of few persons in the City of Boston to do stenography of this kind, and upon inquiries, the least expensive. Mrs. Ford has been engaged by the Council for a number of years, including the last three fiscal years at the following rates: 1989: \$28,000; 1988: \$24,000; and 1987: \$20,000.

Compensation under this contract shall not exceed \$29,400. Payment is to be made at a rate of approximately \$1,150 for reporting and \$850 for indexing per month in addition to any other transcription charges where applicable, for City Council public hearings. I am of the opinion that the terms of this contract are both just and reasonable. This funding will be charged against appropriation 011-112-0112-CC01-0290 with an initial encumbrance of \$29,400.

The term of this contract shall be from July 1, 1989, to June 30, 1990.

Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purpose.

Respectful yours,
Christopher A. Iannella,
President.

CONSUMER AFFAIRS AND LICENSING

Legal Services

Dear Mr. Mayor:

I respectfully request your Honor's permission to

dispense with public advertising and to award a contract to Murphy, DeMarco and O'Neill, P. C. located at 20 Custom House Street, for legal services rendered to the Mayor's Office of Consumer Affairs and Licensing.

Under the terms of the contract, Murphy, DeMarco and O'Neill, P. C. will represent the city in the litigation entitled, *Highland Tap of Boston, Inc. and Frank Alexopoulos, Manager of Highland Tap v. Diane J. Modica, as she is Commissioner of the Mayor's Office of Consumer Affairs and Licensing, and the City of Boston.* (Superior Court Department of the Trial Court, Civil Action No. 87-7200.) Counsel will consult with the Corporation Counsel on a periodic basis as may be required and obtain his approval prior to commencing significant actions in this case. Murphy, DeMarco and O'Neill, P. C. is uniquely qualified to provide these services because of its expertise in constitutional and civil rights matters.

Compensation under this contract will be at the rate of \$125 per hour and shall not exceed \$18,000, which I deem to be reasonable for the work performed.

The term of this contract shall be from July 1, 1989, to June 30, 1990. Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purpose.

Murphy, DeMarco and O'Neill, P. C. has had a contract with this department for two previous fiscal years, FY'88, in the amount of \$65,000 and FY'89, in the amount of \$60,000.

Sincerely,
Diane J. Modica,
Commissioner

SUMMER PARKS PROGRAMS KICKOFF

The Boston Parks and Recreation Department announced an ambitious summer programming agenda at its annual Parks Kickoff. Held at the bucolic, 527-acre Franklin Park, the event showcased a variety of free summer programs sponsored by the Parks Department and the City.

As part of the ceremony, Boston Mayor Raymond L. Flynn and Parks Commissioner Lawrence Dwyer installed 40 seasonal Park Rangers who will provide nature tours, environmental classes and public information throughout the park system this summer.

Mayor Flynn, along with Community Schools Director William Doherty, also released the City's Youth Services Guide, a comprehensive listing of recreational, educational, and job opportunities for Boston youth.

Mayor Flynn said, "This year we have made youth our top priority, and parks play a leading role in our efforts to provide positive, healthy alternatives to inner city children.

"The City is working closely with business, community, and environmental groups to make sure that the park system in Boston remains one of the best systems in the nation. Keeping the parks clean, safe, and active sends a message to the people of Boston that we care about each neighborhood's well-being."

According to Dwyer, Franklin Park was chosen for this year's summer event because of the enormous strides it has made over the past two years.

"Franklin Park is now one of the premier parks in the city," Dwyer said. "Thanks to a real commitment by the Franklin Park Coalition, the Golfers' Association, the GreenSpace Alliance, and other groups, Franklin Park has emerged as one of the city's great treasures, as it was originally envisioned by its creator, Frederick Law Olmsted."

The Parks Department has just completed a \$1.3 million renovation of the 18-hole golf course, and over the last two years has completed major clearing of undergrowth throughout the park. Dwyer said that special events such as the annual kite festival would be supplemented by other activities such as open door theater and concerts.

Programming Director Frank Grigalunas said that the Parks Department would again staff 17 parks throughout the city, and bring back popular programs such as SoxTalk, sailing programs at Jamaica Pond and the Courageous Sailing Center in Charlestown, and free concerts at Copley Square, Jamaica Pond, and Boston Common.

For a complete listing of free activities offered by the Boston Parks and Recreation Department, Call 725-4505.

WATER RESTRICTIONS MODIFIED

The Massachusetts Department of Environmental Quality Engineering has modified its water supply emergency order, however, water restrictions are still in effect.

Outdoor water use is now prohibited between 10 a.m. and 6 p.m., with the following exceptions. Flowers and plants may be watered from a watering can or bucket at any time during the day. Commercial car washing, professional building and window washing are allowed. The outdoor use of water to install trees, shrubs or sod is permitted on the day of installation at any time. Pools may be filled between 6 p.m. and 10 a.m.

Violations of the water supply emergency order are now subject to monetary penalties. The Boston Water and Sewer Commission is enforcing new water conservation regulations in the City of Boston through the following procedures, which were enacted at the June Commission meeting.

When the Commission's water conservation coordinator, Amy Keith, receives a report of outdoor watering use during restricted hours at a specific address, the Commission issues a letter to the water user advising the individual of the restricted hours and penalties. If a second report is received, a Commission inspector will investigate the situation.

If the violation is verified, a cease and desist order will be issued by the chief engineer of the Boston Water and Sewer Commission. At this time, a penalty may be imposed. The schedule of penalties proposes a maximum penalty of \$1,000 for violation of a conservation restriction.

The following is a list of violations with a maximum penalty of \$1,000:

- Knowingly permitting unnecessary waste.
- non-compliance with Commission conservation restrictions on decorative fountains, irrigation systems and outside watering during drought conditions.
- unauthorized use of water from a hydrant.
- free-flowing fountain without an operating shut-off mechanism.
- running of outside decorative fountain during October 15 - March 31 period.

Other violations include:

- tampering with or obstruction or bypass of water meter outside meter-reading device - maximum penalty of \$500.
- failure to repair leaks - maximum penalty of \$100.

For more information on the water supply emergency order and enforcement measures, individuals may call Amy Keith, water conservation coordinator, Boston Water and Sewer Commission, 330-9400, Monday through Friday, 9 a.m. to 5 p.m.

CHILD SAFETY SEAT TRAINING HELD AT BOSTON CITY HALL

Approximately forty Boston area health center professionals gathered at City Hall for the "Car Safe Baby Program" training session during the month of May.

Sponsored by the Steering Committee of the Boston Transportation Department's Community Traffic Safety Program, and funded by the Governor's Highway Safety Bureau, the two-hour session focused on correct use of child safety seats.

Diane Ricciotti, a Steering Committee member and Passenger Safety Training Specialist at the Massachusetts Department of Public Health told the health center audience that in Massachusetts, two out of three seats are used incorrectly. Some errors completely eliminate the protectiveness of the seat.

Health Centers To Continue Training Program

The audience intently watched two videos. "Children in Crashes," provided by the Insurance Institute for Highway Safety, demonstrated the importance of correct seat use. The second, "Getting It Right," developed by

Shinn and Associates, of Okemos, Michigan, was provided at a 50 percent discount to the program.

This video, with more educational content, illustrated how to use child safety seats for maximum protection. Each health center received a training package for use in its clinic. The package included "Getting It Right," the educational video, printed materials and an infant safety seat, which will all be used in clinic training sessions.

Richard Dimino, Boston Transportation Department Commissioner, commended the efforts of everyone involved with the project, saying that without the efforts of dedicated people, beneficial programs such as this one would not be successful. Terry Schiavone, Director of the Governor's Highway Safety Bureau and Nancy Carrey-Beaver, Director of the Passenger Safety Program, Massachusetts Department of Public Health, also spoke briefly, praising the work of health centers in attendance and the Steering Committee.

Members of the Steering Committee Larry Boran, Leslie Formby, Frank Sullivan, Officer Richard MacDonald, Edwina Cloherty and Diane Ricciotti, all look forward to a continual rise in correct use of child safety seats through health center training programs for their clients.

The National Highway Traffic Safety Administration says that approximately 53,000 children under the age of four could escape bodily injury resulting from automobile accidents, if child safety seats were used correctly at all times.

The Steering Committee believes the "Car Safe Baby Program" will contribute to making cars safer for our neighborhood children.

HIGHWAY CONSTRUCTION

Dorchester/Roxbury District: Beauford Lane from Dacia Street to Howard Avenue.

This project is part of Mayor Flynn's five-year capital improvement plan, "Rebuilding Boston," a \$920-million investment plan for the City of Boston.

This plan, prepared by the Office of Capital Planning, represents the Mayor's commitment to rebuilding, upgrading and renovating schools and public libraries, parks and open spaces, police and fire stations, roadways and sidewalks, and public safety equipment.

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, based on the following communications:

SCHOOL DEPARTMENT Competency Diploma Program

Dear Mr. Mayor:

As superintendent of the Boston Public Schools, I respectfully respect your authorization for the award of a contract to Jobs for Youth, a corporation located at 213 Stuart Street.

This contract shall be in effect during May 15, 1989, to June 30, 1989, and shall occur at a cost not to exceed \$25,000, which I have deemed to be reasonable.

Under the terms of this contract, the contractor will work with the Boston Public Schools to plan and implement a competency diploma program with six alternative education programs and four high schools participating.

Jobs for Youth has worked closely with dropouts from the Boston Public Schools in the past. They have been leaders in developing with the Boston Public Schools a credit-earning relationship that allows dropouts from the public schools the opportunity to earn credit for academic work completed at the alternative, once the programs's curriculum has been approved by the B.P.S. Office of Curriculum and Instruction.

Jobs for Youth is uniquely qualified to enhance this relationship and further develop the competency-based diploma program.

Because of the professional nature of the services to be provided under this agreement and the expertise of the contractor in providing these services, it is my determination that the public interest would not be served by publicly advertising for bids.

This is the first contractual agreement of this kind between the Boston Public Schools and Jobs for Youth.

Very truly yours,

Laval S. Wilson,
Superintendent.

Training

Dear Mr. Mayor:

The recently passed Asbestos Hazard Emergency Response Act requires the training of custodial personnel in order to comply with this mandated regulation. Training must be done by licensed personnel experienced in asbestos abatement and hazards.

Two companies have had extensive experience in the City of Boston School Buildings: BCM Engineers and Hygeia, Inc. Both companies have the required personnel and expertise to perform the required training. However, the time restraint and the logistics of training approximately 500 custodial personnel, before July of 1989, would be very difficult for one company.

I, therefore, request your approval of my action in awarding two contracts, without public advertising, to provide required asbestos hazard emergency response training to custodial personnel. Each

contract shall not exceed \$25,000 and will be for the training of approximately 250 people.

The recipients of the contracts shall be BCM Engineers, Pennsylvania, length of contract Feb. 21-24, 1989, and April 18-21, 1989 and Hygeia, Inc., Wellesley, length of contract April 1-June 30, 1989. These companies are the two most knowledgeable and experienced contractors on asbestos in the Boston Public Schools.

Respectfully yours,
Robert R. Roy,
Senior Structural Engineer.

CONTRACTS AMENDED

The Mayor has approved the amending of contracts, based on the following information:

PARKS AND RECREATION DEPARTMENT

Catering Services

Dear Mr. Mayor:

On September 6, 1988, your Honor approved an award of a contract based on public advertising for bids, to Police Athletic League for providing catering services for various parks events during the period July 15, 1988, through June 30, 1989, at a cost not to exceed \$10,000.

The above contract is for providing catering services, support staff and game equipment for various park events. The services have been provided by P.A.L. for the Park Department at Mayor's Youth Olympics, Field Days and other special events. Due to the success of last summer's events, the Park Department would like to continue services this spring.

The Park Department will be coordinating five field days to be held in May and June. We are anticipating an average of 400 individuals to participate in each field day event for which P.A.L. will be providing food services at \$2.10 per person.

Because the services provided by the contractor will assist in the successful implementation of field day events, your approval is requested to amend this contract to provide funds for catering services. Payment for work performed will be at the original contract unit prices.

The cost of this amendment which is effective on May 15, 1989, shall not exceed \$5,000, a sum

which I have determined to be reasonable. The contract as amended shall not exceed \$15,000.

Because time is critical factor, and because the contractor has performed satisfactorily, it is my judgment that the amendment proposed is in the best interest of the city, and that public advertising would serve no useful purpose.

Very truly yours,
Lawrence A. Dwyer,
Commissioner.

POLICE DEPARTMENT

Drop-A-Dime Program

Dear Mayor Flynn:

On June 30, 1988, your Honor approved the award of a contract, without public advertising for bids, to Drop-A-Dime/Report Crime Intelligence Data, Inc. for assistance in gathering intelligence on criminal activities in Boston's neighborhoods during the period July 1, 1988, through June 30, 1989, at a cost not to exceed \$20,000.

Your approval is requested to amend this contract to provide financial assistance for additional program costs incurred during Fiscal Year 1989. Drop-A-Dime has served the Boston Police Department's Bureau of Special Operations since Fiscal Year 1988 and since that period has become a valuable intelligence source, especially on drug-related crimes. The Boston Police Department requests your permission to amend this contract to include operational costs associated with conducting a comparison study of Boston's youth gangs to those of Los Angeles and New York and for the organization of a Youth Pride March. The cost of this amendment, which is effective on May 15, 1989, shall not exceed \$3,000, which I have determined to be reasonable. The total cost of this contract, as amended, shall not exceed \$23,000. This funding will be charged against appropriation 011 211 0211 PD07 0290 with an initial encumbrance of \$3,000.

In light of the unique experience of a Drop-A-Dime Program as a valuable informational source on crimes and your Honor's commitment to the program, I submit that public advertising would serve no useful purpose.

Respectfully,
Francis M. Roache,
Police Commissioner.

PUBLIC FACILITIES DEPARTMENT

Architectural Services

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on March 30, 1989, I respectfully request your Honor's written permission to dispense with further public advertisement and amend a contract approved by your Honor on September 3, 1987 to Sutphin Associates for the purpose of architectural services in support of various small-scale Community Development Block Grant projects during the period August 1, 1987, to June 30, 1989, at a cost not to exceed \$40,000.

Your approval is requested to amend this contract to provide for additional funds for architectural services necessary for the completion of two projects under construction, and to finalize construction drawings to provide construction supervision and inspection for a third project. The cost of this amendment shall not exceed \$5,000, which I have determined to be reasonable. The contract, as amended, shall not exceed \$45,000. The period of performance shall remain the same.

Because of the professional nature of the services to be provided, and the qualifications of the

contractor, I believe that public advertising would serve no useful purpose in this instance.

Sincerely,

Lisa G. Chapnick,
Director.

PUBLIC WORKS DEPARTMENT

Engineering Services

Dear Mr. Mayor:

On January 10, 1987, you approved the award of a contract, without public advertising for bids, to Seelye Stevenson Value and Knecht, of 230 Congress Street, for engineering services relative to the rehabilitation of the Summer Street Bridge over Fort Point Channel, SC-7671(87), at a cost not to exceed \$183,300, for the period November 15, 1986, to November 15, 1987, which has been extended to June 30, 1990.

Your permission is respectfully requested to amend this contract to provide for additional engineering services not anticipated in the original contract.

It has become necessary to institute immediate steel repairs to the superstructure, and the consultant will provide engineering services for the design phase and the construction phase of this work.

It has also become necessary to provide historical and environmental services based on the requirement of an environmental assessment/environmental notification process and a historic documentation of the bridge.

The cost of this amendment, which is effective on June 1, 1989, shall not exceed \$13,500, a lump sum, for the design and construction phase, and \$26,500, a lump sum, for the historical and environmental services, for a total of \$40,000, which I have determined to be reasonable for the work. The contract, as amended, shall not exceed \$223,300.

Inasmuch as this work is related directly to and in conjunction with an existing contract, I feel that public advertising would serve no useful purpose.

Very truly yours,

Joseph F. Casazza,
Commissioner.

Trucks for Plowing

Dear Mr. Mayor:

On December 12, 1987, his Honor, the Mayor, approved the award of a contract, without public advertising for bids, to GSX Corp. of New England, now doing business as Laidlaw Waste Systems, Inc., located at Charlestown, Massachusetts, for furnishing trucks for plowing operations during the snow season, SC-7671(88) at a cost not to exceed \$6,000, for the period November 15, 1987, to April 30, 1988.

Your permission is respectfully requested to amend this contract to provide for additional funds that are necessary for work that was done but never paid for, as only very recently, work sheets necessary to accurately verify time worked, were found not to have been previously submitted.

Upon investigation, it was determined that this was caused by an inadvertent breakdown in the reporting system, and many reports were subsequently lost.

A meeting was held to determine the cause of the breakdown in the reporting system and new measures were agreed upon to insure that this problem would not be repeated.

The cost of this amendment, which is effective on February 1, 1988, shall not exceed \$9,000 at rates set forth in the original contract and are reasonable for the services. The contract, as amended, shall not exceed \$15,000.

This letter is being prepared at this late date, as copies of the reports were only recently received, completed, and agreed upon by the contractor.

Inasmuch as this work is related directly to and in conjunction with an existing contract, I feel that public advertising would serve no useful purpose.

Very truly yours

Joseph F. Casazza,
Commissioner.

ATTENTION TO ALL BIDDERS

Minority/Women Business Requirements:

No bid for award of this project will be considered acceptable unless each bidder complies fully with the following requirements for Minority/Women Business Enterprise Utilization.

Pursuant to the Supplemental Minority/Women Participation section of this contract, each bidder must give satisfactory assurance that at least 20 percent of his bid price shall be expended for minority business enterprise and at least 5 percent of his bid price shall be expended for women business enterprise.

Each bidder shall submit with the bid completed Minority/Women Business Utilization Form (M/WBU-F). The Minority and Women Business Utilization Form shall be completed and signed by the M/WBE and the bidder. Failure to submit a Minority and Women Business Utilization Form with the bid proposal will result in the rejection of the bid.

The City of Boston Minority/Women Business Directory lists all minority and women-owned busi-

nesses that have been certified as such by the City of Boston. A copy of this directory can be obtained from the Parks and Recreation Department Affirmative Action Office, 1010 Massachusetts Avenue, telephone 725-4505 ext. 6110 or from the Mayor's Office of Jobs and Community Services Minority Business Office, 43 Hawkins Street, Boston, MA 02114. In the event that the bidder selects a minority or women business that is not included in the Minority/Women Business Directory provided by the Minority/Women Business Office, then a Certification Application completed by the non-certified business must be filed with the bid proposal. If the Minority/Women Business Enterprise is not eligible for certification, the dollar amounts obligated to a non-certified minority or women business will not count toward the contractor's minority/women business percentage requirement.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. The Commissioner reserves the right to waive any informalities and to reject any and all bids if it be in the public interest to do so.

Prospective bidders are requested to attend a prebid conference in the office of the Chief Engineer, 1010 Massachusetts Avenue, Roxbury, MA 02118, on Tuesday, July 11, 1989, at 10:30 a.m., Boston time.
